BUY V BONDS

# WHY?

'an you do better at Paris Bros. not only this week by buying your shoes from us—BUT EVERY WEEK. We carry shoes only of standard makes, which have a reputation all over this country.

Any one can sell you cheap shoes but when it comes to wearing they aren't there. Cheap shoes are the most costly shoes today.

When you buy shoes buy nothing but standard makes.

FLORSHEIM BUCKINGHAM AND HECHT KEITH KONQUEROR SHOES THESE MAKES BUILT OUR BUSINESS

### FULL COMMENCEMENT

(Continued from page one) retinue, who will escort her majesty to the box seat for her use at the performance. This will give the public an opportunity to see the queen at close range and to do the proper homage.

**To Observe May Day**  
All that is now required to make the outdoor festivities a round of unalloyed pleasure is the proper style of May weather. Though the crowning of the May Queen and a May pole dance are familiar sights, they will never cease to be fascinating and delightful. This year the ceremonies promise to be unusually elaborate. A great deal of work has been done by the committee in charge of the dances to make them perfect in every feature. In addition to the regular May pole dance there will be the "Flower dance," the "Blue bird dance," and the "Flirtation dance," which have been daily rehearsed under the supervision of four senior girls—Glenna Teeters, Helen Ross, Florence Shirley and Beth Briggs.

**May Breakfast Planned**  
Saturday morning, weather permitting, the young ladies plan to give the public an unusual treat in the form of a May breakfast at an early hour. This, in addition to being a gastronomic delight to the patrons, will be made exceedingly attractive with a floral and sylvan setting. The proceeds are to be used in defraying the usual expenses of the season.

Saturday will also be a great day in the athletic line, as there will occur the annual track meet, with a full program of events, and a ball game with the Chemawa team.

Estimates place the number of deaths from influenza among the native of the Belgian Congo at more than 500,000.

#### Agreement Rumored

While there have been rumors of a tentative arrangement whereby the rival claims of China and Japan will be deferred until after the treaty, these have been repeatedly denied. According to these reports, this proposition was made by the "big three," whereupon the Chinese and Japanese delegates referred the matter to their respective governments. As in the case of Italy, the basis for Japan's claims is a secret treaty formulated before the United States entered the war. The signatories are said to have been Japan, Great Britain, France, Italy and Russia.

By this pact, Japan is understood to have been granted a portion of the Shantung peninsula, the Chinese port of Kiao Chiao, which was seized from the Germans and certain German islands in the Pacific.

**Wilson Holds to Views**  
Wilson's statement last week, which the Italians blamed directly for their withdrawal from the peace conference, has been accepted in certain quarters as applying to all nations whose aspirations exceed the realistic terms and the "fourteen points." The president, however, is said to be prepared, if necessary, to issue another statement covering the present situation specifically.

## FLYING TAMESPORT DECLARES BIRDMAN

Spokane Newspaperman, Just Out Of Service, Says Thrills Are Few.

Spokane, Wash., April 29.—Looping the loop in an airplane isn't nearly so exciting as the layman would imagine, and as far as a straight cross country flying is concerned, well, it's about as sensational as a Sunday school picnic, according to Jim Marshall, a member of the Spokane Press staff.

The newspaperman has just returned from aviation service in France. It was only as a passenger that he flew through the air. His particular job was that of picking up the wrecks. Marshall tells of the sensations of the man, not a professional, who has made several trips, as follows:

"Except when the air is bumpy, riding the skyplanes is about as exciting as a wet Sunday in Weehauken. If there's anything more monotonous than straight cross country flying, nobody has yet discovered it. The air tourist of the future will probably be a p. o. stunter. He'll have to be to get much pleasure out of the ship.

"Bumps" Most Thrilling.  
"The bumps provide most of the thrills in straight flying. A car bump maybe one foot. A ship bump about 100 feet. When this happens suddenly, pilot and passenger gracefully leave their seats and cuddle against the safety belts. Hitting a 'hole' in the air gives one that satisfying feeling that the trim hasn't been altogether wasted. This thrill can be intensified by leaving off the safety belt altogether, and trusting to luck. I did this once in the gunner's cockpit of a Liberty bomber, and the gun mount and one hand just managed to make connections as I exited.

"Looping isn't half the thrill it's supposed to be. One pilot over in France—he was a preacher before the war—looped 300 times in 63 minutes a few weeks ago—and doing anything that number of times is calculated to take the ginger out of it. It's the earth that loops, anyway, according to the passenger's sensations. The old globe merely swings a ring around the ship when the pilot yanks the joystick all the way back.

**Changing Plugs Easy.**  
"Because the modern ship will fly herself, if let alone, changing clothes in aviation uniform. Shutting off the engine stant in France to go up in the front seat, in a suit of civilian clothes, and come down in the rear seat in an aviation uniform. Shutting off the engine and changing spark plugs in the

Seattle will probably be apprehended shortly and their movements for the past month ferreted out in an effort to trace the senders of the bomb.

**Investigation Goes On.**  
New York, April 29.—An investigation was being conducted here today by Gimbel Brothers, following the receipt of an infernal machine in Seattle, Wash., addressed to Mayor Ole Hanson. The bomb, reports said, was wrapped in paper bearing the Gimbel department store address.

Members of the firm pointed out it would be easy for anyone to make a purchase at the store and then use the paper for other wrapping. Postal authorities also have started an investigation.

## PHYSICALLY FIT AT ANY AGE

It isn't age, it's careless living that puts men "down and out." Keep your internal organs in good condition and you will always be physically fit. The kidneys are the most overworked organs in the human body. When they break down under the strain and the deadly uric acid accumulates and crystallizes look out! These sharp crystals tear and scratch the delicate urinary channels causing excruciating pain and set up irritation which may cause premature degeneration and often do turn into deadly Bright's Disease.

One of the first warnings of sluggish kidney action is pain or stiffness in the small of the back, loss of appetite, indigestion or rheumatism. Do not wait until the danger is upon you. At the first indication of trouble go after the cause at once. Get a trial box of GOLD MEDAL Barium Oil Capsules, imported direct from the laboratories in Holland. They will give almost immediate relief. If for any cause they should not, your money will be refunded. But be sure to get GOLD MEDAL. None other is genuine. I would have three boxes.

air is another simple thing. "Lots of army planes in the A. E. F. are being used to run champagne and cognac into American camps, which are theoretically dry. There isn't much of a thrill to this, for the chances of getting caught are practically nil.

"All in all, flying has become tame. Carelessness, either in the hangars, on the field, or in the air, is the cause of 99 per cent of the crashes. Less than 1 per cent of the crashes are fatal. "So there you are. If your cosmo craves thrills, stick to the old gas bus, choose a road with plenty of 'death curves' and open her up wide."

## Free Movies To Be Feature Boy Scout Program Tonight

To those who are interested in scouting for boys and who delight in an extraordinary good program full of boy life and enthusiasm, the Boy Scouts offer an unusual entertainment to be held this evening at the Congregational church at 7:30 p. m. One of the features of the program will be the first second class investitures that have been officially made in the city of Salem. Scouts Herbert and Harold Sosolofsky, Joseph Nuan and Arthur Hamilton will receive this honor at the hands of the scout executive.

An exhibition worthy of the notice of all the good people to Salem who are interested in the education of teen-age life, will be the showing of the film "Thomas Jefferson Morgan-P-J-G," which features a three-reel vacation motion-picture of genuine interest. This picture has been received enthusiastically at parent-teachers' associations, the Young Men's Christian association and various educational agencies. These films are here under the auspices of the Boy Scouts of America and will be exhibited at their program this evening. To all who love boys or who would solve boy problems an invitation is extended to see this program.

## British Agree To First League Meeting In America

Paris, April 29.—(United Press)—The British were reported today to have agreed that the first meeting of the league of nations shall be held in Washington with President Wilson presiding. Article V of the covenant provides the initial meeting of the assembly of the council shall be called by the president of the United States.

## Buy In Salem Week What It Means

It means that for one week ending Saturday, May 3rd, Salem merchants (under the auspices of the Chamber of Commerce) are making a united and determined effort to convince the people of Salem and vicinity of the advisability of trading in their home town, not this week but all the time.

## Why Trade in Salem

Because at no other city in Oregon, except possibly in some of the Portland stores, can you find such extensive and carefully selected stocks of everything to eat and wear. Our Dry Goods, Men's Furnishings, Hardware, House Furnishings, Women's Apparel, Grocery and Drug Stores will compare favorably with the best there is in any city or state. Moreover a comparison of prices will convince you that you can always buy for less in Salem, principally because of our low overhead expense.

True Salem merchants pay as large salaries and observe as advantageous store hours as are in effect anywhere, but there are other items, notably rents and advertising which are away below what are paid in larger cities.

But merchants of Salem to acquire complete confidence and a greater degree of patronage must stand united for a square deal to the public. Truthful advertising should be strictly observed and offer for sale only dependable merchandise.

## Decision On Fourth Of July Celebration To Be Made At Meeting Tonight

Whether Salem is to hold a Fourth of July celebration, or whether it will pass up and let the patriotically inclined celebrate elsewhere, will be decided at the mass meeting of business men and professional, called for the auditorium of the Commercial club this evening.

There seems to be but little interest in the proposed celebration and judging from the meeting that was called last week, there is a feeling that the people of the city are not interested enough to give any personal or financial help.

One member who has been on working committees stated today that unless there is a general rallying to the support of the proposed celebration, there would be none and the only thing going on in Salem on the Fourth would be the home-coming to the soldiers by the War Mothers.

"If the men of the city won't come out and say what they want tonight," said an interested worker, "there will be no Fourth of July celebration in Salem. In this case, 'George won't do it.' The meeting tonight will decide. It will take a lot of work and a lot of money to put on the right kind of a Fourth."

## INTEREST IN CHAMPIONSHIP MEET AT O. A. C. AT HIGH PITCH

Oregon Agricultural College, Corvallis, April 29.—Entries for the two track meets to be held at the college May 3 are being received at O. A. C.

**BITRO-PHOSPHATE**  
Increases weight and strength of thin, debilitated, nervous people. It is the only digestible form of phosphate that feeds the nervous system, the chemically pure form of phosphate naturally found in brain and nerve cells. Sold by druggists under a guarantee of satisfaction or money back. Demand the genuine BITRO-Phosphate, the kind that physicians prescribe.  
**For Thin People**

and the meets promise to more than equal any held before the war. High schools which have signified that they will enter include Lincoln Jefferson, Washington, Franklin, James, John, and Columbia university of Portland; Madras, Union, Ashland, North Bend, La Grande, Salem, Albany, Corvallis and Lebanon. Schools of Washington will enter the northwest championship meet.

Germany has sent into exile 375 royalists. Nothing has been heard for more than a year of Captain Joe Bernard, who set out on the schooner Teddy Bear in 1916 to make the northwest passage.

**Morse's Seeds**  
for best results in Spring flowers and vegetables. Plant now—Sweet peas, pansies and other Grand Prize  
**California Seeds**  
Also Cabbage, Carrots, Onions, Beets, Peas, Spinach, Turnips. Don't take seeds that are "just as good." Get Morse's.  
On Sale by all Leading Dealers. If your dealer does not carry Morse's seeds, send direct for our catalogue—Free. Your order will be promptly attended to.  
**C. C. MORSE & CO.**

## The Invisible Conflict

From the moment of birth—and before—until the hour of death, there is going on within the body a constant conflict, unseen and usually unfeared, between forces that seek to defend, and others that strive to destroy.

Germs that enter from without are attacked and destroyed by the living guardians in the blood, the white blood cells or phagocytes. Poisons generated within seek entrance into the blood and are removed or destroyed by the functions of the intestines, liver and kidneys.

Food waste allowed to stagnate and remain in the intestines, unevacuated, poisons the blood and destroys its power to defend against outside or inside enemies. Such self-poisoning causes over 90% of human illness.

Constipation turns the tide of the invisible conflict against the body, in favor of the invaders. Nor does the taking of castor oil, pills, salts, mineral waters, etc., to force the bowels to move enable the

body to defend itself. Not only will the constipation grow worse with the continuance of such remedies but the dose must be constantly increased with an ever-weakening effect.

On the other hand Nujol overcomes constipation and brings about the habit of easy, thorough bowel evacuation at regular intervals, because Nujol is not a drug, does not act like any drug. Nujol brings about a return to Nature's methods by supplying necessary lubrication of the bowel contents, by facilitating intestinal muscular action, by absorbing poisonous matter, and thus securing necessary cleansing of the intestinal canal and protection of the defensive properties of the blood itself.

Get a bottle of Nujol from your druggist today and send coupon for free booklet—"Thirty Feet of Danger."

**Warning:** Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on Nujol. You may suffer from substitutes.
