DAILY HEALTH TALKS. GOING BACK TO NATURE

(By DR. W. LUCAS)

People get sick because they go away from nature, and the only way to get well is to go back. Something grows out of the ground in the form of vegetation to cure almost every ill. Some of these vegetable growths are understood by man, and some are not. Animals, it would seem, know what to do when they are sick better than men and women. Observers have noted that a sick horse, dog or cat will stop eating food and seek out some vegetable growth in the field or yard, which, when found and eaten, often restores appetite and health. Haven't you seen these animals do this very thing your self?

Dr. Pierce, of Buffalo, N. Y., long since found the herbs and roots provided by nature to overcome constipation, and he had these vegetables collected and made up of Mayapple, leaves of Aloe, root of Jalap, into little white sugar coated pills, that he called Dr. Pierce's Pleasant Pellets. You must understand that when your intestines are stopped up, poisons and decayed matter are implanted in your system, and these are carried by the blood throughout your body. Thus does your head ache, you get dizzy, you can't sleep, your skin may break out, your appetite declines, you get tired and despondent. As a matter of fact, you may get sick all over. Don't you see how useless all this suffering is? All that is often needed is a few of Dr. Pierce's Pleasant Pellets, which he has placed in all drug stores for your convenience and health. Try them by all means. They are probably the very thing you need right now.

terms before compelling the Germans to sign. Clemenceau was reported to insist that the present treaty should be signed and that it should then be reopened for such modifications as are deemed essential.

The president's view as to when the modifications should be made could not be obtained, but that he is in favor of several changes was declared to be certain.

By Fred S. Ferguson

(United Press Staff Correspondent.)
Paris, June 2.—President Wilson conferred today with American commissioners and experts regarding proposed modifications of the economic section of the German treaty.

The suggested changes were outlined authoritatively to the United Press as follows:

First—Fixing of a definite sum which Germany must pay in reparation to be \$25,000,000,000 to \$30,000,000,000.

Second—Clarifying of the clause regarding powers of the reparations commission as to loaning sources governing German internal affairs.

Third—Allowing four years instead of two for payment of the first \$5,000,000,000 of the reparations.

Fourth—Making provisions enabling

Germany to acquire merchant shipping by lease, charter or otherwise.

All these suggested changes are in line with the policies the American delegates have pursued since the opening of the peace conference, according to reliable information. They do not represent any sacrifice of principle in the treaty, it was claimed, but are among the most important details regarding which it is felt modifications may be made without affecting seriously the punishment of Germany.
