SEALED BIDS INVITED
Concrete bids will be received by school district No. 24, Marion county, Oregon, for the laying of concrete sidewalks at the Lincoln, Grant and Highland schools. Plans and specifications are now on file with the clerk for examination. Bids will be opened at the regular meeting, August 15th, 1919. The right to reject any or all bids is reserved. A certified check for 5 per cent of the amount of each bid must accompany same. Address all bids in plain envelope, marked "Bids on concrete walks," to W. B. Burghardt, Jr., 371 State street, Salem, Oregon. 7-30

NOTICE OF SALE OF GOVERNMENT timber, general land office, Washington, D. C., June 27, 1919. Notice is hereby given that subject to the conditions and limitations of the act of June 9, 1916 (39 Stat., 218), and the instructions of the secretary of the interior of September 15, 1917, the timber on the following lands will be sold August 20, 1919, at 10 o'clock a. m., at public auction at the United States land office at Portland, Oregon, to the highest bidder at not less than the appraised value as shown by this notice. Sale to be subject to the approval of the secretary of the interior. The purchase price, with an additional sum of one fifth of one per cent thereof, being commissions allowed, must be deposited at time of sale, money to be returned if sale is not approved, otherwise patent will issue for the timber which must be removed within ten years. Bids will be received from citizens of the United States, associations of such citizens and corporations organized under the laws of the United States or any state, territory or district thereof only. Upon application of a qualified purchaser, the timber on any legal subdivision will be offered separately before being included in any offer of a larger unit. CLAY TALAMAN, Commissioner, General Land Office. 8-18

CENSORSHIP ENDS

Washington, July 24.—War time censorship, established May, 1917, and exercised by the navy department, ended last night. The department which handled upwards of 400,000 words a day and employed 1200 persons, is said to be the only military organization which made money for the government.

WHY PORTLAND BREAD? SALEM BREAD IS THE BEST

Notwithstanding the fact that there are long well equipped bakeries now operating in Salem producing bread of a first quality, a local concern has decided to import and advertise a certain brand of bread from Portland.

This concern relies upon the support of Salem people in the successful conduct of its business, however, it promises to send eighty per cent of the money spent with them for bread to Portland, instead of selling Salem bread and keeping the money in Salem where it belongs.

As our prosperity depends almost wholly upon that of Salem, we appeal to the people of this city to demand bread that is made by Salem.

Keep your money at home and preserve your local payrolls.

CHERRY CITY BAKERY SALEM BAKING CO. PEERLESS BAKERY.

ADMINISTRATRIX'S FINAL NOTICE

Notice is hereby given, that the undersigned Emma L. Dwyer, administratrix of the estate of Edward P. Dwyer, deceased, filed her final account as administratrix of the estate of Edward P. Dwyer, deceased, in the county court for Marion county, Oregon, and said court has duly set the time for hearing objections thereto, and the final settlement thereof, for Monday August 12, 1919, at the hour of 10 o'clock a. m. of said day in the court room of said court at Salem, in said county and state.

Dated this 17th day of July, 1919. EMMA L. DWYER, Administratrix of the estate of Edward P. Dwyer, deceased. 8-15

OLD ELEVATOR WILL BE MOVED TO RIVER

Flouring Mill Unit Goes West To Make Room For New Paper Plant.

The old elevator building of the flaring mill on Trade street between Commercial and Front streets is about to go west for the remainder of its career. It has already been raised from its old foundations and as soon as the new concrete foundations are ready at the foot of Trade street, it will start on its journey of about one block. The new foundations will be built high enough to place the building above the average high water mark.

Excavations are now under way for the erection of the main building of the Oregon Pulp & Paper company's half a million dollar mill. As soon as the old elevator building is moved, actual construction will begin. It is to be of two stories, concrete facing 50 feet on and with a depth of 275 feet.

As soon as the main building is fully under construction, the order for the immediate shipment of the heavy machinery will be given. According to Joseph Kastner, superintendent of the mill, the machinery for paper making is so extensively that it will require close to 30 cars for the shipment alone and the freight bill for all the paper making machinery will run in excess of \$48,000, all coming from New York.

Mr. Kastner says the paper making machine is most complicated, that it is constructed with as much care as a watch and that the machine ordered for the Salem mill in every respect includes all the latest ideas in the making of such machinery.

From the time a log is started into the process of making paper out of wood to the time it is turned out as reel paper, the time required is only one hour. The big machine feeds fast and from the time the pulp goes into the machine to the time it is turned out as paper, there is required but two minutes.

Mr. Kastner, who was formerly superintendent of the paper mill at Onamas, and who has had an experience of 23 years in paper making, is now a permanent resident of Salem. He recently purchased the F. G. Bowersox property in Morningside for a consideration of \$7000.

Government Will Resume "Trust Busting" In Fall

Washington, July 24.—(United Press)—Attorney General Palmer has set at rest reports that prosecution of anti-trust cases would be allowed to drop. The government will resume "trust busting" in October where it left off at the outbreak of the war, officials said today.

The case against the alleged steel combine is the first docketed for argument before the supreme court when it convenes in October. It was moved forward at request of the department of justice. Similar suits, now pending, probably will be moved ahead also.

Indications were also that the attorney general expects to look into the affairs of the meat packers. He said the department has about completed its examination of testimony taken by the federal trade commission and probably would have "something definite to say" about August 1.

Suggested Single Union Of Coast Ironworkers Is Up For Decision In South

San Francisco, July 24.—Whether or not iron workers of the Pacific coast will be considered as one big union, establishing a basic wage for the industry is a question before the conference of shipyard workers, shipyard owners and international heads of unions today. The reply of the employers to this proposal is awaited before further propositions are presented.

The meeting is seeking to set a basic wage for the shipbuilding craft. A basic \$1 per hour is asked by the representatives of the workers. Those attending the conference state it may two weeks before an agreement is reached between district metal trades council delegates and the employers. Such an agreement will then be referred to the various locals for approval.

International heads of nine iron and steel workers unions are hereto underwrite the agreement when reached.

The Use Of Kerosene Means A Cool Kitchen

Most women dread hot summer days when the kitchen becomes as stifling as a furnace. It is plain, hard drudgery to hang over a coal stove as the thermometer mounts higher and higher.

Many women have found by putting in a kerosene stove that their kitchens are kept cool and comfortable even in the hottest days in summer.

But the use of good kerosene, such as the Standard Oil company's Pearl Oil, has many other advantages than that of keeping the kitchen cool. It is easy to handle—far easier than either coal or wood. Furthermore, it makes no dirt or dust which must be cleaned up continually. It lights at the touch of a match, so there is no waiting for the fire to come up.

Pearl Oil burns up clean and produces no odor. It is refined and re-refined by a special process which removes the impurities. Wherever it is bought—in the city, in the country, in the mountains, or on the seaboard—it is always the same high quality kerosene. It can be bought everywhere in 5 gallon cans, or in bulk at a slight saving cost.
