Welworth Blouses

Are Products of the Wirthmor Saving Plan

\$2.50

"It's just like putting money in the bank," said a lady the other day when she realized what her savings would be in the course of a year by buying Welworth Blouses. She had bought them before and knew how completely satisfying they were.

These Blouses are made and sold under what might truthfully be termed the "WIRTHMOR SAVINGS PLAN" which is a more modern, advanced, direct and economical way of making and distributing Blouses through many hundreds of progressive retail stores the nation over.

One of the new Welworth Styles that just came in is illustrated; there are others here equally as attractive. New models arrive with such frequency, that you are always assured of finding Styles that are NEW and CORRECT, that will appeal to your taste as well as to your purse.

New Welworth Blouses go on sale here on the same day they first appear in the Style Centers of the Country.

treaty without delay, Pomerene said: "A war-sick world demands the early ratifications of the treaty. That demand must not be ignored."

MEXICAN SITUATION BEING PROBED TODAY

Senate And House Consider Bill Demanding Full Investigation.

Washington, July 21.—Developments in the Mexican situation today were as follows:

1—Senators deeply interested in the Mexican situation planned a conference to discuss what congress can do to stop outrages against Americans.

2—The house rules committee prepared to hear testimony of Ambassador Fletcher, recently returned from Mexico City.

3—Mexico informed the United States it would do all possible to punish authors of the "odious crime" in which John W. Correll was killed and his wife assaulted. No further word has been received from Mexico as to the robbery of American navy sailors in the Tamei river.

After hearing Fletcher, the committee was expected to decide its course on the Gould resolution, providing for a special senate and house investigating committee with broad powers.

If this investigation is ordered, members of congress stated, it will be given evidence to show, among other things, that Carranza's government won recognition from the United States through bribery and deception.

One member of congress declared President Wilson had been given evidence of Carranza's attempt to corrupt American officials in Mexico. This evidence, he stated, was a check for \$25,000, signed by Carranza and offered to an American special agent if he would make favorable report on the Carranzista group.

Senator King, Utah, who for months has been demanding a "show down" with Carranza on unpaid claims of Americans for damage to property, said he may ask that the foreign relations committee be discharged from consideration of a resolution calling on the state department to hasten action.

The committee, Senator Lodge explained, has been unable to consider the resolution because of the peace treaty. He said he would have no objection to King calling it directly before the senate.

Senator Smith, Arizona, said he expects to address the senate shortly on the situation.

Traffic Congestion Big Problem In London Today

London.—(By Mail).—London, the most crowded city in the world—it has a population estimated close to ten million, including the vast continual stream of visitors—is faced with the serious problem of how to relieve the hardships of its working and shopping public resulting from traffic congestion.

The world's biggest city thought it had solved the problem years ago when an American built them a subway, but now this is falling behind traffic. Not that the subway has grown less efficient. It hasn't. But only so many trains can be run and it is impossible to run enough to handle the traffic which overflows and crowds on to the omnibuses and the street cars.

The omnibuses fail to meet the situation and even the expected addition of a thousand more omnibuses shortly won't settle the problem. They will only serve to block other traffic.

It has been suggested that an elevated railroad be built such as Chicago, New York and Boston have. In the meantime millions of Londoners daily struggle, crowd and push for a strap or seat on any kind of a public conveyance.

World Will Be Told Of Germany's Aims

By Carl D. Groat (United Press Staff Correspondent). Berlin, July 18.—Chancellor Bauer and Foreign Minister Mueller are to make "a program of speeches" next week, in which they will tell the world what Germany expects to do within and without her boundaries, now that peace is here.

It is believed these speeches will carry some appeal to America although there is a disposition in some quarters to warn the government against the danger of a "one-sided" foreign policy. Instead it is urged Germany should adopt a policy seeking to restore friendly relations with all nations.

Both speakers are expected to reiterate their solemn assurances of the past that the new Germany intends to adhere fully to the peace treaty. The trend of recent thought within Germany, however, makes it appear likely there will be some hints asking Germany's early admittance to the league of nations. Renewed suggestions also are expected with an aim of obtaining further alterations in the peace terms.

Inland Empire Will Have League Of Its Own In 1920

Spokane, Wash., July 21.—Plans for a new international baseball league in 1920, composed of teams from Spokane, Butte, Great Falls, Calgary, Edmonton and Lethbridge, Alberta and possibly Missoula and another Canadian town are slowly taking shape here.

Nick Williams, former manager of the Spokane Indians in the northwest, is chief backer of the new project and he is busy now in Canada looking over the situation there and lining up support.

RATE HEARING

(Continued from page one)

land and allied interests to win a lower freight rate than that which is now in effect.

The Inland Empire Shippers League, as explained by Oswald West, its attorney, is a voluntary organization of farmers and shippers having interests in those sections of Oregon, Washington and Idaho known as the Inland Empire. This league was the first to file complaint against the alleged unreasonable rates to Portland, Astoria, Vancouver, Wash., and other Columbia river points.

The complaints maintain that shipments to Columbia river ports are entitled to lower freight rates than those to Puget Sound ports because the former go over railroads with a natural downgrade, where the latter must be carried over the mountains. The distances involved in both instances do not differ much.

Astoria is allied with the Puget Sound interests in fighting this case. That Oregon city opposes Portland because Portland asks for a lower freight rate to Portland than the rate to Astoria. The rates to the two cities are now the same, although Astoria is 100 miles further west from the Inland Empire.

\$80,000 Damages Result Of Forest Grove Fire

Forest Grove, Or., July 21.—Citizens of Forest Grove were poking about today in the ruins of an \$80,000 fire trying to salvage something. Plans for rebuilding the part of the business district destroyed yesterday had not yet materialized.

The fire, which for a time threatened the whole business section, wiped out the Old Fellows hall, the First Congregational church and several other buildings.

Four more serious forest fires were reported Sunday in Montana.

INTERNATIONAL STRIKE

ious construction projects in and around the city.

Parleys were to begin late today and leaders freely predicted the consultations will result in an amicable settlement.

That the threatened streetcar and elevated railroad may be averted appeared probable after Thomas Edmopey, a member of the Illinois public utilities commission, declared the commission will favorably consider granting of higher fares to the surface lines in order

Clothes for You

We mean this--- Clothes for All

We can supply your needs, for the very young, for the young man; who demands style and service; all that and more are tailored into our suits.

Made of Virgin Wool in the waist-seam models, single and double breasted; they give that snappy appearance that you so much admire in the other fellows suit --- he bought at Bishops.

OUR stock is very complete for the more conservative men, who demand individuality and style. We can satisfy your every need. Priced from \$35 to \$50

PALM BEACH

LEAGUE SENATORS

(Continued from page one)

if it makes the league an issue.

Taking up the Shantung provision, Backham answered the criticisms of it in detail.

The war must be fought over again unless the allied nations provide some means for making Germany keep the peace, Senator Damerone, Ohio, democratic member of the foreign relations committee, declared to the senate in a three hour speech in advocacy of the

League of Nations. Rejection Means War.

"If this treaty is rejected what is to take its place?" asked Pomerene. "To quit now is as if, after the flames of a great conflagration had been checked, the fire department were to quit its work while burning embers were lying around, to be again fanned into fury by the first winds that blow. That treaty is not perfect, all concede. That it would have been drafted differently by the American nation there can be no doubt; but many of those who criticize have no remedy to propose. In the view of the unrest now prevailing, and

the immediate necessity for the preservation of the world's peace at all hazards, I believe it better to accept the treaty as it now stands and trust to the future to make such changes as experience may suggest."

Pomerene charged that the republicans have made the league a party question.

"I owe my allegiance to the democratic party," he said. "I believe in its principles and hope for its success, but I would rather have my party lose and the league of nations win than to have my party win and a league of nations lose."

Urging that "the senate ratify the
