

**They let you in**  
on an entirely new  
kind of  
**cigarette enjoyment**

**WELCOME**

**Chesterfields do more than**  
please the Taste  
**They Satisfy**

If you want a cigarette that does for your smoking exactly what a big, juicy beefsteak does for your hunger, you want Chesterfield.

Because Chesterfields satisfy.

It's the blend that does it—a blend of the finest selected Turkish and Domestic tobaccos.

And the blend is the manufacturer's secret. Unlike a patent, it cannot be copied or even closely imitated.

That's why it's Chesterfields or nothing, if you want this new kind of cigarette enjoyment.

Moisture-proof package keeps them firm and fresh, whatever the weather

**BERRY CONTRACT CASE TO BE SETTLED LATER**

**Company Must Post Bonus For Deliveries Pending Settlement.**

In the injunction proceedings brought by the Salem King's Products company against a number of growers, wherein the company petitioned the court to enjoin the growers from delivering their loganberries except to the Salem King's Products company at 5 1/2 cents a pound, a compromise injunction was entered by Judge George G. Bingham as follows:

That the growers be ordered to deliver their berries to the Salem King's Products company at 5 1/2 cents per pound.

That the Salem King's Products company place on deposit with the county clerk the difference between the 5 1/2 cents a pound and 9 cents, which it is claimed is the market price.

That this difference of 3 1/2 cents a pound in dispute between the growers and the Salem King's Products company be held by the county clerk until such a time as the merits of the case may be decided.

It was also agreed by the attorneys that the suit should be tried as a whole immediately after the close of the delivering loganberry period and not be settled by individual law suits.

That if, after the case has been tried, it is found that the Salem King's company prevail, then the money is to be refunded to them. If the growers prevail, they are to receive the 3 1/2 cents a pound held by the county clerk for each pound of logans sold to the Salem King's Products company for 5 1/2 cents.

The court also ordered that Tuesday of each week, the Salem King's Products company should pay to the county clerk this difference of 3 1/2 cents a pound for berries delivered by the growers involved in the suit.

It is estimated that 600 tons of loganberries will be delivered and on this estimate, the amount involved will figure something over \$42,000.

The suit was brought by the Salem King's Products company against Bruce Cunningham, S. V. Ramp, Bert Aslinwall, C. H. Deneer, O. L. Deneer, Clyde Harris, August Leutz, J. W. LaFollette, L. S. Murdick, Howard Ramp and A. E. Harris. These growers claim that the Salem King's Products company contracted for their logans in 1917 at 4 cents with the provision that the market price would always be paid. The Salem King's Products company claim the contracts call for "their" market price, and at present they are offering 5 1/2 cents and demand that the growers should deliver at this price.

It is thought that the case will be tried within 30 days.

**ELECTION OF OFFICERS**

(Continued from page one)

the person of Harvey Wells. As an opponent Brockway the name of A. T. Woolpert was presented—a candidate who will pull strongly from the Willamette valley delegates because of his popularity in military circles.

**RIY IN SALEM ALWAYS**

**IF THIN, RUN-DOWN OR NERVOUS, TRY PHOSPHAT**

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force

When one stops to consider the loss of thin people who are searching continually for some method by which they may increase their flesh to normal proportions by the filling out of ugly hollows, the rounding off of protruding angles with the attendant bloom of health and attractiveness is no wonder that many and varied suggestions along this line appear from time to time in public print.

While excessive thinness might be attributed to various and subtle causes in different individuals it is a well known fact that the lack of sufficient phosphorus in the human system is very largely responsible for this condition. Experiments on humans and animals by many scientists have demonstrated beyond question of doubt that a body deficient in phosphorus becomes nervous, sickly and thin. A noted author and professor in his book "Chemistry and Food Nutrition" published in 1918, says: "It is estimated that the amount of phosphorus required for the normal nutrition of man is seriously underestimated in many of our standard text books."

It seems to be well established that this deficiency in phosphorus may now be met by the use of an organic phosphate known throughout English speaking countries as Bitro-Phosphate. Through the assimilation of this phosphate by the nerve tissue the phosphoric content when absorbed in the amount normally required by nature soon produces a welcome change in our body and mind. Nerve tension disappears, vigor and strength replace weakness and lack of energy, and the whole body soon loses its ugly hollows and abrupt angles, becoming enveloped in a glow of perfect health and beauty and the will and strength to be up and doing.

CAUTION—While Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat producing foods.

Our soldiers always pick out the plump, rosy checked girls.

At the seaside too, the plump rounded figure is most admired.

**Sheriff Off To Portland For Speeders Suspected Of Silverton Robberies**

Sheriff W. L. Needham went to Portland this morning to bring back two men who were arrested for speeding and who are suspected of having taken part in the recent robbery in Silverton of the stores of Julius Alm and Syring & Banks.

When arrested for speeding in Portland, one of the men put up as his bond, one of the liberty bonds stolen at Silverton. Other articles missing from the Silverton stores were also found on them, sufficient to serve as evidence in the case to be brought against them in this county.

Both of the men are paroled convicts, having been given their freedom June 1. Frank Kaufman was serving a term in the penitentiary for Portland for auto stealing and had served nine months of his one year's sentence. Leo Tobson, the other man to be brought back, was serving in the pen on a one year's sentence for stealing and had also served nine months when unrolled. The third man in the speeding auto was Frank Wagner, a five year convict who had served his term. He managed to escape.

**Dallas Elks Raise**

**Salvation Army Fund**

(Capital Journal Special Service)  
Dallas, Or., July 3.—Several days before the closing time of the Salvation Army campaign conducted by the Dallas Elks in this city last week the full quota for the town amounting to \$1,200 had been raised and quite a large sum in excess of the amount.

E. C. Kirkpatrick, who was chairman of the committee, had members of the order out bright and early last Tuesday morning and by night half the quota had been raised.

The Elks worked only the business section of Dallas leaving the residence section to the W. C. T. U. who start a drive for \$3000 in Polk county next week.

**Knox Treaties.**

During the Taft administration, Secretary Knox negotiated similar treaties with Brazil, Ecuador and Uruguay. He also negotiated treaties with Great Britain and France, which were ratified

March 8, 1912, whereby it was agreed that all differences relating to international matters in which the high contracting parties are concerned, by virtue of a claim of right made by one against the other, under treaty or otherwise, and which are justiciable, by reason or being susceptible of decision by the application of principles of law or equity, shall be submitted to arbitration at The Hague. These agreements constituted treaties of arbitration which

bound the contracting parties to submit all questions of the character mentioned to arbitration by The Hague tribunal. They went further, and provided that questions of difference arising between the parties, not of the character which it was agreed should be submitted to arbitration, should be investigated by a joint high commission, to be constituted in accordance with the provisions of the treaty, and bound the parties not to go to war over such questions until one year after the report of the commission. But the senate, while voting to ratify these treaties, amended them in certain particulars, and in the resolution of ratification, reserved from their operation questions affecting the admission of aliens, the territorial integrity of the several states of the United States, the alleged indebtedness or assumed obligations of any state, and any question which depends upon or involves the maintenance

of the traditional attitude of the United States concerning American questions commonly described as the Monroe Doctrine, or other purely governmental policy."

The amendment of the treaties by the senate, however, prevented their ratification by the president and neither of them became effective.

**Bryan Treaties.**

Under the Wilson administration, Secretary Bryan negotiated a series of treaties in 1913-1914, with twenty-one different countries, which were ratified by the senate without any reservation whatever, whereby the high contracting parties agreed

"that all disputes between them of every nature whatsoever, which diplomacy shall fail to adjust, shall be submitted for investigation and report to an international commission to be constituted in the manner prescribed"

in a designated article of the treaty. They further agreed not to declare war or begin hostilities over any such question during such investigation and report.

**Covenant a Logical Step.**

In view of this history, it is but a conservative step forward now to agree with all the other powers comprising the League of Nations to enter in limitation any justiciable dispute, which may arise with any of them, and to submit to the council for investigation and report any question of a different character, and also not to resort to war until

either arbitration or investigation shall have been concluded and even then, not to make war against a party which shall comply with an arbitral award, or the unanimous recommendation of the council.

**Band Concert Program For Friday Evening Announced**

The following is the program to be given by the Cherrion band to Wilson Park on the evening of July 4:

- March—"Cesar's Triumphal" Mitchell
- Selection—"The Yankee Consul" Robyn
- Waltz—"Barcelona" Roberts
- "Dance of the Sparrows" Richmond
- Overture—"Grand National" Losey
- "Lassus Trombone" Fillmore
- March—"Chicago Tribune" Chambers
- "Star Spangled Banner"

A unique form of advertising is the 1900 penny helmets for children given out by the Salem Woolen Mills store. And not only is the store giving out helmets but those who have one to wear will be given five crackers on the Fourth if they appear at the store at 12:30 o'clock tomorrow. Those who did not get helmets will be given whistles.

**SQUEEZED TO DEATH**

When the body begins to stiffen and movement becomes painful it is usually an indication that the kidneys are out of order. Keep these organs healthy by taking

**GOLD MEDAL HARLEN OIL**

The world's standard remedy for kidney, liver, bladder and uric acid troubles. Famous since 1895. Take regularly and keep in good health. In three sizes, all druggists. Guaranteed as represented. Look for the name Gold Medal on every box and accept no imitations.

**Keep Trucks Moving**

OUR truck-tire press is powerful enough to apply or remove a tire quickly.

All the machines and men necessary to give you prompt tire changes.

Our job is to keep your truck moving. We give you the right tire. We reduce the time of tire change.

More, we give you a tire that is resilient. It stops road jolts before they damage the gears and bearings of your trucks.

Firestone Tires and our service will make your trucks last longer.

The fact is—  
Over half the truck Tonnage of America is carried on
