

Perspiration hurts fabrics Launder your blouse the moment it gets soiled!

WHEN you lay aside a blouse that is even slightly soiled, have you ever stopped to think what happens to it?

Perspiration contains acids that are harmful to delicate materials. These acids attack the fabric and make it "tender". Leaving your blouse like this even a day will damage it.

The moment your blouse gets soiled, dip it into pure Lux suds!

Lux comes in delicate glistening flakes, that melt instantly in hot water and whisk up into a rich, cleansing lather. The gentle Lux way of washing will save your blouse from the harm even a trace

of perspiration does to frail things! Your grocer, druggist or department store has Lux.—Lever Bros. Co., Cambridge, Mass.

To wash sheer silk blouses Whisk a tablespoonful of Lux into a thick lather in half a bowlful of very hot water. Add cold water till lukewarm. Dip your blouse through the foamy lather many times. Squeeze the suds through it—do not rub. Rinse three times in clear lukewarm water. Squeeze the water out—do not wring. Dry in the shade. When nearly dry press with a warm iron—never a hot one. Georgette crepe blouses should be gently pulled into shape as they dry and also should be shaped as they are ironed.

Lux won't hurt anything pure water alone won't injure.

Therkelson, Miss Ruby Shorer, Miss Emma Wold, Miss Cora Wold, Miss Ethel E. Griffith and others, personally will ask Governor Olcott Thursday to call an extra session of the legislature to ratify the national suffrage amendment.

Miss Vivian Pierce of Washington, D. C., editor of the suffrage publication known as The Suffrage, has just arrived from California and she predicts that an early session will be held there, the legislators having signified their willingness to forego both salary and mileage in the event of an extra session. Thus far only Colorado and Nevada have announced definitely that an extra session will be held.

Mrs. W. J. Hawkins, state chairman of the party is urging the women of Oregon to lay aside all former disagreements and differences and to unite in helping to secure for all the women of the country the vote by 1929. Temporary headquarters for the party in the interests of this matter have been established at the Multnomah hotel.

Of These Mikado Silks at **\$2.50**

THEY LOOK WELL
THEY WEAR WELL
THEY WASH WELL

These Mikado Silks are woven of heavy Pongee stock in plaids of pretty color combinations, giving a rich worsted effect. A prominent feature is the weight which makes these Silks one of the best fabrics for Fall and Winter wear. Two dollars and fifty cents is no indication, at all, of the true worth of these Silks—the intrinsic value is very much more.

THE LOOK AHEAD

Imports nothing but very much higher priced Silks and, that as surely as there is a ripple in a canoe's wake. Raw Silks that formerly brought \$3.00 a pound are now \$11.00. Weavers were formerly paid \$2.00 to \$3.00 a day, now \$7.50 up. As an expert weaver only 8 1/2 to 10 yards a day, who will venture a guess of Silk prices a season or two hence?

Put Up Every Pound of Fruit You Can Get This Summer

Delicious Jams, Jellies and Preserves made by this recipe:

Many a woman hesitates to try putting up fruit at home. She fears she will only waste expensive materials.

It really is very simple. Just make your preserving syrup with 1/2 Karo (Red Label) and 1/2 sugar instead of sugar alone.

You can then be as sure of your results as the woman who always has "luck" with her preserving.

Nice fine, clear Karo Syrup has a natural affinity for the fruit juices. It blends the sugar with the juice—brings out the rich "fruity" flavor, and insures firm jams and jellies that never "candy" in the glass.

A well-filled fruit pantry will give you much pleasure this winter, when fresh fruits are scarce and high, if you just use Karo Syrup with your sugar.

For Cooking, Baking and Candy Making Karo (Red Label) is used in millions of homes. In all cooking and baking recipes use Karo instead of sugar. It is sweet, of delicate flavor, and brings out the natural flavor of the food.

FREE Preserving is easy when you have the sixty-eight page Corn Products Cook Book handy. Wonderful recipes—easy to follow. Beautiful illustrations. Write us today for it. It is free.
