

The Perfect Oil for Cooking and Salads

MAZOLA

For deep fat frying Mazola is matchless.

It positively does not smoke up the kitchen. The smoking point is far above the temperature required to cook food properly.

It does not carry the odor or taste from one food to another—even fish or onions. It can be used over and over again.

Try this astonishing test of Mazola economy and universal use yourself—today.

Kerosene A Most Convenient And Economical Fuel

The mass and dirt of a coal or wood cookstove add to the burden of the housewife. Coal dust seems to get everywhere and it means continual work to keep a kitchen clean when coal is used in the stove.

tiest saving, not only in the household budget but also in the time and energy of the housewife. Pearl Oil gives excellent results as far as good cooking is concerned and when it is used the kitchen never becomes overheated. A good cookstove with Pearl Oil will bake, broil, roast, and toast economically.

Having been refined and re-refined by a special process, the impurities are removed from Pearl Oil so that it burns up clean and produces no odor.

NATION-WIDE

(Continued from page one)

All this trouble is done away with when kerosene is used as a fuel. It is clean and convenient and makes far less work for the housewife. In addition to this, it is more economical than either coal or wood.

had little effect on the consumption of liquor. Served as a part of the government ration to soldiers during the Civil War, the annual per capita consumption gradually climbed from about 6.5 gallons in 1860, until it reached almost twenty-three gallons in 1906. This figure was only slightly reduced until 1915, since when the consumption has dropped to 19.4 gallons.

After a long fight in congress, led by Richmond P. Hobson, Alabama, hero of the Merrimack, first action on the national prohibition amendment was obtained in committees of the Sixty-fourth congress, neither the senate or the house approving the plan at the time. Senator Morris Chappard, Texas, introduced the amendment in the senate, and Representative Edwin Y. Webb, North Carolina, in the house. The same resolution was presented to the Sixty-fifth congress in December, 1915. On December 14, 1916, the house judiciary committee reported it out. Finally the prohibition amendment was passed by the senate, August 1, 1917, by a vote of 65 to 20, and in the house, December 17, by a vote of 283 to 128.

Fight Ended in April

War time prohibition was first introduced by Representative Barkley, Kentucky, in the house April 26, 1918, and was adopted by both houses as a rider to the agricultural appropriation bill. The effect of the act will be felt principally in the following states, which have the following percentage of their population in wet territory, according to Anti-Saloon League figures: California, 73.7; Connecticut, 82; Delaware, 60.5; Florida, 8.9; Illinois, 57.4; Kentucky, 19.2; Louisiana, 48.7; Maryland, 30.9; Massachusetts, 68.1; Mississippi, 39.8; Missouri, 47; Nevada, 81.9; New Jersey, 94.6; New York, 92.9; Pennsylvania, 81.2; Rhode Island, 90.9; Texas, 12.5; Vermont, 20.5; Wisconsin, 74.9; Wyoming, 65.7.

Taken as a whole more than 60 per cent of the people already are under prohibition.

SOCIETY.

By Gertrude Robinson

WITH only a few hours in which to bring the Goddess of Liberty to a close, those who are backing the separate candidates are working with renewed energy for the success of their favorite. So far Miss Alta Johnson is in the lead with Miss Margaret White following as a close second. Miss Marie Breitenstein and Miss Lylah Baker are next in line with a solid backing of numberless friends to boost them. From the latest reports, the victorious young lady will win the honor only by a small margin. The candidates who lose will serve as maids of honor for the Goddess.

Wednesday afternoon the parents and friends of the 1st year pupils of Bertha Junk Darby gathered at her studio when a delightful program was given.

Then for the instruction and entertainment of the class and their friends, Mrs. Darby told of the childhood of Gottschalk, the first American composer to gain recognition abroad and of the struggle he had in the breaking down of the prejudice of the critics against his own talent, also giving the poetic idea of one of his finest compositions, "A March in the Night," which was then played by one of Mrs. Darby's advanced pupils, Miss Irma Keffer. She also gave a Chopin number, Master Gordon Bennett, a pupil of Lena Belle Tartar, gave much pleasure with his songs, being accompanied by Lucile Ross at the piano. The program:

Are You Awaiting The Great Crisis?

Do Not Allow the Time to Pass With Nature Unaided.

Women who give nature a helping hand during the period of expectancy find that when the time arrives for baby's coming it is approached and passed with infinitely less pain and danger. Thousands of women for over half a century have learned that in the time-honored preparation, Mother's Friend, they have a grateful, relaxing, penetrating remedy, the use of which makes it possible for them to go through childbirth without the usual pains, nervousness, tearing-down, and stretching pains, and that through its use the hours of the crisis are fewer and of much less pain and danger. Mother's Friend penetrates the muscles, tenderizes them and easily governed by the demands of nature. They relax gently and bring longer days and calm, restful nights. As the result the crisis is passed with greater ease and in less time, the breasts are kept in good condition and the skin is made and kept soft and free from blemishes. Write to the Breidfield Regulator Company, Dept. F, Lamar Building, Atlanta, Georgia, for their Mother's Friend Book, and obtain a bottle of Mother's Friend. From your drug store today and thoroughly fortify yourself for the coming event.

DRESSMAKER SAVED FROM OPERATION

By Taking Lydia E. Pinkham's Vegetable Compound in Time.

Ithaca, N.Y.—"Three years ago I suffered from pains in my right side, so severe that I could not raise my feet from the floor. Pains would shoot down my limbs and through my back, and the doctor said I had an abscess. I was in bed two weeks with an icebag on my side and expected any day that I might have to go to a hospital for an operation. A friend came to see me and told me of your wonderful medicine—Lydia E. Pinkham's Vegetable Compound. I began taking it, and after taking six bottles I feel well and strong, do my own work and do dressmaking for others. I cannot speak too highly of your medicine and recommend it to others who suffer with female trouble. It is a Godsend to ailing women, and you may use my name at any time."—Mrs. PERMILLA HULSIZEN, 218 E. Fall St., Ithaca, N.Y.

Women who suffer from any such ailments should not fail to try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound.

SCIENCE MAKES THEM DURABLE

So—These Soles Save You Shoe Money

"I have been wearing my shoes with Neolin Soles nearly a year, and they are apparently in as good condition as when I bought them."—written August, 1918, by W. H. Cooke, Officer, A.E.F., France.

Only Neolin Soles could endure a test like this. That they do so is because of the tough durability built into them by a scientific process. To cut your shoe bills down, buy shoes with these long-wearing soles. They come in many styles for men, women, and children.

Remember—Neolin Soles are flexible and waterproof, too, and are available everywhere for re-soles. They are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear all other heels.

J. S. Austin left Friday for Anaheim, California, on a business trip. He was accompanied as far as Portland by his wife, and made the remainder of the trip by steamer. Mr. and Mrs. Austin are planning to take up their residence in California and Mrs. Austin will leave Salem in a few weeks to join her husband.

PETROGRAD SAFE

(Continued from page one)

Petrograd, expected to furnish overwhelmingly results has been beaten off. The organized wire pullers of the Petrograd plan must reconcile themselves to this fact.

"Attempts to stir up military uprisings against the soviets in Ukraine are a complete failure. The Ukrainians are wiping out these bandit gangs and organizing a disciplined red army."

"Kolchak's winter offensive against our eastern front was duly listed. In the last six weeks Kolchak has been driven back over a territory totalling 140,000 square kilometers, losing large quantities of munitions. His troops are wholly demoralized and surrendering by the thousand. Some of the best of his volunteer regiments are now fighting valiantly in the ranks of the red army. Even Kolchak, who was hoping recently to crown himself within the Kremlin walls, it at present seeking his crown in the Siberian steppes. The eastern front offers a typical spectacle, inasmuch as the temporary western and southern front failures will result in the same reaction as the campaigns on the

eastern front. The working masses are recruiting our army in such a manner that reversal of the position on the southern and western front is inevitable.

"The second question is regarding the red army's supply system. Supply System Good."

"Reply: The army supply works made the biggest progress during the last year. Difficulties in the distribution of clothing show the lack of adequate transportation, not a shortage of materials. At present the centralized war supply system is under the direction of Krasin, an economical man and one of the best Russian organizers, who has made invaluable improvements. War materials are not lacking; the numerical growth of the army necessitates three shifts in the
