

### No Medicine-Chest Without Its Family Laxative

From the baby to the grandparent a good laxative is the necessary medicine in the little ills. It wards off serious sickness and saves doctor's bills. Many a cold has been prevented from running into grippe and pneumonia by its timely use.

Many a racking headache has been quickly dispelled by it. And it is a laxative rather than a drastic cathartic or purgative that should be in every family medicine-chest, for a laxative can be used at all ages.

Thousands of good American families have for more than a quarter century used a combination of simple laxative herbs with pepsin known to druggists as Dr. Caldwell's Syrup Pepsin. It is a laxative- tonic that acts on the bowels and stomach. Infants take it with perfect safety, and it is equally effective for grownups.

Grandparents are now seeing their children give it to their babies. It is excellent for all the family in constipation no matter how chronic, indigestion, wind colic, biliousness, headaches, dyspepsia and similar ills.

The druggist will refund your money if it fails to do as promised.

Champog for March 4, 1843, but a petition was circulated for a meeting to be held at the old Oregon Institute—now Willamette University—for February 2, 1843. This meeting appointed a committee of six to meet at the home of Joseph Gervais on March 6, 1843. This is historically known as the "Wolf meeting" as there was first a discussion

of means to protect flocks and herds from wolves. Then the settlers got down to business, appointed a committee of 12 and called a meeting for May 2, 1843, at Champog. On that day by the vote of 32 to 36, the missionaries and their friends had the majority and the Oregon territory was henceforth under a provisional government.

From a historical standpoint the following is of interest. In 1840 there was 137 Americans in the Oregon country. In 1843, there came 112 and the great immigration of 1843 brought 900. The first prohibition laws passed west

### FEELS TWENTY YEARS YOUNGER

#### Can Walk A Mile Now Where Before Taking Tanlac Couldn't Go 2 Blocks.

"Since Tanlac has relieved me and built me up so much I feel twenty years younger," said Mrs. W. B. Lapaley, who resides at West 2113 Eleventh Ave., Spokane, Wash., recently.

"I had suffered from stomach trouble," she continued, "until I had become almost a nervous wreck and unable to do myhouse work and look after my children. My stomach was so weak and upset that I could hardly retain a thing I would eat, I lived for days at a time on nothing but boiled milk and poached eggs, and half the time they failed to agree with me. I was kept on a diet all the time, and my stomach was pumped out nearly every day, but this now anything else did me any good. I was advised that a higher altitude might help me, so I took a trip to the mountains in Canada, but came back home just as bad off as when I left. What I ate would sour on my stomach, and the gas formed by it would blast me up terribly. Sometimes my heart would palpitate like some one beating with a hammer, and then stop suddenly and keep still so long that I thought I would never draw another breath. My back, over my kidneys, hurt me dreadfully and at times my left side pained me until I could hardly stand it. I was constantly taking something to relieve constipation and was almost frantic at times with headache, and was so nervous that sleep was almost impossible for me."

"Now, this is just the condition I was in when I began taking Tanlac and I commenced to pick up with my first bottle. It was only a short time until I was eating most anything I wanted. I can now eat all kinds of vegetables, or anything else I want without the least bit of trouble from it. My headache and pain in all gone and I have already gained ten pounds in weight. I sleep like a child every night and have so much more strength and energy that I can walk a mile, where before I took Tanlac I couldn't walk two blocks without being all tired out. Tanlac has not only helped me, but my husband, who has been troubled with his stomach for a good many years, is now taking it with just as good results. Some of my neighbors are also taking it on my recommendation, so you can see what I think of it. I am thankful enough for what it has done for me to tell everybody about it."
