Needs for right of way to the Portland Southern Railway company have been filed with the county recorder's office. This is the railroad that is supposed in time to run south from Mt. Angel through Stayton and then continue south and east across the mountains to Bend. Right of way deeds have been filed by the railroad where lands have been decided by E. and E. M. Doerfler, P. and P. Welter, M. Gries, J. Schulte, R. and R. Weber, G. B. and D. McElhenny, J. and A. Fox, E. P. and M. Schott, N. and E. Sussaner, A. and B. Reaf, J. J. and S. Blum and C. P. Darat.

A meeting of those who employ considerable labor and also of those who are employed, is announced for Friday evening at the Commercial club, to be held under the auspices of the Commercial club. The meeting will be held for the purpose of considering voluntary mediation in labor troubles. Every effort is being made to bring together the employer and the employee.

It is well known that northern and northeastern Montana has suffered from a drought the past three years and that many farmers this year will not harvest enough grain to pay for seed. A letter was received this morning at the Commercial club from a

woman living near Malta, Montana, stating that she hoped to come to the Willamette valley to live but that she had to rent at first as she could not dispose of her 329 acres of land nor the horses and farming machinery.

Here is another suggestion coming from police headquarters due to the fact that things are happening and one really did happen last evening, and if parents are to do the right thing, they must cooperate with the police. The suggestion this time is that when a boy or girl is missing from home, the best thing to do is to at once notify police headquarters. Yesterday a girl of about 14 years was missing from one home and a boy of about the same age from another. They had both been missing about 24 hours before the police was notified. In one case the father was too busy to look after his child and in the other the mother didn't know what to do. The two children were found and brought to the police station shortly after the police had been notified and both locked up in the city jail last night.

Housekeepers who have read dispatches from Washington, D. C., where it was announced that the government would sell its surplus supplies of groceries at retail will have to wait a little while longer. August Huckerstein, postmaster, said that no order of the government had been received here. The dispatch from Washington, D. C., gave the information that the government would reduce the high cost of living by selling its surplus supplies of groceries at a reduced price, plus postage and money order charge and that all mail carriers would be furnished information regarding same.

Automobilists who are riding just for good roads, would do well to keep away from Eola. The road in this section is now being torn up by the Geary-Huber construction company. It is this company that has the contract for paving from the bridge just across the river, towards Dallas through the Eola section.

The "deadman" at the gravel pit

near Independence gave way yesterday and as a result, the main mast that carries the bucket was broken and gave way. Now the work of paving in the Independence section will be delayed until the "deadman" is properly placed and another main mast is secured and put in position. This will delay work of paving now being done at Independence by Erickson & Jones and also paving work of the Warren construction company between Monmouth and Independence.

"Wolffoot," the airplane of the Salem Aero company, made the voyage yesterday to Eugene with Pilot Elmer Cook and Fred E. Mangis as passenger, in about 65 minutes. The distance is estimated at about 80 miles. The plane left the ground at Olcott field at 1:45 yesterday afternoon and a wire filed at Eugene at 2:50 o'clock said the plane was hovering over that city. Mr. Mangis said the air was very fine at an altitude of about 2000 feet over a few miles beyond Curvallis. Then there to cross currents between the mountains, it was pretty bumpy for about 10 or 15 miles, and then smooth all the way to Eugene.

Judge Daniel Webster, department commander of the G. A. R. of Oregon, says the national encampment will be held this year during the first week of September at Columbus, Ohio. As state commander, the judge will attend the encampment. J. H. Watson will go as representative. Others who will attend include Gordon Stols and E. E. Dennison.

Members of the National Editorial association will pay Salem a visit on the evening of Sunday, August 10. While no definite arrangements have as yet been made, plans are under way by which the editors from everywhere will be shown about the city and state institutions. They will arrive on an special train from Portland at 6 o'clock in the evening. It is planned to take them all to the state house grounds where luncheon will be served, after which they will be shown about. Salem products only will be handed out to the editors and also Marion county fruit, especially peaches. Arrangements are being made under the auspices of the Commercial club.

Adjutant General Staffin, Major Hall and Lieutenant Colonel Washburn left for FortWay today attending a meeting of the general staff.

Two bicycle "bugs"—the Goehner brothers, Gus and William, arrived in the city recently in course of a wheel tour of the coast country. They have been addicted to long range bicycle work for years, having traveled something like 40,000 miles over the eastern part of the country, carrying their camp outfit with them. During the past year they covered about 1400 miles through the coast region, and at the present time they are looking for a place to locate in Oregon, which has impressed them more favorably than any other section. In the course of their travels they occasionally amuse themselves and the public with violin recitals, cartoons work and impersonations. Through the invitation of the Elks lodge they have arranged to stop over in Salem and will appear at the Oregon theater in team work Friday and Saturday nights.

STATE HOUSE

The annual report of receipts and expenditures of the corporation department has just been issued by Commissioner Schullerman, showing that the total receipts of the department for the year ending June 30th amounted to \$222,176.81, a gain of \$24,667.34 over the record of the previous year. The operating expenses of the department for the year amounted to \$16,014.85, which is slightly less than for the previous year.

Governor Olcott has recently received word from the two Lane county senators, Walter B. Jones and John B. Bell, that they would endorse a special session of the legislature for the purpose of ratifying the woman suffrage amendment.

Superintendent C. W. Courtney, in charge of the state lime plant at Gold Hill which has been operated largely by prison labor, makes the statement that unless the farmers of the state furnish a larger market for the product the plant will be closed down permanently. In order to warrant its operation there should be a production of from 40 to 50 tons a day, but so far orders have been too small to keep it going continuously. It is now shut down temporarily, with orders for 400 tons of lime to be delivered in September. When the state took over the enterprise it was represented that a large percentage of Western Oregon lands were in need of lime and that an immense tonnage would be taken from the Gold Hill plant.

Planes For Forest Duty Leave Tacoma For Salem

Replying to the governor's telegram of inquiry into the patrol airplanes requested for the Oregon forest service, Col. H. H. Arnold of Mather flying field wired late yesterday afternoon assuring him that two planes would be sent to Salem for this work.

This morning the governor received a wire from Major General Johnston at Camp Lewis stating that two planes had been ordered south from there, and this was followed by a message from Lieut. E. C. Kiel, stating that he would leave with the planes from Tacoma at 10 o'clock, expecting to arrive in Salem about three o'clock this afternoon. No details were given in either of the messages, but it is assumed that at least one of the machines will be established in this city and will work out from here in fire patrol.

While State Forester Elliott has no intention as to plans, he states that it would be logical that one plane be placed in Salem and one at Roseburg. The two could thus cover in the ordinary radius of flight the principal timber areas of Oregon.

The Joy of Living

To enjoy life we must have good health. No one can reasonably hope to get much real pleasure out of life when his bowels are clogged a good share of the time and the poisons that should be expelled are absorbed into the system, producing headache and indigestion. A few doses of Chamberlain's Tablets will move the bowels, strengthen the digestion and give you a chance to realize the real joy of living. Try it.
