How the business man sometimes equips his office with all the labor saving conveniences and how at the same time the wife in her household duties is obliged to get along without any of the latest in the way of labor savers, will be shown in moving pictures at the Liberty theater Thursday, Friday and Saturday of this week. The reel is only 1000 feet long, but is said to be long enough to convince the tired business man that the wife is entitled to labor saving devices in the home as well as he is in his business affairs. The reel is intended to be entertaining as well as instructive.

Those who are in sympathy with patriotic utterances during the war and who believe that Debs was right when he was attempting to make trouble for the exemption boards in Indiana, are invited to a protest meeting to be held at 5 o'clock this evening at State and Liberty streets. It is to be a Debs-Mooney meeting, according to circulars that have been printed and distributed today. The circular states: "This meeting is called for the purpose of protesting against the further incarceration of all political prisoners, including Eugene V. Debs and Thos. J. Mooney."

During the month of April the U. S. labor bureau in Salem, with offices just south of the Salem Bank of Commerce, has found jobs for 356 men, an average of 13 for each working day of the month. During the month there has been 454 men and 30 women, a total of 484. Not only have those who wanted work taken advantage of the employment bureau, but those needing help as well. The employers have registered for 371. Of the total number found employment, about 90 have been sent to the paper mill at Oregon City. All others have been placed in the farming section close to Salem.

year ago when the average maximum was 65 and the average minimum 43. But two years ago April was colder than the past month as the average maximum was 53 and the average minimum 40. In 1916 the two mean averages were 63 and 41. April of ten years ago was not materially different in weather from the average of the past ten years. The official records for the month in 1909 gives the average mean maximum at 66 and the average mean minimum temperature at 40. All of which is official evidence that the climate is not changing.

The School Bulletin, issued from the office of W. M. Smith, county superintendent, calls attention to the following new school legislation: Minimum teacher's salary \$75. County treasurer made custodian of all school funds, cash on hand meeting. High schools may offer vocational courses. Compul-

sory school age raised to 16 years. Minimum school fund law provides a minimum fund of \$620 instead of \$400. County court now required to raise \$10 instead of \$5 for county school fund. Physical education made compulsory, with 20 minutes a day for exercise. Eighth grade examinations may be conducted by teachers. Schools compelled to close because of an epidemic shall not forfeit their share of the county school funds if school is not held the required eight months in the year. Of importance to teachers: In order to be released from a contract the teacher must give written notice to the board 60 days before the date set for the beginning of school. A teacher cannot resign at a later date without the consent of the school board.

A marriage license was issued yesterday to J. W. Wilmet of Gervais, route 7, age 49, and Della Eliza Jackson of Salem. They were married by the Rev. R. N. Avison at the home of Mr. Vandervort on South Church street. A license was also issued to Alfonso A. Bonney, 21, of Vancouver, Wn., a merchant, and Laverne Townsend, 18, of Gervais.

Soldiers who wish to be assured that their discharge papers can be placed in evidence at any time, have the privilege of having them recorded in the county recorder's office. This was done yesterday by W. A. Lawrence of South Mills and L. W. Ivie of Salem.

The group of Phex salesmen who arrived in the city yesterday and have been the guests of the Northwest Products company, have been enjoying the time of their lives in Salem and vicinity. Not only is the process of manufacture of the Phex products a reve-

lation to them in its magnitude and scope, but they are impressed with the immensity of the fruit industry as revealed in the orchards and berry fields through which they have driven. And beyond that, they have expressed delight in the beauty of the Willamette valley. The first of their formal conferences were held last evening when there was a get together and an exchange of ideas and field notes at the Commercial club, all of which will contribute to the spread of the business and the efficiency of the sales forces. Other sessions have been in progress today, and this evening they will be the guests of the Phex company at a dinner at the Commercial club. Tomorrow night they will be entertained at the club rooms by the Christian organization and shown a real good time.
