PAULUS URGES FRUIT

thinking growers are aware of the conditions that confront the northwest prune growers and that cooperation in marketing conditions is the only solution of the big problem. "The sentiment for cooperation is strong throughout the northwest," Mr Paulus declared. "I feel that before the marketing of the next crop, growers will command marketing facilities of their own. This will enable them to increase the distribution of Oregon prunes and overcome the start of the California growers who have already been organized for several years."

AN IMPORTANT FACTOR IN CUTTING SHOE EXPENSE

"Many months of comfort at little expense" is the way Charles A. Pearson of San Diego, California, sums up his experience with Neolin Soles. Mr. Pearson had two pairs of shoes resoled with Neolin Soles, and after wearing them for twenty months writes "I will have to get new shoes sometime, but so far as the soles are concerned, that time seems as far distant as when they were new."

STATE HOUSE

Attorney General Brown has just issued a ballot title for the single tax amendment proposed by the Oregon Single Tax association, of which Harry A. Rice, of Portland, is president, and Mrs. Christiana Mook secretary. This measure which will now go upon the ballot at the June election, provides that all state, county and municipal taxes shall be assessed upon land values and that all other forms of property shall be exempt from taxation from taxation from July 21, 1821, to July 1, 1925. Thereafter the full rental value of real property shall be taken as tax in accordance with section 1, article 9, of the Oregon constitution.

Governor Olcott has recently received an extended communication from Colonel Willbur S. Conkin, commanding officer of the field hospital company of the 117th sanitary train, which was made up largely of Oregon soldiers. The latter states at length the arduous and perilous services rendered by this contingent in caring for the wounded along the firing line on a number of the worst sectors, including the Argonne offensive, St. Mihiel and Meuse-Verdun, and he commends them in the highest terms. One paragraph reads: "The record of the 117th sanitary train is marked by its steady efficiency, its loyalty, the courage of its personnel, its perseverance, has led to its being universally respected and praised. Though their duty has been to take care of the fighters, and not to fight, their faithfulness to this duty has led them into dangers as great as those experienced by any arm of the service. Their work has taken them to the very bosoms of the enemy, setting up dressing and first aid stations on the fighting line itself, they have by their excellent work done much toward preserving the esprit de corps for which this division is famous."

In reply to a letter from Mayor Gen. L. Baker of Portland with regard to the Goldstein proposition, which has been given wide publicity throughout the state, Governor Olcott has sent the following communication: "My Dear Mr. Baker:—This is to acknowledge receipt of your letter of May 6th, with enclosure from Messrs. Goldstein proposing to enlist the financial assistance of the school children of the state in preserving the battle of Oregon. "While I appreciate there is merit in the suggestion offered, I believe that the preservation of this historic old warship is a duty that should fall upon the citizens and taxpayers of the state at large and consequently feel unable to add investment to the plan proposed."

At the meeting of the board of control yesterday afternoon bids were received for the construction of an open main pavilion, for open-air purposes on an adjacent lot for the installation of an observatory at the Oregon Tuberculosis hospital. Parker & Banfield submitted a bid of \$18,241, with an alternative bid of \$14,241. M. W. Larson, president, with an alternative bid of \$23,723. D. D. Steele, \$21,190, with an alternative bid of \$18,941; Transue & Parsons, \$22,799, with an alternative bid of \$19,241. Parker & Banfield, being the lowest bidder, were awarded the contract with the provision that their figures could be waived down by the commission process to the state appropriation of \$17,500 which was needed for this purpose. The supervising architect will have a conference with the firm for this purpose and a report must issue in a few days.

POLK MAN GETS STATE JOB

(Capital Journal Special Service.) Dallas, Ore., May 10.—C. V. Johnson, a prominent Polk county man, who for several years has conducted a mercantile establishment at Airlie and who had

his store together with the stock of goods destroyed by fire early this spring, has been appointed as head of the real estate department in the state insurance commission's office. A new department which was created by the legislature at its last session, Mr. Johnson is one of Polk county's most enthusiastic boosters and the people of his community are sorry to have him depart from their midst, though wishing him success in his new field of endeavor.
