to the charred, or brittle, or soggy kind made in the tedious old-fashioned way, is relatively the same as the superiority of grilled steak to fried steak.

For one-tenth of a cent a slice the General Electric Radiant Toaster makes Perfect Toast faster than you can eat it. It is Perfect Toast because the radiant heat forces the necessary chemical change in the bread. This insures delicious golden Toast that fairly melts in your mouth.

You can operate the General Electric Radiant Tosster on the finest damark table cloth. Its neat porcelain base and cheering glowing coils add grace and charm to any table.
