

The Western Electric Washing Machine

WASHES CLEAN AND SPOTLESS WHITE—There is never any need of the washboard or hand-rubbing. The hot filmy soap suds are gently but forcefully swirled through every garment and cloth, forcing out the dirt and grime under the magic power of electricity while you go about your other duties sit quietly by reading a book. The clothes come out clean and white, from the daintiest lingerie to the heaviest blanket.

An ordinary washing for a family of five can be done in an hour, or hour and a half, leaving you the balance of the forenoon—hours formerly spent in drudgery—for your regular household duties or pleasure.

THE WESTERN ELECTRIC is compact and requires but little space. It is not an incumbrance, never in the way, a beautiful and attractive machine that commands admiration. Just a little out-of-the-way corner will be large enough for it.—“Put it behind the door” The tub rack may be telescoped and “hung on a nail” or shoved under the machine.

THE PRICE OF THE WESTERN ELECTRIC IS REASONABLE AND WITHIN THE REACH OF ALL.

Can be paid for on installments, monthly with your electric light bill.

Highway Commission Not To Cancel Cement Order Given California Firm

As a result of a long and somewhat heated conference with cement representatives in Portland, the state highway commission decided yesterday that they would not cancel their recent order for 23,000 barrels of cement placed with a California concern. Representatives from the Oswego cement company had petitioned the commission to rescind the order on the ground that the Oregon industry should be given the preference. Replying to the Oswego people, members of the commission

stated their conviction that the cement companies were in a combine and were "playing horse" with the state. They pointed to the well-known fact that California cement had been shipped into the state as Oregon product; that California cement had been sent to eastern Oregon contractors at a lower rate than the Oswego product; that on the Hillsboro highway unit a contractor demonstrated that he could get cement direct from the manufacturers at a lower price than had been quoted the highway commission. In course of the discussions Chairman Benson frankly declared the belief of the commission that the cement men had combined for the purpose of robbing the state. Hence they would not tie themselves to any one company.

BARGAIN DAY-- JULY 12TH

Mary Pickford offers the first production from her own studios, of which her mother is business manager, as an example of the quality of photoplays her friends may expect from her in the future. She paid \$40,000 for the story alone. She is not controlled by any producing company and is responsible to the public only for the class of entertainment she provides. The distribution of her first three photoplays will be handled by the First National Exhibitors' Circuit, Inc., a nation wide organization of theater owners devoted to the encouragement of better pictures. To be shown in Salem at Ye Liberty, four days, starting Sunday July 20th.
