The Odd Fellows committee in charge of finding rooms for visitors during the present grand lodge encampment and Rebekah assemblies point with pride to the fact that the 1000 visitors have been well cared for and that every day people are telephoning headquarters offering desirable rooms. It is thought that by tomorrow the registration will run close to 2000. The committee is especially proud of this fact for the reason that when Salem originally asked for the state encampment, a Portland delegate said the capital city could not care for the delegates and that those who did attend should bring with them blankets and cooking utensils.

WOMEN ARE CARELESS

This has been proved over and over again during the war. They overestimate their physical strength and overtax it. Their ambition is commendable but does not compensate for the hours and days of misery which they suffer from symptoms caused by female ill brought on by overwork. Women who are weak, nervous, despondent, with headaches, backache and dragging down pains should remember there is one tried and true remedy, that is Lydia E. Pinkham's Vegetable Compound, now recognized everywhere as the standard remedy for such ailments.
