HERE'S a bob-white out in the meadow

And a rose in bud on the wall. A life of love in the fragrance, A world of joy in the call.

There isn't a moment for worry Or sorrow or trouble, at all— With a bob-white out in the meadow And a rose in bud on the wall!

Monday the entire party will take a trip up the Columbia highway returning to Portland in the evening and spending the following day in the metropolis. They plan to return to Salem Wednesday.

Mrs. Olsck Nelson of Portland is the guest of Dr. and Mrs. W. H. Lytle at the Court apartments.

Heretofore women were employed at the city hall in inferior clerical positions only. The competitions for all the higher office positions including the heads of bureaus, have now been opened to them.

One of the gayest juvenile parties of the season was given by Miss Sally Bush at her beautiful home, last Wednesday afternoon when a host of little belles and beaux gathered to enjoy her hospitality. Everything that a child heart could desire was at the service of children, and every detail, from the merry games, to the abundant refreshments and pretty favors, was in keeping with the happy occasion. Nothing was omitted that would in the least add to the story book reality of the party, and the host of little ones that crowded the large house and romped on the spacious lawn gave ready testimony to the complete success of the affair.

All business women in the country are to be united in one big federation. This includes actresses and nurses, artists and stenographers, journalists and shop girls, everyone, in fact, who is economically independent. All this will take place in St. Louis, July 14 and Miss Lena M. Phillips, attorney and executive secretary of the National Business Women's committee, pointed out how this was to be done, at a meeting of the business women's clubs held recently at the national board building of the Y. W. C. A. in New York. "This is the first federation of women's clubs which will have economic improvement for its object," she explained. "The national league of women workers hinges on recreation for the working woman, but we hope to improve the business efficiency of women all over the country."

Many women who became professional nurses about 15 years ago," said a delegate from Hartford, Conn., "would be infinitely happier and more efficient in another line of work. They simply went into it because it was one of the few professions open to women. The clubs hope to establish a bureau of information in different cities where statistics of every trade and profession are kept, a record of technical schools so that the candidate for a profession may find out at once whether she is qualified and where she can get the best training."
