

Delicate Mechanism

Despite its scope, Swift & Company is a business of infinite details, requiring infinite attention.

Experienced men must know livestock buying with a knowledge of weight, price, the amount and quality of meat the live animals will yield.

Each manufacturing operation must be done with expert skill and scientific precision. A highly perishable product must be handled with speed and care to avoid loss.

Chemists, engineers, accountants, and other specialists are required to take care of our intricate problems.

Alert wisdom and judgment must be used in getting stocks of goods into the open channels of demand through our four hundred branch houses. Branch house organizations must show activity and energy to sell at the market in the face of acute competition from other large packers, and hundreds of small ones.

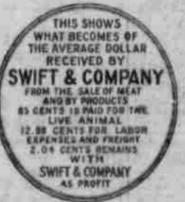

All these requirements of intelligence, loyalty, devotion to the task, are met in the personnel of Swift & Company. Yet the profit is only a fraction of a cent per pound, with costs at minimum.

How can the workings of this delicate human mechanism be improved upon?

Do you believe that Government direction would add to our efficiency or improve the service rendered the producer and consumer?

Let us send you a Swift "Dollar". It will interest you. Address Swift & Company, Union Stock Yards, Chicago, Ill.

Governor Warns Against Carelessness In Forests

Mindful of the annual menace of uncontrollable fires in the Oregon forests Governor Olcott has issued the following proclamation to supplement the regulations of the forestry department:

"With the state of Oregon confronted by a condition which threatens destruction of forests, grass and grain fields because of lack of rain, I feel justified in ordering all state fire wardensto exercise the greatest caution in issuing permits to burn.

"I further proclaim that no camp fires shall be started in or near forest or brush covered lands within twenty (20) feet of any standing or down trees, brush piles, or other litter that may cause the spread of fire, and under no condition is a fire to be built until the ground is cleared to mineral soil for a distance of six (6) feet in every direction and no such fire shall be left unattended until it has been completely extinguished with water.

"Inasmuch as the forests are one of the state's chief material resources I strongly urge every person going into the woods during the current dry season to refrain from smoking, as any fire allowed to get beyond control is not only extremely dangerous to all classes of property but necessitates the use of labor and supplies that are essential in other lines of endeavor."

Wick Bros. Headquarters In Portland Well Planned

The plans and specifications now being drawn by F. A. Legg, architect, for Wick Bros. for their Portland building in Portland show that the former Salem firm will have things most convenient. The entrance lobby leads to the business office. Three of the Wick brothers will have private offices. Those of Chas. Wick and George Wick open into the general lobby, while that of A. J. Vick connects with the business office.

The special parts man also has a private room which opens into the general stock room by door and has communication with the business office only by window. The Purdies will be carried in stock on the main floor in the

319th Engineers, Mostly California Boys, Slated To Return Within Month

Washington, July 24.—Senator Phelan, California, today received a cablegram from General Pershing informing him that the 319th engineers, composed largely of California troops, is scheduled for return to the United States about August 15.

San Francisco, July 24.—The 319th engineers was part of the Eighth division and was organized and trained at Camp Fremont. The regiment went to France early in September, a month before the main body of the Eighth division left for overseas—to be turned back from transports.

The 319th has been doing construction work at Pons, Brest and other French points used by American troops, converting several of these from mudholes into sanitary villages.

Lame Shoulder This ailment is usually caused by rheumatism of the muscles. All that is needed is absolute rest and a few applications of Chamberlain's Liniment. Try it.

President Knew Of Taft's Letters Before Published

Washington, July 24.—President Wilson knew of William Howard Taft's letters to senators and to Will H. Hays chairman of the republican national committee, a week ago, it was said at the white house today.

Further than this, no comment was forthcoming on the publication of the letters which, in some quarters, are regarded as a possible basis for compromise on the peace treaty and covenant.

President Wilson scheduled no appointments with republican senators today. It was said he wished to rest, because of his recent illness.

Admiral Grayson, the president's physician, said the president is well, but is guarding against over exertion.

OLCOTT VIEWS EXTRA SESSION PLAN COLDLY

Will Call Meeting To Ratify Suffrage Amendment If Necessary.

A delegation of Portland ladies, representing the national woman's party, called upon Governor Olcott this morning with regard to the proposal to call a special session of the legislature for the purpose of ratifying the national constitution amendment providing for woman's suffrage. In the party were Miss Marie Ernst, Miss Vivian Pierce, Mrs. L. W. Therkelson, Mrs. N. J. Hawkins, Emma Wall and Ada Wallace Urah.

In the course of a prolonged conference the ladies presented the situation and urged the importance of the action on the part of Oregon. With regard to the conference the governor this afternoon made the following statement:

"In event the situation throughout the nation becomes such that the ratification of the amendment is dependent upon the action of the Oregon legislature, I will give careful and serious consideration to the convening of a special session. Or, if a majority of the members of both houses voluntarily request this office to call a special session, I will do so. In either case, however, I wish it distinctly understood that the session will be called contingent only upon the agreement that the members will bear their own expenses, and to forego the payment of their per diem on the part of the state. Should such a session be called, I would expect the members to merely pass upon the subject matter before them, and no attempt should be made to exercise their function in passage of general legislation. The act of the legislature in this ratification would be supreme, the executive offices have neither power to approve or to veto a resolution of ratification."

CITY NEWS.

The big race meet at the fair grounds Saturday afternoon promise the best racing program the famous track has seen for a long time. Four races, two each of trotting and pacing, are on the program, and the starters will be among the best horses that are in training for the state fair. The starter will be A. H. Lea, judges, Governor Olcott, T. L. Davidson, Geo. Swisher, Louis Lachmund and J. W. Jones; clerk, Murray Wade. Aviation stunts will also enliven the afternoon's entertainment.

S. A. Hughes, representative from Marion county, has received a telegram from the state fish warden, B. A. Clayton, stating that a carload of rainbow trout will arrive here from the hatchery on July 31. These small fish will be planted in Silver and Butte creeks; an item of news that will be especially gratifying to Marion county fishermen.

United Artisans attention. Meetings will be held only on first Thursdays in July, Aug. and Sept.

Don't forget the races at the fair grounds Saturday and the union picnic in evening, all union members bring well filled baskets.

Mr. and Mrs. T. J. McCurdy arrived in the city recently from San Jose, Texas for an extended visit with their daughters Mrs. R. C. Baker and Mrs. W. T. Foster. They may decide to make Salem their home.

Lieutenant Cook made several flights this morning with the airplane brought here by Lieutenant Browne, but which is now owned by P. E. Fullerton, R. O. Snelling and Lyle McCroskey. After testing out the plane since it has been strengthened, the aviator found everything in first class condition. Several flights were made later and now every thing is again in readiness for commercial flying in Salem and vicinity.

Dr. Carl Gregg Doney announced today that for the coming school year at Willamette university the music building will be used as a girls dormitory. The science hall, which was last year equipped for soldiers will be used for the music department of the university.

Ratification Of Treaty By British Is Completed

London, July 24.—The house of lords today approved the German peace treaty.

Frank"; "Melodies from 'Marta'; "Aldo Overture"; "Northern Lights"; "Weidt March"; "Yankee Robinson"; "Hoffer"; "Star Spangled Banner"; O. A. Steinhilber, director.

POLICE FEAR LOST MAN DROWNED SELF

J. N. McPherson, Missing, Declares Intent To End Life In Note.

Fears were entertained today for the life of J. N. McPherson, who has recently been working for Mr. Fuller, living north of the city. It is thought that in a fit of anger, he may have drowned himself.

It seems that a few days ago he had a dispute with Mr. Fuller about some farm work. Later he came to town and secured a room at a rooming house on North Commercial street. Then he wrote the following letter and mailed it to Mr. Fuller:

"When the sun goes to sleep tonight McPherson goes to his long rest in the clear cold water of the river. You will not get this until I am no more. The rocks and hills bring a message to my soul."

Fearing that the man might have committed suicide, Mr. Fuller called at the police station this morning, showing the letter. When McPherson's room was searched this morning at the rooming house, some of his old clothing was found and there was no evidence to show that he had been in the room at all last evening.

When last seen McPherson was dressed in a blue serge suit with soft hat of dark color. He is six feet tall and weighs about 190 pounds and is clean shaven. He has relatives living at Howell, Michigan.

The police have been keeping watch along the river and have notified parties north to keep a close look out. As the man has disappeared, it is not known whether in his anger he is attempting to harm the Fuller family or whether he really had suicidal intent.

Court House Notes

Emma Murphy Brown has brought suit against Leonard Smith and a dozen others to quiet title to lot 3 block 12 of the original city of Salem and lots 17, 18, 19, and 21 in block 6 of Burlington add to the city.
