That the telephone rates recently adjusted for the city of Portland by the public service commission are not a little bit acceptable to the public is made evident by the action of the council in instituting proceedings in the

circuit court to set aside the action of the commission. The question at issue is as to whether the commission has authority to fix the rates of wires while under the control of the government.

ONE CAUSE OF A BAD COMPLEXION—THE REMEDY

"Look at a section of skin under the microscope and you will readily understand why cosmetics generally injure the complexion," says a well known physician. "The skin, smooth as it looks to the naked eye, under the glass exhibits a lacework of tiny holes, mouths of myriads of little glands. To keep the skin healthy, these holes must be unobstructed, that the perspiration and natural oil can have free outlet. Should the glands be blocked up with irritating gritty particles, a common result of using powders and creams, nature retaliates by causing the sallowness, roughness, blotches, or pimples.

"As a substitute for all cosmetics I recommend ordinary macerated wax. It not only does what the various face preparations are supposed to accomplish but its peculiar absorbent action frees the pores from the daily accumulation of impurities, also absorbing the devitalized particles of surface skin. This produces a natural, healthy, youthful complexion. One ounce of this wax to be had at any drug store, usually suffices to rejuvenate the poorest complexion. It is put on nightly like cold cream and washed off mornings."

Pershing Stays on Job.

Evidence of this was seen in deferring General Pershing's visit to England, scheduled for today. The postponement was said to be a precaution in the event the Germans refuse to sign. Pershing attended a full meeting of the American peace commissioners late yesterday at which a wide range of subjects were discussed with the president, including America's attitude toward Turkey.

Premier Orlando left last night to preside at a council of ministers in Baridonechia (just across the Franco-Italian border in Italy, 40 miles west of Turin.) He will return Friday morning.

President Wilson, it was said today, will not intervene in behalf of the request that Great Britain be asked to assure safe conduct to Paris for the Irish delegates—Edward Devalera, Count Plunkett and Arthur Griffiths. This request was made of Secretary Lansing by Edward Dunn, Michael Ryan and Frank P. Walsh, representing Irish societies in America. Lansing turned the matter over to the president.

Korea Demands Freedom.

The Korean delegation today made public a petition to the peace conference demanding freedom from Japan. It also gave out a letter to Wilson, in which the following charges were made: Japan's continental policy aims, first at seizure of the hegemony of Asia through dominational control of the man power and resources of China, which is possible only through Japan's possession of Korea and secondly mastery of the Pacific as the only means of forcing Japanese immigrants into the rich lands of Australia and the Pacific seaboard of the United States, constituting conversion of the Pacific into a Japanese lake."
