**New Officers Of Apollo Club Selected For Year**

At a recent meeting of the Apollo Club John W. Todd was re-elected as director; Judge Geo. H. Burnett, president; William McGilchrist, vice-president; Albert Gille, secretary-treasurer; Dan Langenberg, librarian; F. E. Deekesch, Ralph Jones and W. T. Jenks, directors. Among other items of business the active membership roll was limited to 25 and a waiting list provided so that there might be available material when vacancies occurred. The associate membership limitation was removed. Recognizing his work as director, the Club presented Mr. Todd with a handsome watch fob, with gold mountings and an elk tooth charm, Mr. Todd being a prominent and active member of the order. The presentation was made by P. E. Deekesch, who in characteristic humor commended him for the exceptional work he had done as director of the club during the past two years. In the course of informal conference large plans were made for the coming year's work.

**Condemned Men Struggle Against Death on Gallows**

San Rafael, Cal., June 20.—(United Press)—While a majority of the witnesses fainted from the horror of the scene, two men, Joseph Rogers and Clarence Rollins died a terribly prolonged death on the gallows at San Quentin prison this morning, owing to bungling mechanism. Rogers kicked so wildly that his shoes flew off as his body, showing beneath his death capped face, contorted in agonies. He was suspended for 15 minutes before he died of strangulation. Rollins died a minute sooner.

Dr. J. M. Waugh of Hood River, recently returned from France, has just received news of his promotion from a major to a lieutenant colonel.

**LIFT OFF CORNS!**

Drop Freezeon on a touchy corn, then lift that corn off with fingers

Doesn't hurt a bit! Drop a little Freezeon on an aching corn instantly that corn stops hurting, then you lift it right out. Yes, magic! No humbug! A tiny bottle of Freezeon costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. Freezeon is the sensational discovery of a Cincinnati genius. It is wonderful.

Attorney General Brown is going to have his work cut out for him during the summer, aside from the regular grid of opinions, for never in the history of the state has there been so many statutes enacted that involved complications of legal phases and possibilities of subtle interpretation—or misinterpretation. Several of these laws are now before him, including the educational bill, which has to do with an indefinite variety of possible cases.
