**Mr. Berringer Dies As Result Of Accident**

(Capital Journal Special Service)  
Scayton, April 22.—Thursday evening the 18th, while B. F. Berringer and family were returning to their home above Mehanza from a visit with friends, the team they were driving became frightened and ran. Mr. Berringer attempted to stop them, but one of the lines broke. Mrs. Berringer either jumped or was thrown out, and the two boys jumped. Neither of the children were injured, and Mrs. Berringer not so badly hurt but that she is now recovered, but Mr. Berringer was thrown out in such a manner that his legs were caught in the wheels and both broken. After the accident he wished to find the condition of the other occupants of the rig and walked about considerably on his broken limbs, the bones of one of them protruding through the flesh. After he was taken home Dr. Brewer was called and until Saturday he seemed to be doing nicely, but at that time infection was suspected and Sunday it appearing more pronounced, he was taken to a Salem hospital and his leg amputated between the knee and thigh, owing to the shock of the accident, and also that of the operation and the loss of a large amount of blood previous to receiving medical treatment, he was unable to recover and passed away early Monday morning. He has been for a number of years a resident of a large farm on the Little North Fork and is quite well known here.  
Miss Josephine Kiser, who has been for the past eight months in Oregon City, is visiting her parents near Scio, and also with friends in Stayton.  
Word has been received of the death of the father of Mrs. Horace Lilly, Mr. Rice, at his home in Corvallis Sunday. Mrs. Lilly has been with him for several days. The funeral will be held in that city Tuesday.  
Lee Tate has returned from his visit with his father in California.  
W. A. Cladek was in Portland on business Monday.  
Mrs. A. F. Stowell of Cashmere, Wash., is visiting her sister, Mrs. W. A. Weddle.  
Mrs. A. C. Thomas has been visiting relatives in Portland for several days.  
Martin son of Richard Hensley, who has been in the navy the past three years, is home for a visit.  
Mumps is reported quite prevalent in the country adjacent to town.  
Mr. and Mrs. J. P. Wilbur motored to Portland Sunday. From there Mrs. Wilbur expects to leave for a visit with friends in Berkeley and other points in California.  
Miss Anna Spaniol of Portland, is visiting her parents, Geo. Spaniol and wife.

It seems that some of the most prominent people in the country were born out in the rural districts. For instance, there is Jules Eckert Goodman, born at Geneva. He is the author of the famous play "The Man Who Came Back," which is being played this week at the Helig theater in Portland. He also wrote the successful play "Mother." After passing his boyhood days at Geneva he went to Portland with his mother and was graduated from the high school there. Later he went through Harvard university and trained himself for a playwright. Herbert Hoover, Margaret Mayo and a lot of other prominent people came from Salem or vicinity.

part of London on which Italy's demands are based. It was admitted in Japanese circles that this conference failed of its purpose and that the matter must now be decided by the "big four."  
**Italy Faces Revolt**  
Meanwhile, unofficial information received in Paris tended to show that Orlando and Sonnino are guided in their attitude largely by the international situation at home. It was reported that conditions there are such that a revolution, either bolshevik or republican, is likely soon. Distribution facilities are poor, the coal supply is greatly reduced and the whole nation is known to be uneasy. Socialistic demonstrations with an occasional anarchistic disturbance are becoming more common and harder to suppress. Many observers expressed the belief that continuation of the present government depends on the firm attitude of the Italian peace delegation regarding Fiume and Dalmatia, annexation of which has become a national fetish.

touch with the ministry of the interior, demanding news. The crowds in the streets are impatient. The tone of dispatches from Paris remains largely pessimistic. The correspondent of the Giornale D'Italia states the situation arising from the failure to harmonize Wilson's views with Italian aspirations is grave.  
**Jugo-Slavs Laud Wilson.**  
Dispatches from Trieste indicate the entire Croatian press is conducting a defamatory campaign against Italy and is calling Wilson the most sincere friend the Jugo-Slavs have.  
Anti-Siberian disorders are increasing. The Agram Neurtag says 27 persons were killed in a clash between troops and civilians when the latter attempted to liberate several "incarcerated patriots."  
French troops were dispatched to restore order.  
The Milan press is calling attention of the police to the feverish activity of several Russians. One of these, formerly penniless, deposited a large sum in a local bank.  
The Russian consulate also is said to be well supplied with funds.

**GERMAN GOVERNMENT**

their interests to enslave the German Michael (common people), who suffered while the capitalists loomed money.  
**Huns Willing to Pay.**  
"The Germans were not heavily taxed. The war debts were entirely floated by bonds. The Germans are willing to pay France and Belgium, though they will refuse to work and repay the whole outside world. There is one way we can pay our obligations to the entente. We must have a dictatorship of the proletariat, at least temporarily. By proletariat, I mean everyone who works, whether with his hands or his head. We would not make the same mistakes Russia did. We would limit a man's earning capacity. Thyssen, the millionaire manufacturer, who has brains, would earn the same salary he received in the past, but could not speculate and amass a fortune for his heirs.  
"Give the workmen a chance by lifting Germany's load. It is the only way the entente can collect. Do not judge Germany by taking America as an example. Your country never was shackled by a militaristic capitalism, the same as we are.  
**Dictated Peace Deserved.**  
"The biggest mistake the entente has made since the armistice was signed was giving in to Germany on the Danzig question. The militarists now are bragging they will just show a little spunk and get what they want at Versailles.

"Germany ought to have a mented peace. It is all we deserve. Then we should pay up. There would be peace in 24 hours if the people did the signing instead of the present government."

**TO PROPERLY TREAT OBSTINATE WRINKLES**  
\*\*\*\*\*  
Particularly where wrinkles are long and deep, the massage devotee is apt to rub too hard and too frequently. This loosens the skin, causes muscles to sag, aggravates the wrinkled condition—just the opposite result from that sought.  
Better than massage, or anything else, for the most obstinate wrinkles as well as the finest lines, is a remarkable formula which you may readily avail yourself of, as you will have no difficulty procuring the constituents from your druggist. It is this: One ounce powdered saxolite, dissolved in one half pint witch hazel. Bathe face, neck and hands in this. The effect is really marvelous, not only as to wrinkles, but also in cases of baggy cheeks and chin. The application is cooling and soothing, tending to relieve fatigue. Both the witch hazel and the saxolite are, of course, entirely harmless to the skin.

**More Time for Debate**  
Rome, April 21.—(United Press)—Postponement of the opening of the Italian parliament, announced yesterday was generally regarded today as the maximum concession on Italy's part in regard to her territorial claims. It was pointed out that this would permit two weeks further consideration (until May 6) of the Italian program. Beyond granting this additional time, Italy is unwilling to go and it is openly declared in official circles that the allies must accept her claims within that period or Italy would take other steps to enforce them.  
(Unofficial reports have been circulated that Italy is prepared to undertake military occupation of the disputed territories.)  
"Foreign Minister Sonnino is determined to obtain what was granted us in the pact of London, which is Italy's minimum demand," declared the Paris correspondent of the Giornale D'Italia. "He will not renounce a single foot of territory. President Wilson must be convinced that our Adriatic claims admit of only one solution—Italy's."  
Following the cabinet session this afternoon several members were questioned regarding the situation in Paris. All replied that they confidently await the decision.  
By Fred S. Ferguson.  
(United Press Staff Correspondent.)  
Paris, April 22.—Japanese and Chinese representatives presented their rival territorial claims at this afternoon's session of the "big four."  
Premier Orlando was again absent from the meeting, apparently eliciting the belief that the Italians have withdrawn from the peace conference, pending definite action on the Adriatic question.  
The city is awaiting the decision on Italian claims with intense nervousness. The keynote of public speeches is connection with the city's celebration of its 2672nd birthday, was annexation of Fiume and other Adriatic cities. Deputies and senators are constantly in Orders received at Mare Island navy yard call for immediate preparation of a landing place for hydroplanes as a step to permit the carrying out of practice flights between Mare Island and San Diego.

**Equal Rights for Women**

Every woman has the right to be as healthy, vigorous and efficient as her husband, son, brother, or friend. Nature intended woman to be unhampered and unhandicapped by any sex weakness. But, unfortunately, woman is very predisposed to constipation, not of necessity, but due to faults or bad habits of omission or commission.  
Constipation is nothing but a bad habit. Taking purgative, cathartic, or laxative medicines to force the bowels to move is another bad habit—even a worse habit.  
But Nujol is particularly suitable for the overcoming of constipation and its resulting evils in women.  
Nujol is not a drug—does not act like any drug.

Nujol acts by bringing about a readjustment of the mechanism provided and intended by Nature for the removal of food waste from the body.  
Nujol is effective at any age, under any conditions, especially during those periods and conditions in which the use of purgatives, cathartic or laxative medicines is not only harmful, but dangerous. Nujol is safe, pleasant to take, sensible, agreeable in effects, never forms a bad habit.  
Get a bottle of Nujol from your druggist today, and send coupon for free booklet, "Thirty Feet of Danger."  
**Warning:** Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on Nujol. You may suffer from substitutes.
