Misses Ellenor and Willa Hueske were Portland visitors yesterday, going down for the McCormack concert.

A strong argument for the measure to come before the voters at the election June 3, an appeal to all clubwomen to help in the great cause of reconstruction, was voiced yesterday afternoon in the meeting of federated clubs held in the assembly room of the Portland hotel, when Mrs. Charles H. Carter, president of the Oregon federation of women's clubs, urged the clubwomen for the sake of the returned soldiers, for the sake of the clubwomen in isolated districts, for the sake of the economic advancement of Oregon, to stand by the reconstruction measures.

S. C. Piper gave a graphic description of the fertile and rich lands along the coast that would bring wealth, taxes and other income to Oregon if opened up by the Roosevelt highway. He described what had been done in Illinois along a strip of rich valleys, of splendid farming and dairying opportunities that would unfold, and asked the women to back the reconstruction and highway measures solidly. He told of the program to be carried out if the bond issue carries and if the employment and reconstruction work is needed.

Mrs. Millie R. Tramball presided, and she, too, asked the women to cooperate in this last patriotic appeal. Mrs. M. L. T. Hidden said: "This is a good program, and I will vote for every bit of it."

Mrs. Isaac Lee Patterson, Mrs. J. B. Montgomery and Mrs. J. A. Keating are in McMinnville as the guests of Mrs. E. M. Patterson, the organizing regent of the new chapter of Daughters of the American Revolution there.

The public is cordially invited to attend.

Mrs. Richard Holman has returned from her winter trip in California. Mrs. Holman received a telegram this morning stating that her son, Sergeant John W. Holman is on his way home, having been discharged after sixteen months active service overseas.

Miss Elizabeth Levy will give two violin studies recitals next week. The juveniles will be presented on Tuesday evening and the more advanced Wednesday evening. The event is looked forward to with much pleasure as her recitals are large and interesting affairs. The violin ensemble, composed of thirty five of Miss Levy's students will appear each evening.

A recent edition of the Portland Sunday Journal published a beautiful picture of Miss Levy accompanied by the following item:

"Miss Elizabeth Levy of Salem is a leading violinist there. The violin ensemble of 35 students is one of the largest in the state and was the leading attraction at the state fair and Salem auto show. As a soloist she is often in active demand at concerts and recitals for she displays good taste as well as proficiency as a violinist."

## GOVERNOR BACKS UP BOARD IN DECISION

### Portland Attorney Charged With Profiteering At Widow's Expense.

Portland, Or., May 22.—Lee Roy Keeley, Portland attorney, today dared Governor Olcott to investigate the state industrial accident commission. Keeley recently forwarded charges to the governor that the commission had administered the workmen's compensation law to the benefit of corporations.

The attorney said today that he will file a libel suit against the commission, claiming its answer to his charge slandered him.

Governor Olcott today made public the charges which have been made against the state industrial accident commission by Lee Roy E. Keeley, a Portland attorney, in connection with the A. J. Dibbern case, and also the commission's reply and the governor's reply to Mr. Keeley—and statements from Mrs. Dibbern, the widow in the case, and others who have personal information concerning the things about which Mr. Keeley has made complaint.

The governor had turned over to the accident commission the charges he had received from Mr. Keeley, and in their reply to the governor the members of the commission frankly state they had refused to deal with Mr. Keeley after they learned that he had obtained from the widow a contract requiring her to pay to him 40 per cent of the compensation that should be awarded to her for the death of her husband.

**Lawyer's Method Exposed.**  
Governor Olcott upholds the action of the commission in this regard and in his reply to Attorney Keeley says:

"Your allegations against the commission cover a wide range, but as to the Dibbern case, it appears to be clearly established that you obtained a contract from Mrs. Dibbern, whose husband was killed in an industrial accident, whereby she would pay you 40 per cent of the compensation she might be awarded by the commission.

"I take the same view as the commission that it is unnecessary for dependents having claims against the state, under the compensation law, to pay any portion of their compensation for attorney's fees, as that is contrary to the purposes of the law—and the action of the commission in refusing to recognize your contract with the widow must have my approval."

**Suppression Is Charged.**  
Mrs. Dibbern's husband, A. G. Dibbern, was employed by the Grant Smith-Porter Ship company, at Portland, when on February 3, 1919, he sustained a personal injury which resulted in his death. The accident occurred in the course of his employment. Both Dibbern and the Grant Smith-Porter Ship company were subject to the provisions of the workmen's compensation law. The commission awarded the widow the sum of \$4000 as compensation for her loss.

Detroit, Mich.—When Charles Anderson went to look at the lot he bought some time ago, he found a new \$4000 home on it. "Some improvement!" said Anderson. He now seeks to retain the house.

#### A WORD ABOUT THE KIDNEYS

(By DOCTOR WATSON)

People are easily frightened when they think something is the matter with their lungs or heart, and well they may be; but few people understand the dangers of diseased kidneys. These organs have a duty of vital importance to perform, and if they are diseased, there is no telling how or where the symptoms may appear. The kidneys are filters, and when they are healthy they remove the poisons from the blood and purify it. When the kidneys are diseased, the poisons are spread everywhere, and one of these poisons is uric acid. The uric acid is carried all through the system and deposited in various places, in the form of urate salts—in the feet, ankles, wrists and back—often forming lumps under the eyes. Sometimes the resulting trouble is called rheumatism, lumbago, sciatica and backache. Finally, come stone in the bladder, diabetes and Bright's disease.

Dr. Pierce of Buffalo, N. Y., is recent years, discovered that a certain combination of remedies would dissolve uric acid (urate salts) in the system. He found this combination to be harmless, so that he made it up in tablets, of double strength, and called them Anurie Tablets. They dissolve uric acid in the human system as hot coffee dissolves sugar. If you have uric acid troubles, don't delay in taking Anurie Tablets, which can be secured in the drug stores. You can write Dr. Pierce, too, and he will tell you what to eat and how to live so that more uric acid will not form in your system. Dr. Pierce will not charge for this advice.

Attorney Keeley charges that the commission has ignored his contract with Mrs. Dibbern under which he was to receive 40 per cent of the compensation awarded her; that Mrs. Dibbern was awarded a lump sum settlement because the commission desired "to keep away from the workers of the shipyards the knowledge that if they were injured on the navigable water of the United States, they did not need to accept the award of the state industrial accident commission, but were entitled to sue in the United States admiralty court"; that the commission is controlled by the employers and is not operating in the interest of the workmen—and other allegations of somewhat similar nature.

than right of the banks should carry the funds of the districts when they happened to receive apportionments that brought them out of debt.

Judge Baskley was inclined to favor the proposition whereby the bankers of each section of the county should retain the funds of surrounding districts, especially as these banks finance the districts. Hence a formal order was made directing not to come under the provisions of the law requiring all school districts to deposit their funds with the county treasurer. This was done under the following clause of the act:

"Provided, that this act shall apply to all counties, unless the county court shall by order entered on record, elect not to come under the provisions of the act."

### FOLK COUNTY YOUTHS ARE ARRESTED FOR STEALING

(Capital Journal Special Service.)

Dallas, May 21.—George and Henry Keyser, two farmer boys living in the vicinity of Ellendale were arrested by Sheriff John W. Orr on a warrant sworn to by Chas. Blyden, proprietor of the Gail hotel charging the boys with having entered his premises west of Dallas and stolen a number of chickens. When questioned about the deed both boys claimed no knowledge of the affair but afterwards acknowledged that they had stolen 11 chickens and taken them to Salem where they disposed of the same. The fowls were taken from the Blyden place last night and immediately taken to the capital city markets as both lads were at home at an early hour when the sheriff made the arrest.

Taken before Justice of the Peace John B. Shibley they pleaded guilty and the older lad was fined in the amount of \$50 and costs and made to pay for the chickens. The younger lad was paroled to the juvenile court.
