HUN PAPERS DECLARE SIGNING IS TREASON

German Press Bitter In Denunciation Of Accession To Terms.

By Carl D. Great (United Press Staff Correspondent.) Berlin, June 29.—The German reactionary press was mostly silent today regarding the signing of the peace treaty. Several papers, however, were outspoken in their bitterness toward the terms. "The signing is treason," said the Berliner Neueste Nachrichten. "The next general election will show what the Germans think of the treaty." The Vorwaerts hoped the war's official end at least will enable Germany to begin her work of rehabilitation. "It is a scrap of paper," declared the Tageblatt. According to the National Zeitung, the treaty "reduces the cultured people of Germany to the level of the American creole states." The Lokal Anzeiger urged the German people to receive the treaty with stoicism. The most violent article appeared in the Deutsche which declared: "Peace of violence has been signed at Versailles. Germany's honor has been buried. Only incessant toil will enable us to regain our place among the nations of the world. Then will come revenge for the disgrace of 1919." The papers was suppressed by the government. Much speculation was indulged in today as to how the allies would receive the appeal of Dr. Von Bethmann-Hollweg that he be tried instead of the former kaiser, for the responsibility of causing the war. "As imperial chancellor," wrote Hollweg, "I will bear the sole responsibility for the political acts of the kaiser. I hereby place myself at the disposal of the allies and associated powers." The former chancellor wished to offer himself as a scapegoat on May 29, but refrained at the request of the government. With the government's promise to devote a billion and a half marks in the next three months toward lowering the cost of food, the striking railroad men returned to work. The trolley and subway workers voted today for a general strike to be called Tuesday. The railway strike situation is improved. Armed trains and tanks have arrived in the vicinity of Hamburg, but it is not known whether they have entered the city.

PEST LAW DETAILS PUZZLING BUSHEY

Bushey Probing Statute To Compell Cutting Canadian Thistles.

Judge W. M. Bushey, in looking up the law relative to the cutting of Canadian thistle, and quack grass, has run up against the question as to whether the law refers in part to land that is occupied by the owner or renter, and land that is not occupied and the owner a non-resident. The law specially states that where the owner or renter of the land is occupying the land, notice may be served requiring such owner or renter to remove the thistles within a certain date, and if this is not done, the penalty of the law may be enforced. But following along in the same section of the law relative to the occupancy of land, where it is not occupied, the law plainly states that notices must be posted in three conspicuous places with the following: "Then upon petition bearing the signatures of owners of a majority of the land within a district whose boundaries are described in such petition, notice shall be served as provided in this section and the county court shall enforce the provisions of this act within such district, as prescribed in sections 6459 and 6468 inclusive, as they apply to Canadian thistles, and quack grass, and such other weeds as the petitioners may see fit to include." Where there is any doubt as to the construction of the law the ruling of the district attorney is final for the county court. As soon as District Attorney Gehler interprets the law as to whether a petition is necessary and a district formed both where the land is occupied and the owner or renter knows, and where the owner is not known and the land not occupied, then Judge Bushey will appoint a person or persons according to the law recently passed and proceed to make an effort to retake the land in Marion county against the threatening Canadian thistles.

How Much More Tobacco Will My Heart Stand?

A Vital Question for Every Man Who Smokes or Chews to Answer.

May Cost a Life to Find Out By Experiment The heart of every user of tobacco bears a double burden. It does its allotted task and then fights nicotine for supremacy. As long as the heart wins he lives; when it loses he dies, but before the final victory of nicotine you pass through many stages of decline and decay and suffer many pangs. Hearts are like human beings—some are stronger than others, therefore some hearts will stand more tobacco than others, but there is a limit to what any heart can stand. The man who puts this additional strain on his heart a dozen times a day by smoking cigarettes, a pipe or cigar—or chewing tobacco—is taking a madman's chance with health and life to lose and nothing to win but the chance that he may lose them. He is indulging in a costly habit at the expense of precious health. Ask any doctor anywhere, and he will tell you that using tobacco is injurious and that it is far better to quit the habit than to experiment to find out how much tobacco your heart will stand without serious results. But the thought of quitting is unpleasant to most men—even to those who know that tobacco injures them—and to really quit takes more will power than they have and causes more suffering than they can voluntarily endure. To quit the habit, make it easy for yourself by getting Nicotol tablets and taking them as directed. The habit really quits you and its departure is a pleasure equal to its indulgence. If you want to know how much easier it is to quit the habit with Nicotol than without it, go twenty-four hours without tobacco and note what an effort it costs you, then begin using it as usual and take Nicotol tablets. At the end of a week discontinue smoking or chewing for a day and it is probable you will have no desire to resume. At least your desire will be greatly diminished and another week or two should make it not only possible, but a pleasure to quit. Manufacturers' Note: Nicotol is sold under the positive guarantee that it is not injurious; that it contains no habit-forming drugs; that it will help any man to throw off the tobacco habit, and that any druggist will refund the entire purchase price if it fails. It is dispensed in Salem under this guarantee by D. J. Fry and other good druggists.

SILVERTON HAS CANNERY

The Silvertown Food Products company, organized by C. A. Harvey, has leased the W. E. Loughmiller building on Water street for this season's pack. The installation of the necessary machinery for the canning of fruit and vegetables has already begun. A specialty will be made of Evergreen berries for this season's pack. The firm will, as fast as possible, establish permanent quarters for the handling of fruits and vegetables of all kinds. Owing to the lateness of the season the firm cannot get their plant ready before time to pack the Evergreen berries but they state they are ready to buy all the Evergreen berries they can get. A complete selling organization has already been completed and they are in a position to pay the highest price possible for the berries. The permanent plant will be modern and up to date, with a capacity of 200 dozen gallon cans per day and will give employment to a large number of people. A good many thousands of dollars of eastern money will be brought to this community through this plant as the east is scrambling for all of the Oregon fruit that can be gotten to them.—Silvertown Appeal.

FIGHT OVER BOOZE

(Continued from page one) cause the stock of beer probably will be well exhausted by that time and few breweries will open up for a few months. Unless some action of this kind is taken, Randall states, "the country will be thrown into a whisky drinking orgy." "When the president lifts the ban it will pour out a flood of 30,000,000 gallons of whiskey now held in bond by the war time prohibition act," said Randall. "That act does not relate to beer and wine alone and he cannot discriminate. With a million men yet to rearm, under no circumstances could his proclamation be issued before October 10."

New York to Fight
