## HAIR OFTEN RUINED BY CARELESS WASHING

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is Multisified coconut oil shampoo (which is pure and greaseless), and is better than anything else you can use.

One or two teaspoonsful will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get Multisified coconut oil shampoo at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

## STRIKE KILLED

New Ulm, Minn., July 24.—There were no five day strike in Minnesota beginning Labor Day, as a protest against the imprisonment of Tom Mooney, San Francisco labor leader, radicals lost their resolution in the federation of labor convention last night by an overwhelming majority.

Arrival here today of W. D. Mason, president of the street car men's union, was expected to bring to a head the threatened strike of 15,000 motormen, conductors and track men, which, if called, will practically paralyze the city's transportation, tying up both the surface lines and the elevated roads.

At the meeting today, to be attended by union officials, traction company heads and members of the state utilities commission, it was believed that unless a settlement was reached or hope of one appeared, the men would be ordered out tomorrow. They have already voted overwhelmingly to strike.
