## OLCOTT PLEDGES AID TO RECONSTRUCTION

Governor Olcott was recently in receipt of a letter from Mayor Baker of Portland asking for his views as to the reconstruction program of the state under the \$5,000,000 appropriation, and also asking a pledge from the board of control that bond issues will be safeguarded and no sales made until there was imperative need of funds. In reply the governor says:

"I desire to say I have consistently expressed the belief that the reconstruction program adopted by the recent legislature should receive the approval of the people of the state."

"While apparently there are no unemployment conditions at present nevertheless from that standpoint I believe the reconstruction bond issue, if approved, would materially fortify Oregon against the recurring cycles of unemployment which experience and history have told us are certain to appear. Adoption of these reconstruction plans would be merely a wise step in preparedness for conditions that all know may well arise to confront us at any time."

"This fund is to be administered by the state board of control, made up of the governor, secretary of state and state treasurer. As far as I am concerned, as member of such board, no bonds will be sold or money expended, unless such need arises as is plainly contemplated in the letter and spirit of the legislation involved."

he went into the service. That during his absence his wife lived a wild, indiscreet, joyous and carefree life. That she visited San Francisco with another man and also went to Seaside. Suit has been brought by the Salem Tacoma Lumber company against Mrs. J. M. Brown. The company alleges in its complaint that Mrs. Brown on May 9 took possession of the camp equipment of a cook house, including all bedding, furniture, household furniture and canned goods, to the value of \$300, and that the outfit was the property of the lumber company. It wants possession of its property and has appealed to the court.

### COUNCIL LINES UP

(Continued from page one)

of July committee is not granted the use of streets close to the business district, it will drop the matter entirely and there will be no street entertainment during the celebration.

**Police Problem Up Again.**  
Dr. F. L. Utter, chairman of the police committee arose to remark that during his absence at the last meeting, the council had been doing some rather unusual thing to the police. One was that it had ordered Chief Varney to dismiss one of his policemen, but did not name which one.

This could not be done, Dr. Utter said. The city ordinances require that if the chief of police wants to dismiss a man, he must make charges. That if the council wanted to reduce the force, it must

name which man is to be let out. As the vacation season is about here, at the suggestion of Dr. Utter, the council agreed to hold the present force, in order to keep the force up to its present efficiency when the different members take their vacations, which the city allows.

The police matron proposition bobbed up again. This time it was in an increase of salary for Mrs. Shank from \$59 a month to \$63. Vandervort opposed a raise in salary, on the grounds that when the police matron applied for the position she knew what the salary was. The council thought otherwise and the salary was raised.

The Jay-walking ordinance, to prevent people from cutting corners, did not come up for a final passage. As the water now stands, at present one

may cut corners and cross the street anywhere without violating a city ordinance.

### HUN STAND

(Continued from page one)

Furthermore, Germany was expected to be told that the loss of several million population through severance of some of her territories will reduce the number of people she has to worry about feeding. As to German seafaring boats being without employment as a result of the allies seizing the German mercantile marine, the reply was expected to show that German seamen are no worse off than those of the allied countries who have been thrown out of employment by Germany's destruction of merchant

ships. Summed up, the entire reply was expected to be to the effect that all nations are facing the necessity of readjusting industries as result of the war brought on by Germany. Hence, Germany is not being asked to do more than meet conditions which she herself has brought on.

Mr. and Mrs. John Newman of Eugene are among the visitors in the city today.

Among the guests at the Marion hotel today are Mr. and Mrs. B. F. Crasnow and Mr. and Mrs. C. S. Diet of Portland.
