While the various government codes

vars to bring down high prices have been brought to a focus by demands of the railroad men, the president has had wholesale complaints from other sources. Both the president and Hines have shown they consider the railroad and cost of living problem as one question.

DEMAND THAT PACKERS OPEN FOODSTUFF RESERVES MADE

Washington, Aug. 2.—Demands that the packers immediately release millions of pounds of foodstuffs to bring down the high cost of living were made today by the National Consumers League through Miss Jesse K. Haver, legislative agent.

These stock have been officially declared the largest in years.

The Farmers' National Council, representing 750,000 farmers, through its director, George P. Hampton, declared that the Kenyon bill to regulate the packers should be passed immediately.

"The packers claim they did a patriotic service in supplying the government with meat during the war," said Miss Haver. "But if they wish to show true patriotism they will turn loose huge stores of meat they are holding."

"Control of the meat packing industry," said Hampton, "through the Kenyon bill, with such modifications as may be found necessary at the hearings, is a very important measure for the reduction of the high cost of living. It will help the consumers as well as the producers."

The farmers, he declared, would save from \$80,000,000 to \$100,000,000 a year alone through adoption of the bill.

That the packers are responsible for the high price of shoes was expressed by Representative Igoe, Missouri, today in asking the rules committee to order immediate consideration of his resolution to have the federal trade commission investigate the price of footwear.

"The price of hides has increased all the way from 75 to 125 per cent from April to July of this year while the price the stock raiser is receiving for his cattle has slight decreased," Igoe said. "The big packers have control of nearly all the raw hides and it certainly looks like some one is reaping large profits."

Igoe submitted a statement from the National Boot and Shoe Manufacturing association, which predicted higher prices next spring and no relief until late in 1920.

"As a result of the prosperous condition of the country and the export demands, shoes in the spring must bring higher prices," the statement said.

GERVAIS NEWS

Mr. and Mrs. C. E. Briggs are building a neat looking bungalow on their farm near town to replace the one burned down a short time ago. William Newsham is doing the carpentering.

Mrs. S. A. Peterson, sister of Mrs. John Grassman, was operated upon at the Willamette Sanatorium in Salem Wednesday morning by Dr. H. O. Hickman. She is reported as doing nicely.

Thomas Harrison, who continues in poor health was taken to Portland a few days ago for an X-ray examination, which may result in an operation. He and his wife returned home Thursday, but he is still feeling poorly.

The evergreen blackberries that grow wild in great abundance, are beginning to ripen and it will take many pickers to harvest the crop. They will bring a big price and pickers will make good wages.

Prof. Floyd T. Webb, who had been employed as principal of our public school, has asked for a release from the contract on account of having a better paying position; it was granted, but will inconvenience the school board to quite an extent.

Loganberry picking in the S. H. Brown yard will last about another week. Pickers are getting a little shy as usual on the wind up, but Mr. Brown will harvest an extra large crop this year. He will begin picking his crop of evergreens as soon as the logans are finished.—Gervais Star.
