

# Do You Pay 66¢ for Sirloin Steak? — or 33 Cents?

We serve all tastes

A recent Government bulletin quoted sirloin steak in different cities at prices ranging from 33 to 66 cents!

We buy live cattle, according to quality, all the way from \$7.00 to \$20.00 per hundred-weight, live weight. Sirloins from these cattle vary greatly in quality.

Some retailers sell 33 cent sirloins. These steaks come from cheaper cattle.

Customers of other retailers demand choice sirloins at 66 cents. These retailers buy meat from higher-priced cattle.

Also, the retailer who carries complete stocks, delivers to your door, and lets you run a charge account, has to get higher prices than the retailer who runs a "cash and carry" store.

We sell beef of a given quality at practically the same price all over the country—except for slight differences due to freight rates.

And our profit hardly affects the price at all—only a fraction of a cent per pound.

Miss Cornelia Marvin, state librarian, asks that all study clubs make notes of their intended work for next year so that reservations of books and the outlines may be made. Miss Marvin says she will send all the printed manuscript outlines that she has available, to heads of the clubs. The requests should go first to the local public libraries, in order that the state library will not duplicate what the local library can supply.

According to Miss Marvin there is a great demand for books on France, Belgium, Russia and other European countries. Books on reconstruction and Americanization are also in demand.

On May 29 Mrs. Castner will go to southern Oregon. A meeting of the Federation of women's clubs of that district will be held at Medford in order that Mrs. Castner may be heard. Matters of importance to all women of the state will be discussed at a mass meeting called by Mrs. Castner for tomorrow at 3 p. m. at Hotel Portland.

As a farewell favor to Mr. and Mrs. H. A. Rawson, who left today for the south, the members of the Eaglewood U. B. church were sponsors for a delightful social evening in the church parlors last Wednesday. The rooms were elaborately decorated with flowers and the luncheon tables centered with graceful bouquets. Following the banquet speeches were made by Reverend Guy Fitch Phelps and others. A great deal of credit for the success of the pleasurable affair is due to Mrs. Effie Fenstman and Mrs. Kitty Rowe.

Glenn, organizer of the western division of the national committee, has arrived in Portland from San Francisco to induce professional and business women's clubs to join the national federation. Women physicians of the United States are launching a campaign for the purpose of raising money to equip two mobile hospitals with a staff of doctors and nurses and ambulance corps to send to Siberia. In addition to this the American women's hospitals will lend a fully equipped hospital to some city of the near east, where the need is great.

Operating under the French service in Seattle, four of the staff have been decorated by the French government. One of these was Dr. Mary MacLachlan. The American women's hospitals is an organization affiliated with the American Red Cross. It offered its services to the government as soon as war was declared and its work, as planned, was approved by Surgeon General Gorgas. Over 100 women physicians have been sent across by the organization.

Portland brought the reply that home-stands that are still left in Oregon are generally regarded as not worth while. Also that the land settlement commission can do nothing until after the election to find out whether the bond issue carries. If it does, the state will be in a position to co-operate with congress, should it pass any special land laws for soldiers at the present session.

With the \$50,000 available, the land commission's efforts are to establish five farms which will put into practice farm management according to the ideas of the O. A. C. and which will also determine the size of unit necessary for a one-man farm. The land settlement commission also writes: "Even if the soldier was advanced funds to start with, it would be a doubtful gift if he was encouraged to invest the money in a losing proposition."

After several inquiries had been made by a party interested in securing land for a soldier, no definite information could be had anywhere.

The commission has nothing to offer now and if the \$5,000,000 bonding bill passes June 3, there will even then be months of delay, according to those who are familiar with the subject.

COMBING WON'T RID HAIR OF DANDRUFF

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

### MAN'S TROUBLE ARRESTED

"The past 4 years I have been going down, down, down with catarrh of the stomach and had to give up work a year ago because of my weakened condition. I suffered terribly from bloating and colic attacks. Mayr's Wonderful Remedy was recommended to me. I took a course of it and am now feeling fine." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis.
