ENGLISH PREPARE TO WELCOME AMERICANS

Big Reception Planned To Greet Yankee Flyers Upon Arrival.

By Edward W. Hullinger

Plymouth, England, May 29.—England was preparing today to give a hearty welcome to the American seaplane NC-4 when it arrives after a flight across the Atlantic, via the Azores and Portugal.

Plans include having three royal air force seaplanes fly out and escort the NC-4 into the harbor. The mayor and

members of the corporation will greet the aviators at the Mayflower Stone. It is rumored today the Nancy would stop at Brest, but navy men here could not confirm it. This rumor possibly is due to the fact that the U. S. S. Stockton was ordered to Brest.

The Rochester with crews of the NC-1 and NC-3, which failed to reach the Azores, left Lisbon Wednesday morning for Plymouth.

In the absence of any word since a brief cable last night, stating that the NC-4 would get away today, it is believed here that weather conditions must have been unfavorable for the start. Earlier in the evening yesterday the navy was informed that Head expected to get off today. Cable transmission, it was said today, is exceedingly slow

and had between Lisbon and the United States, which officials said, accounts for the lack of detailed information regarding the intentions of Head.

WATERBURY TRIES FOR NEW RECORD HERE

Marathon Piano Player Attracts Large Crowds To Stiff & Son Store.

Waterbury, the long time piano player, who is playing against his former records, in the show window of the E. L. Stiff & Son furniture store on Court street, is attracting much attention. He began playing yesterday morning at 10 o'clock and is on the job yet. That is he hasn't stopped playing a minute since beginning his long solo and states that he doesn't intend to stop until he has broken his former record of 65 hours. By 10 o'clock this evening he will have played continuously 30 hours. This afternoon he was going strong and the crowds in front of the Stiff store indicated a growing interest in his performance.

J. M. Waterbury established the world record at Boise, Idaho, about a year ago of 65 hours and 7 minutes continuous playing. His nearest competitor is a young woman at Bridgeport, Conn., who several years ago played 64 hours while he kept on one hour longer. During this long musical journey over the keyboard he stops for nothing. His food and nourishment being given him by his attendant. On and on, night and day, marches, waltzes, two steps, old songs, new songs, rag-time and in fact any thing as long as it is good clean music.

"I am going to make a good honest effort to break my record here," says Waterbury, "and I may do as I am getting tired of the crazy stunt and am going to quit it. I do not use drugs or dope of any kind to keep going, as many presume. It's just plain nerve and grit."

Along with the banks, public offices and other institutions, the public library will be closed all day tomorrow. Patrons should take notice and secure their reading matter this evening.

In the divorce suit of E. N. Erickson against Mary Erickson, the plaintiff was given a divorce, but the court decided that the property should be divided, especially as it would work a hardship for Mrs. Erickson to be turned out of her home after being married 37 years. He will be allowed to keep his tract of 12 acres valued at \$500 and she will be given some promissory notes of a value of about \$2500. On account of her age, a trustee will be appointed to handle her share of the estate.
