Better Have Your Eyes Examined

DR. A. McCULLOCH OPTOMETRIST
204-5 Salem Bank of Commerce Bldg.

CITY NEWS

Mr. and Mrs. H. F. McClay, of Roedsport, Oregon, are among the guests at the Marion hotel today.

Friday afternoon, at the home of Dr. and Mrs. Sherwood, occurred the annual picnic of the students of the Kimball School of Theology, at which dignity was laid aside and fun had the right of way. The afternoon was largely devoted to sports and contests. There was a 100-yard dash for the men in which C. Murray Keefer was winner. The same event for the women was won by Lila Marcy. A potato race was won by Mrs. E. G. Raaton and Geo. A. Abbott. The egg race was taken by Wm. Nicholl, while the pie-eating contest was won by Alfred Bates. To these events were added baseball and horseshoe games. A fine dinner was served picnic style, with Geo. E. Abbott presiding. Toasts and responses were given as follows: "The Faculty" J. W. Warrell; "The Students" Dr. E. S. Hammond; "Reminiscences" Fred B. Royston; "Laolla Kimball Club" Sydney W. Hall; "Our Annual Picnic" Minnie Bates; "The Relation of the Theological School to the University" Wm. Nicholl. A vocal solo was contributed by Alfred Bates and an original poem by Mrs. E. Sherwood.

Members of the People's Chorus should bear in mind that next Monday evening will be the regular business meeting, with reports and election of officers. Everyone should be present, especially as it is desirable to have the full chorus at work upon the oratorio, which will be staged within a few weeks. Rehearsal of this production is being varied by devoting a part of each evening to the Handel's "Hallelujah Chorus" and a number of other high class compositions. There are now 100 enrolled in the chorus, but unfortunately it is difficult to secure a full attendance, which is to be regretted for those who fail to appear are not only missing a weekly pleasure but

PERSONAL

Mrs. Elizabeth Holton, who has been spending the winter with her sister in Portland, returned to Salem this evening. She has been with her sister, Mrs. G. A. Rockwell.

Harry Bonzo is in the city to visit his parents and to arrange for his daughter to keep house for him on the Tillamook ranch.

Junior Class Production, "Arrival Of Kitty" To Be Threat For Theatre Goers

In the "Arrival of Kitty," a three-act farce comedy to be presented by the Junior class of Willamette University, the people of Salem will see one of the best productions that has been staged here for some time.

James R. Mott, of Astoria, who is well known in Salem, will direct the play. This in itself is proof that the production will be excellent. Mr. Mott has directed a number of plays in Salem, and has an enviable reputation along this line.

The Willamette quartet, which is now making an extended trip in southern Oregon, will sing during intermissions. The personnel of the quartet is the same as last year, and they are well known to Salem audiences.

Prof. John R. Sites, director of the college of music, will direct a large orchestra. The work of Prof. Sites has been very much admired in Salem, and the music lovers of the town remember the fine concert given in March.

The Junior class play is a custom or tradition at Willamette that was dropped during the war, and the present class hopes to revive it by one of the finest productions that has ever been offered by university players.

Mr. Mott claims that the cast is the equal of any he has ever worked with. The parts are taken by people of exceptional ability, and with good coaching the result should be very good.

The cast is: William Winkler... Lyle Bartholomew; Jane... Odell Savage; Bobby Baxter... Gus Anderson; Moore... Harold Dimick; Sam... Oscar Olson; Ting... Clarke Story; Kitty Benders... Evelyn Gordon; Aunt Jane... Blanche Drake; Nazzet... Estelle Satchell.

This play will be given in the Grand opera house Friday, May 2, at 8:15 p. m. The tickets will be on sale at the Oper House Pharmacy, and reservations may be made Wednesday morning.

Industry of Marion county. Inquiries are almost daily received by the Commercial club for information regarding pruned tracts, cost per acre, probable returns from investments climate around Salem and such, but there is no printed information covering the ground. The pamphlet issued by the Commercial club five years ago says that the growing of prunes is quite profitable, but when it comes down to practical information there is none.

Although there were several rumors of a long war in Chinatown, it has now developed that the only trouble was a little personal scrap between Mrs. Hing and Charlie Wong, who happen both to live in the center of the Chinese shanty district, south of the Hubbard building. Mrs. Hing has a couple of boys who helped make life miserable for Charlie Wong and it is incidentally suspected they might have had something to do with the fire that started in Wong's hotel a few days ago. Anyhow, Mrs. Hing got pretty violent yesterday afternoon and it required a couple of policemen to take her to the city jail. She is still there, while the police are awaiting some of her friends from Portland. Mrs. Hing's husband was killed by a truck about two years ago. It was one of her boys that was taken to a barn over in Polk county a few evenings ago by several Salem boys about 12 years old and hanged. The boy was left suspended a few seconds and was taken down by other boys who were looking

BIG DEMONSTRATION OF BREAD MAKING HELD

Cherry City Baking Company Explains Process For Women Visitors.

A revelation of the mysteries of wholesale bread-making was afforded the ladies of the Aid Society of the Presbyterian church yesterday afternoon, as they were invited in a body to the plant of the Cherry City Baking Company, where the management put out a day run of bread for the special object of demonstrating the process. This proved a most interesting exhibition.

The general manager, Mr. Wise, first presented an exhibit of the whole grain ingredients that go into the various types of bread, and also a series of receptacles showing the processes of milling from the whole wheat grain to the superfine bolted flour. There was also a string of vivisection bread loaves, showing the texture at various stages of "raising."

The Cherry City plant is equipped with one of the largest and most elaborate bread mixing and moulding machines in use on the coast, demonstrating how it is possible to start flour and water at one end of the process and take out the browned loaves from the ovens with scarcely the touch of human hands. Flour and water are dumped into the mechanical kneading trough in lots of 1700 pounds, worked to the proper consistency, run into the "hopper" of the moulder apparatus, from whence it is successively cut out in piece of exact weight, flattened out, rolled up, elongated, dusted with flour, hustled through a labyrinth of endless carriers, and finally deposited in individual bake-tins, ready for the ovens. This machine turns out the finished pans of dough at the rate of 2200 an hour. From the mixing machine after rising an hour the pans are hustled into a battery of mammoth coke-heated ovens, where gauges are provided to show the degree of heat a fraction, and scorched bread is an impossibility. The efficiency of this equipment is being attested every day by the far-flung notoriety of the "Hudson" product.

Following the demonstration, the ladies were invited to seats at loaded tables where they were served with a delicious luncheon, largely made up of the products of the plant, including a variety of cakes, cookies, etc., of a quality to make the ladies question their own culinary ability. During the luncheon the manager gave an interesting talk as to the methods of baking and the extent of the commercial baking business.

Just what this establishment means as one of Salem's business factors may be gathered from the fact that in the course of a month they consume 100,000 pounds of flour, 3000 pounds of sugar, 2000 of fats, large quantities of syrups and molasses, in addition to lesser ingredients. The daily capacity of the plant is about 15,000 loaves of bread and a big output of cakes and pastry. The spread of their business is indicated by the fact that they are shipping products to 40 different cities of western Oregon, going as far south as Gold Hill and over to the Coos Bay country.

on, without any special damage to the Chinese boy.

Seventeen deeds for record were filed yesterday in the county recorder's office. All this besides the filing of several satisfactions and of one soldier's discharge. By the way, if a soldier wishes to feel sure his discharge papers are safe, he has the privilege of having it recorded in the county recorder's office at a charge of 40 cents. The office has a special book for miscellaneous recording of any instruments.

ENGINE KNOWLEDGE MAKES RACER STAR

Natural aptitude to understand an internal combustion engine made a star racing driver of Ralph Mulford, who will drive a Frontenac in the 500-mile Liberty Sweepstakes at the Indianapolis Speedway on May 31. Mulford comes from a little town near Portland, Me. From his earliest days he was fascinated by engines. Mulford started driving for the Lezier factory when it was located in Plattsburg, N. Y.

SHED HELP WOMEN UNDERSTAND LAW

Miss Louise Gilman has been appointed by the Y. W. C. A. to tour New York state for the purpose of explaining the bills concerning women which are before the legislature. Miss Gilman will meet members of the governing boards of Y. W. C. A.'s in the cities which she visits, as well as members of industrial girls' clubs or any other groups which desire to be informed on the bills. She will give the arguments for and against the bills with a view to helping the women to an intelligent understanding of them.

STATE HOUSE NEWS

Business has been very light in the Corporation Department during the past week, there being no new concerns of great importance incorporated. The list is as follows: Sweetland & Son Co., Portland, \$25,000; Clark Park Co., Portland, \$25,000; Wagner Razor Strip Co., Portland, \$7,000; Wassell Holgren Co., Portland, \$50,000; Western Oil Co., Medford, \$50,000; Claver Apple Syrup Co., Portland, \$50,000.

It is expected that a decision will be handed down by the supreme court next Tuesday in the case in which Portland, as well as California liquor interests are seeking to compel Attorney General Brown to write a ballot title for a provision whereby to bring Resolution No. 1, ad-

RUGS
