## HAUSER BROS.

### \$23 HOGS PREDICTED

Chicago, July 11.—Hogs at a new record breaking figure of \$23 per hundred pounds by Saturday was assured, said packers, when the livestock market opened today with hogs at \$22.90.

State Game Warden Shoemaker has referred to Attorney General Brown a dispute between two settlers residing on opposite sides of the Siuslaw river as to fishing rights. For a number of years one of these settlers had held a license to anchor a set-net in the stream opposite his property. Then his neighbor secured a similar license and anchored a net in the same locality; whereupon the first licensee entered a protest against the newcomer as a trespasser. In passing upon the case the attorney general states the law provides that no abutting property owner can claim exclusive fishing privilege in a navigable stream. In case of a non-navigable stream the abutting owner's property extends to the center of the stream, and where he owns land on both sides of the stream he owns the entire stream bed and controls all fishing rights.

Chicago Daily News—Mr. Wilson's evident disposition to avoid needless friction and remove psychological obstacles to an amicable adjustment of the differences that have arisen during his long absence should have a decided beneficial effect.

Chicago Journal—The world of civilized men agrees in the main with the work of the peace conference, and the senate of the United States will not long lag behind. By presenting his case clearly, President Wilson has presaged it convincingly.

St. Louis Times—No sane man reasoning without the influence of hysteria can make the president's softy and sincere utterances fit in with the facts as they are appearing day by day.

St. Louis Star—President Wilson summoned the genius of the American people. They have seen the light and they are not afraid of the path. They will not turn aside into the shadows. If the old world darkness comes over them, it will be because the light has been extinguished, not because it has been forsaken.

## EDITORS DIVIDED IN OPINION ON ADDRESS

### Middle West Papers Hold Wild Range Of Views On Wilson's Plea.

Chicago, July 11.—Newspapers of the west and middle west expressed diversity of opinions on President Wilson's address to the senate yesterday on the peace treaty and the league of nations covenant.

Editorial comment was as follows: Chicago Daily News—Mr. Wilson's evident disposition to avoid needless friction and remove psychological obstacles to an amicable adjustment of the differences that have arisen during his long absence should have a decided beneficial effect.

Louisville Courier Journal—The president's address threw thorax in the path of the boisterous and embarrassed opposition. To the student of great questions the elements which make the spectacle dramatic are deplorable. Yet let the play go on.

## Round Coast League Bases

(By United Press)

Yesterday's winners: Portland, Seattle, Vernon, Salt Lake. Home run: Farmer, Beavers.

Big Bill James introduced himself to the league as the Oak mound by some wild heaving. The Bees won 9 to 3.

Two runs in the ninth was just enough for the Rainiers to nose out the Angels, 2 to 1.

The Beavers came from behind, scored a brace of runs in the 9th and downed the Seals 10 to 9.

The Senators' last inning rally failed to net them more than three tallies and the Tigers gathered the game, 9 to 4.

### Suggestions For Preparing Fleece For The Market

Show the sheep when the wool is absolutely dry, never when there is any moisture in the fleece.

The sheep should be shorn only on a smooth, dry surface, preferably a planed board flooring, never on the dirt.

Care should be taken to keep the fleece intact. Avoid second cuts, which reduce the average length of the staple.

Clip all locks from each fleece and pack separately. Never permit them to remain in the fleece.

Fleeces should be prepared with the flesh side out, never the weather side.

Fold, roll, or use fleece box for preparing the fleece.

The each fleece separately. Never tie two fleeces together, nor pack and market untied wool.

Use only enough twine to tie fleeces securely.

Paper or hard glazed surface twine should be used. Never use rick or binder twine.

Never permit the fleece to come into contact with chaff, hay, dust, or any other foreign material.

Place the tied fleece in regulation wool sacks or cover them with canvas or new burlap.

Select a clean, dry place for storing the wool until sold. Never permit the wool to lie upon the ground nor store it in a basement.

Keep the white and black wool separate. Never permit any portion of black wool to be mixed with the white.

Divide the heavy, seedy, cotted, dead, black and gray fleeces from the clean, white, well-grown wool, and pack separately. Never pack all grades together indiscriminately.

### Denver Streetcar Strike Expected To End Tonight

Denver, Colo., July 11.—Resumption of streetcar service here by tonight after nearly four days' tieup appears probable. The striking motormen, conductors and firemen were to decide in mass meeting here today whether to accept an agreement reached between the city administration and the tramway company.

This proposal was for continuation of the five-cent fare until a six-cent ordinance is passed through the city council. The strikers are asked to return to the wage scale fixed by the war labor board, pending arbitration of their demand for higher wages.
