

# The Western Electric Washing Machine

WASHES CLEAN AND SPOTLESS WHITE---There is never any need of the washboard or hand-rubbing. The hot filmy soap suds are gently but forcefully swirled through every garment and cloth, forcing out the dirt and grime under the magic power of electricity while you go about your other duties or sit quietly by reading a book. The clothes come out clean and white, from the daintiest lingerie to the heaviest blanket.

An ordinary washing for a family of five can be done in an hour, or hour and a half, leaving you the balance of the forenoon---hours formerly spent in drudgery---for your regular household duties or pleasure.

THE WESTERN ELECTRIC is compact and requires but little space. It is not an incumbrance, never in the way, a beautiful and attractive machine that commands admiration. Just a little out-of-the-way corner will be large enough for it.---"Put it behind the door." The tub rack may be telescoped and "hung on a nail" or shoved under the machine.

THE PRICE OF THE WESTERN ELECTRIC IS REASONABLE AND WITHIN THE REACH OF ALL.

Can be paid for on installments, monthly with your electric light bill.

## PICKING OPPONENT FOR CHAMP NOT EASY

### Search Of Fistic Circles Shows Men Of Dempsey Class Are Few.

By H. C. Hamilton  
(United Press Staff Correspondent.)  
New York, July 8.—Since there is so much speculation on a probable opponent for Jack Dempsey, now that he has gained the heavyweight title, it probably would be a good thing for the public and the boxing game if a few aspirants to the match were counted out before they ran afoul the champion's fists.

Providing Georges Carpentier never had been matched with Beckett for the European championship, it is not improbable that the Frenchman would have been selected as the Dempsey victim. But as he stands in such great danger of being eliminated in the Beckett match, he is hardly worth consideration.

Carpentier is not in shape for a match with any one, to say nothing of a battle for the world's title. It is declared here by competent critics who have seen the French champion during the war that he is fat and burned up inside; that he has not taken good care of himself and that he never will be in fighting condition again.

So much for Carpentier.

Frank Moran has bid for a match. He is a mere third rate boxer, nothing more. And that ends him.

Fat Willie Meehan holds a decision over Dempsey, gained in California in four rounds. Meehan's friends declare Meehan is a sure winner over this distance. With Dempsey defending the title the meeting would probably mean disaster for the fat boy. He is the more desirable of any of the heavyweights now ready for a whiff at the title, since Billy Miske himself has dodged a new match with Willard's conqueror.

So much hokum is being smoked, however, that there is every likelihood Dempsey will be sent into the ring in New Jersey about Labor Day.

of the state, and those fruits are going out under labels which are synonymous with California, and Oregon is being robbed of the prestige it is entitled to for its superior products.

"The arguments, presented are not really arguments why growers should not do their own business and market their own fruits nationally under an Oregon brand, as most of the article is confined to a personal attack on one of the writers of one of the Portland papers. It is inexcusable, however, that the fruit growers, and especially the prune growers, should continue to go ahead blindly in the same way in marketing their products, as they have been in the past twenty years, in view of the fact that up until the last two years fully sixty to seventy five per cent of the prune growers had mortgages on their places.

"To use the present abnormal conditions to justify the growers in continuing to work in the same unorganized manner they have in the past twenty years is inconsistent, and any one who attempts to convey the idea that an increase in the production of prunes, which will throw from four hundred million to five hundred million pounds more prunes upon the market within the next few years, can be met by the same inactive methods as in the past, is too inconsistent to be considered a reliable authority on the subject, when it can be clearly shown that the increase in consumption during the last ten years has been practically nothing as compared with the enormous increase in planting.

"This California 'hogwallow' is a mere camouflage which is not deceiving the prune growers, especially in view of the fact that ninety to ninety five per cent of the unorganized growers, on account of the lack of information which their organized neighbors are able to secure, took a loss of from \$20 to \$80 per ton on their last season's crop, and after these conditions the statement 'Let the prune growers profit by existing conditions and get all the can, for he certainly deserves it' appears ludicrous. That is where the rub came.

"The unorganized growers did not get all they could have had they been organized and sold their prunes to the eastern trade, and the old saying 'Be ware of Greeks bearing gifts' might apply, as the selfish interests behind this statement are too apparent."

## Chicago Girl Happy Over Murder Of Attorney Whom She Declares Wronged Her

Chicago, July 8.—(United Press.)—Of four women in the life of Benjamin Burr, a murdered attorney, only one was happy today. That was Margaret Seithamier, 17, the girl who admits shooting Burr Monday because "he used her as a toy."

Margaret was in jail awaiting the coroner's verdict on Burr's death.

Burr's mother, Mrs. Mary Burr, is under a physician's care as is Mrs. Myrtle Burr his divorced wife. Miss Tillie Sauter, Burr's fiancée for whom Margaret Seithamier says she was "thrown over" was grief stricken.

Margaret, a pretty girl, giggled today over the death of the lawyer who, at 34, was a specialist in divorce cases. She cheerfully re-enacted the scene in which she took Burr's life. With her sister, she said, she waited in Burr's office. As he opened the door she fired five shots from a .45 revolver. The man died in a hospital. The girl waited for officers and docilely went to jail. Burr, she claimed, dragged her and took her to his rooms, afterward promising marriage.

The other women interested in Burr presented the girl's story, all three asserting "he was the greatest man."

## ASSOCIATION OF GROWERS

(Continued from page one)  
were obliged to secure the services of Aaron Sapiro, a specialist in cooperative association law work, who resides in San Francisco, to draw up our articles of incorporation and by-laws. Mr. Sapiro's work will be over in about a week, and after that time he will have no further connection with the association. The remainder of the legal work

will be handled by Oregon concerns. "All of the weaknesses of other cooperative associations in the way of contracts, etc., have been gone into by the writer with Mr. Sapiro, and the new association's articles of incorporation, by-laws and initial contracts are the best that have been sent on the Pacific coast. Mr. Sapiro is attorney for ten growers associations, and the papers of the new association represent the results of years of experience along this line. His connections

with the association, however, will end next week.

"To permit the statement that California will have any hand in a rank injustice to the twenty one directors of the association, who are all Oregon men, and whose loyalty and enthusiasm for Oregon has never been questioned. The fact of the matter is that California already controls through various firms approximately fifty per cent of the dried fruit output and seventy five per cent of the canned fruit output

## SLOW DEATH

Aches, pains, nervousness, difficulty in urinating, often mean serious disorders. The world's standard remedy for kidney, liver, bladder and uric acid troubles—

bring quick relief and often ward off deadly diseases. Known as the national remedy of Holland for more than 200 years. All druggists, in every state. Look for the name Gold Medal on three boxes and accept no imitation.

## THOUSANDS GREET

(Continued from page one)

with bows and smiles. The streets had been specially decorated for the occasion and the scene was inspiring.

Two hours before the president reached the hall where he was to speak a very great crowd had gathered.

The crew of the British dirigible R-34 came in shortly before 4 o'clock and took seats. They were instantly recognized and given an ovation. The crowds in the hall were patient, despite the extreme heat.

## Capital Plans Welcome

Washington, July 8.—(United Press.)—Washington, which ordinarily goes to bed about 9 p. m. will sit up tonight to welcome President Wilson. The police have made preparations to handle a big crowd when the chief executive arrives here at 10 o'clock.

Between 10 and 11 p. m. the presidential party will pass through an arbor of flowers at Union station, be greeted by two bands playing patriotic airs and proceed along Pennsylvania avenue to the White House past tableaux intended to demonstrate how glad the capital is to see its most prominent citizen once more.

Police and secret service agents have taken extraordinary precautions to safeguard the president. The railway line from New York to Washington will be patrolled. Throwing of flowers at the president and taking of flashlight photographs is forbidden. Major Pullman, chief of the Washington police, and secret service hands will inspect the Union station guards and the scores of plain clothes men along the route this evening to make sure every man is at his proper place and that no possible precaution has been overlooked.

Senate Ready for Treaty.

Formal preparations were made today by the senate to receive President Wil-

SOME men spend months in selecting a car and minutes in deciding on its tire equipment.

And yet the best car in the world is ultimately no better than its tires.

With Firestone Gray Sidewall Tires between you and the road you can rest assured of getting every dollar's worth of satisfaction out of your car that the makers put into it.

son Thursday when he presents the peace treaty.

A resolution by Senator Lodge was passed, authorizing appointment of a committee to notify the president that the senate is ready to receive any communication he may wish to make and to escort him to the senate chamber.

Senators Lodge, Hitchcock, McCumber, Williams and Borah were named. Borah refused to attend the White House dinner when the president returned last time and is the president's most implacable opponent on the League of Nations. On Lodge's motion, the senate decided to adjourn today until Thursday.

## Open Forum

THE SALVATION ARMY

To the Editor: The Salvation Army has erected on the corner of State and High streets for free distribution of hot coffee, doughnuts, soft drinks, etc. to soldiers, sailors and marines, was certainly a busy place from early on the morning of the Fourth until late in the evening of the fifth and the boys fully appreciated the effort. Capt. and Mrs. Hunter, with their helpers, also found much pleasure in the service rendered and at the close of the two full days felt proud to have met so many boys who really have sacrificed. The surplus from the banquet given to the boys in the armory by the war mothers and that from the Knights of Columbus which was handed to Captain

Hunter of the Salvation Army together with the remains of the Salvation Army's own effort was wisely distributed by the captain among some poor families.

—A FRIEND.

## Amherst Professor To Make Attempt To Talk To Mars

Omaha, Neb., July 8.—Professor Avis Todd, Amherst university, who claims to have instruments with which he believes he can communicate with Mars if he reaches a great enough height, will make an attempt to reach the planet Sunday, according to Balloon Instructor Leo Stevens, Fort Omaha. Professor Todd will accompany Stevens in his height endurance tests at the last.

Professor Todd has made two others attempts to communicate with Mars, one from the top of the Andes mountains in South Africa and the other from a balloon piloted by Stevens in Canada.
