1919 Edition Of Oregon School Laws Off Press And Being Distributed

The 1919 edition of Oregon school laws has just been issued by J. A. Churchill, superintendent of public instruction. Copies are now being sent to all the county superintendents in sufficient number to provide each chairman of the school board, the clerk and the school libraries with a copy. Of state wide and even nation wide importance are a number of laws which were enacted by the 1919 session of the Oregon legislature. The most important among these acts are the ones accepting the provisions of the Smith-Hughes vocational act, the law establishing part time schools, the minimum salary for teachers, the high school act and the law increasing the amount of tax that each county shall levy for elementary school purposes from \$8 to \$10 per capita for each child of school age. The vocational act makes an appropriation of \$10,812 for this biennium to meet the appropriation of the federal government. This law is administered by a state vocational board appointed by the governor and the money is used to establish vocational departments in the various high schools of the state. The part time act provides that where there are 12 children or more between the ages of 14 and 18 years who are legally employed and who have not yet finished the eighth grade, part time schools shall be established by the school district under the direction of the state vocational board and all of such legally employed children must attend such part time schools not less than five hours per week on the employers' time until they have completed the first eight elementary grades. The minimum salary law provides that no teacher shall be employed in the state of Oregon at a salary of less than \$75 per month, and the minimum term law provides that no district shall have less than eight months of school each year. While this salary is not sufficient when compared with the salaries paid in other lines of work it will guarantee to many of the rural districts a better paid and consequently a better trained teacher than they have had in the past. The various appropriations show also that the legislature has recognized the fact that the safety of the state depends upon the education of its citizens.

The Joy of Living

To enjoy life we must have good health. No one can reasonably hope to get much real pleasure out of life when his bowels are clogged a good share of the time and the poisons that should be expelled are absorbed into the system, producing headache and indigestion. A few doses of Chamberlain's Tablets will move the bowels, strengthen the digestion and give you a chance to realize the real joy of living. Try it.

SWITZERLAND TO FLOAT BIG BOND ISSUE IN U. S. SOON

New York, July 17.—Switzerland will float a loan in this country of between \$50,000,000 and \$100,000,000, it was learned in financial circles today. The loan will be obtained through the sale of bonds to be taken by the Guaranty Trust company and other prominent banks and companies. Proceeds will go for necessities in Switzerland.

NEW CHAMPION SOME BUSY MAN THESE DAYS

Dempsey Says He Will Meet All Comers; Two Scraps Being Promoted.

Los Angeles, Ca., July 17.—Jack Dempsey, world's heavyweight champion and Jack Kearns, his manager, arrived in Los Angeles early today. Several hundred fans stayed up most of the night to see the new king of fistbuffs when he stepped from the train.

"I'm going to be an active champion," Dempsey told newspapermen. "I will meet all comers."

Dempsey and Kearns will leave tonight for San Francisco. They plan to stay several days in the bay city and return here later to fill a contract with a moving picture company.

"It's news to me," was the comment of Kearns, when shown a Pittsburgh dispatch saying Dempsey had agreed to meet Frank Moran.

"Moran isn't a card in my opinion," Kearns added. "I feel that way after the showing Moran has made with Carl Morris and some of the others."

Kearns freely declared he looked kindly on the proposition to meet the winner of the Carpenter-Beckett match, declaring:

"I feel that Carpenter or Beckett are the only men who are really in a position to meet Dempsey now."

Not Evading Fights.

"There's one point I want to make clear, however. We do not refuse to meet any man whom the public demands Dempsey to meet. If any promoter can put up the money and show us there is a demand for such a fight, we'll meet Moran or any one else."

"Dempsey is a fighter, and we would rather fight than go on the stage or into the movies or do anything else. We don't want to wait a year to fight again, either."

Kearns said he would leave with Dempsey this afternoon for San Francisco, make a brief stay there and then go to Salt Lake, where Dempsey will visit his mother for a few days. Then they will go east to fill theatrical engagements.

Kearns and Dempsey are here to complete details of a motion picture contract for several big feature films in which Dempsey is to be star.

Kearns said close to \$1,000,000 is involved in this deal.

Moran Match Rumored.

Pittsburgh, Pa., July 17.—Jack Dempsey, new heavyweight champion, has consented to a bout with Frank Moran, according to local fight promoters who have been angling for the match. Moran expressed willingness to meet Willard's conqueror but is said to hold that the bout should be staged in the east, as Moran figures a large portion of his New York following would attend.

English Bid High.

London, July 17.—George MacDonald, representing Promoter C. B. Cochran, will leave next week for America to make an offer to Heavyweight Champion Jack Dempsey to meet the winner of the Carpenter-Beckett go, September 2.

MacDonald, it is said, has been empowered to offer a \$125,000 purse. The fight would be held in London.

WOMAN ACQUITTED

Spokane, Wash., July 17.—Leta Langer, who shot E. H. Haley, of Butte, Mont., to death here during a quarrel in a hotel, was acquitted by a jury late last night. Evidence tended to show that the woman shot Haley in self defense.

The new sawmill of the Valley Lumber company near Lewisville, in Polk county, is nearing completion and will be ready to begin operations within a short time.
