

SEARCH FOR PLANTER OF BOMB CONTINUES

Three Separate Lines Of Investigation Now Being Traced Out.

Los Angeles, Cal., Aug. 5.—(United Press.)—Two men suspected of having had close connection with the bomb explosion which nearly cost the life of Attorney Oscar W. Lawler and his wife, are fleeing toward the Mexican border, closely pursued by four deputy sheriffs, it was announced today by Sheriff John C. Cline.

Investigators this morning found the two men, who had been under surveillance since they reported Los Angeles a week ago left here in an automobile last night.

They were traced to Riverside, where they passed through, riding at high speed toward Imperial valley, Maxwell, Lower California, is believed to be their destination.

"Keep going until you get them," was the instruction Cline gave the deputies. The order is significant in view of the fact that extradition treaties with Mexico are said to be considered by the Mexican government as not now in effect.

Federal authorities, headed by United States Attorney Robert O. Hanna and Special Agent C. L. Keep of the department of justice started to check up on every radical known to be in this vicinity. They also went through the records to obtain a list of all criminals convicted while Lawler was federal attorney here and announced they will determine the whereabouts of each man.

Police centered their efforts on the theory that the party responsible was interested in a comparatively recent civil suit fought with great bitterness and in which Lawler was an attorney. They predict arrests may be made today.

At the hospital today, reports were that both Lawler and his wife are resting as comfortable as could be expected.

Physicians said Lawler is showing wonderful courage which, they declare, is a great factor in his favor.

McArthur Keeps Eye Upon Chamberlain's Senate Job

Portland, Or., Aug. 5.—The Journal's Washington correspondent reports that Congressman C. N. McArthur has practically decided to announce himself as a candidate for the republican nomination for United States senator to succeed Senator Chamberlain.

GENIUS RESTRAINED

Sacramento, Cal., Aug. 5.—Prisoners in the county jail displayed rare genius today. With a tube fifteen feet long, made of spirally rolled sheets of newspaper, they were conducting gas from a jet in the corridor to one of the cells.

There they had a perforated tobacco can doing yeoman service as a gas range and were cooking dinner when a deputy sheriff happened by and commanded the outfit.

Portland To Buy Three Cars Of Surplus Foods

Portland, Ore., Aug. 5.—The city commissioners decided today to buy two carloads of bacon and a carload of canned tomatoes from the surplus army stock at San Francisco.

The bacon and tomatoes, which are expected to arrive here within four days will be sold at cost in an effort to reduce the cost of living for Portland consumers.

A local store has offered to retail the food without expense to the city, even donating the wrapping paper.

The council instructed one of the commissioners to visit army camps on the Pacific coast and secure additional food in carload lots.

The V. B. Dennis Construction company of McMinnville and C. W. Cook of Sheridan were awarded the contract for paving Sheridan streets at approximately \$2 per yard.

14-YEAR-OLD BOY HELD FOR MURDER OF BANDON GIRL KILLED LAST WEEK

Gogville, Ore., Aug. 5.—Harold Howell, a 14-year-old boy was bound over to the grand jury late yesterday on a charge of murdering Miss Lillian Deahold, 16.

Carroll Warren, 19, who was taken into custody at the same time young Howell was arrested, was released upon the recommendation of District Attorney Hall.

Samuel Whetstone, gunsmith testified at Howell's preliminary hearing that, in his opinion, the bullet which killed the Deahold girl was fired by a Stevens rifle which was found in the possession of Howell when arrested.

JOHNSON FINANCIALLY TIED WITH CLEVELAND BALL CLUB IS CHARGE

New York, Aug. 5.—Charges that he is financially interested in the ownership of the Cleveland club in the league of which he is president, confronted Ben Johnson, head of the American league today. The accusation was made by Lieutenant Colonel T. L. Houston, half owner of the New York Yankees, who have started a fight against Johnson, follow up his action in suspending Piteber (Carl Mays).

In addition the New York club's attorneys declared they would today seek an injunction to prevent Johnson from interfering further in affairs between Mays and the Yankees. If they are successful they plan to start the star hurler today against the St. Louis Browns.

Johnson has called off the meeting of the club owners set for today. The club owners were to pass final judgment in the Mays controversy.

If Johnson can be held to hold an interest in the Cleveland club it may be necessary for him to resign. The public, it is believed, will not permit him to remain as head of the league.

GOVERNOR TO WELCOME VISITING EDITORS TO SALEM SUNDAY NIGHT

Governor Olcott will deliver the address of welcome to the National Editorial association, which will spend three hours in Salem Sunday evening.

According to present arrangements, the editors numbering about 350 will arrive in Salem at 6:30 o'clock and will be met at the depot by citizens with autos.

They will be first taken to Wilson Park and served with a luncheon of entirely Salem products and Salem grown fruits. Following the luncheon they will be driven about the city and shown some of the fine country surrounding the city.

Governor and Mrs. Olcott have arranged to accompany the editors on their trip to Crater Lake.

From the Commercial club a car has been made for autos for use about two hours Sunday evening. Those who are willing to aid in entertaining the visitors are asked to notify the Commercial club.

Following this the president went in conference with Julius H. Barnes, wheat director, with whom he was to discuss possibility of bringing down wheat prices.

"We presented to the president a memorandum in which we stated what the government is doing and what it proposes to do under existing laws," said Palmer.

"We made suggestions regarding additions to laws to cope with the situation. The new laws recommended are designed to have an immediate effect as possible."

Palmer said the Lever act and other food laws are the statutes under which agents of the department of justice are acting. He said its penal section provides ample authority for the department of justice to act against profiteers and hoarders.

"We are investigating to the limit of our powers and hope to teach a salutary lesson," said Palmer.

Three women did all shocking of 83 acres of oats and 20 acres of wheat, beside handling the hay crop and a dairy business on a farm near Sheridan. They could not get help.

That good old standby rice, is now taking its stand among the articles of food which were once almost luxuries. It wasn't so many years ago that rice retailed at about three or four cents a pound. It is different now as grocers have received quotations for December delivery ranging the Japanese style of rice at 13 1/2 cents a pound wholesale. This is just about the present retail price. Soap also continues to advance in price.

Mrs. G. N. Thompson, living about four miles north of the city just across the road from the home of Spunk or Seymour Jones, brought suit in the court of Justice Glenn E. Urub against the Silverton stages for damages to her auto sustained about four or five weeks ago. She alleged that at Market and Capital street the Silverton stage ran into her car doing considerable damage. Justice Urub has taken the matter under advisement pending the submitting of briefs by attorneys for both sides. It seems that in attempting to dodge one car the driver of the Silverton stage ran into Mrs. Thompson's car.

Cards have been received announcing the birth of a son to Dr. and Mrs. H. M. Slater at Troom. Mrs. Slater was Miss Margarette Moss, formerly secretary of the water board in the state engineer's office, and Dr. Slater has been connected with the base hospital at Camp Lewis, and is a son of Judge W. T. Slater of Portland, formerly of Salem. The child's name is Woodson Taylor Slater.

Senator Alex LaFollett says he is shipping the largest crop of peaches he has ever grown, about 20,000 boxes. Today he has ten pickers busy in his

OREGON GETS PLANES FOR FOREST PATROLS

Portland, Or., Aug. 5.—The first state road bonds out of the \$10,000,000 authorization of the last legislative session were sold today by the state highway commission. An installment of \$1,000,000 was sold for \$991,500, a discount of \$8,500 to a syndicate composed of Carstang and Earle of Seattle; W. R. Cozins, Bankers Trust company of New York and the Northern Trust company of Chicago.

The bonds bear 4 1/2 per cent interest. Eight bids were submitted. The second highest was that of the Union Trust company of Spokane, \$998,500. Bids were submitted on 40.8 miles of hard surface pavement, 26 miles of grading and macadamizing, 43.2 miles of grading, 30 miles of macadamizing and 10 bridges. The bids are being tabulated today, and the awards will not be made until tomorrow afternoon, in all probability.

The largest paving project for which bids were called, is for 14.8 miles between Astoria and Seaside, which is to receive federal aid under the post road act. Clatsop county will also cooperate. With the exception of a 10 mile stretch between Deer Island and Seaside, in Columbia county, this section is the last one on the Columbia highway between Hood River and the sea to be put under contract for hard surface.

Another important project on which bids were received today is the 11.5 mile road between Athens and Milton, in Umatilla county. When this is completed there will be a continuous paved highway from Pendleton to the Washington state line, on the road to Walla Walla. Other projects on which bids were received today follow:

Eight miles between Corvallis and Monroe, in Benton county.

Four and two tent miles between Salem and Brooks, Marion county.

Two miles between The Dalles and Dufur, Wasco county.

The largest grading contract to be let is in Deschutes county, between Bend and the Jefferson county line, 23.9 miles. The county will cooperate to the extent of \$50,000.

Mr. and Mrs. J. D. Hartwell of this city and N. Kenyon of Eugene, made up an automobile party starting out this afternoon for an outing trip to Newport and vicinity. They have fitted up a 1920 pond Overland truck with bed and all necessary camp equipment, including supplies of gasoline and oil. They will travel leisurely, camping by the way, and on reaching the seashore will make up their own hotel and lunch counter, with no tips for waiters.

The Jones Brothers, vinegar plant at Yaluma will use 12,000 tons of coal this season, planning to make 1,800,000 gallons of their product.

Ruth Law failed to break the American altitude record when her gasoline supply became dangerously low at the 28,000-foot level.

Four army airplanes from Ellington Field Texas leave late today to continue their cross country flight throughout the west and middle west. They will fly to Denver via Reno, Salt Lake and Grand Junction Colo.; thence to Pueblo, Colorado Springs, Greeley, Colo.; Cheyenne, Lincoln Omaha and Kansas City.

From Kansas City the four planes will tour the Dakotas, Montana, Washington and Oregon returning to San Francisco for the start of the trans continental dash to New York.

Six Machines To Be Sent To Salem Within Coming Two Days, Is Advice.

At two o'clock this afternoon the expected wire was received from Major Clegg, of Mather flying field, by State Forester Elliott, stating that in response to the representations made to the aviation authorities they would dispatch a major with a squadron of six planelets Salem within the next two days. This gratifying news seems to make certain the permanent establishment of the Oregon fire patrol, with Salem as the pivotal point in the service.

This afternoon Mr. Elliott and one of the state wardens will leave with the two planes for Eugene and Roseburg to make an air survey of Douglas county and investigate the flying field at Roseburg.

The forestry office now has a complete, though tentative map of the four patrol districts covering western Oregon. The northern district extends from Salem north to the vicinity of Tillamook county and east to the vicinity of Bull Run in Clackamas. The second extends from Salem to Eugene, west nearly to the western line of Benton and east to a line from Moham to Foster. The third covers the territory between Eugene and Roseburg, west to Scottsburg and east to Oak Ridge. The fourth extends from Roseburg to Medford, taking in Grants Pass, west to the west border of Douglas and east to Bold Mountain in Jackson county.

As blocked out there is approximately 200 miles in each of the circuits to be covered in a day's leisurely flying.

Five People Injured When Electric Trains Collide

Sausalito, Cal., Aug. 5.—Five persons were seriously injured and a score were bruised and shaken up when the Northwestern Pacific's San Rafael train crashed into the rear of that railroad's Manor train in the local yards early today. Both trains were crowded with early morning commuters, banded with early morning commuters, banded with early morning commuters, banded with early morning commuters.

Two of the five seriously injured may be fatally hurt. The five were rushed to the railroad hospital here.

Runing into an open switch, the incoming San Rafael train went on the track on which the Manor train was standing while its passengers were leaving. The mistake was discovered too late and the crash followed.

The injury list would undoubtedly have been higher but for the fact that most of the commuters had alighted from the Manor train. Both trains were electrically operated. Several cars were damaged in the crash.

Part Of Trans-Continental Air Fleet To Visit Oregon

San Francisco, Aug. 5.—Four army airplanes from Ellington Field Texas leave late today to continue their cross country flight throughout the west and middle west. They will fly to Denver via Reno, Salt Lake and Grand Junction Colo.; thence to Pueblo, Colorado Springs, Greeley, Colo.; Cheyenne, Lincoln Omaha and Kansas City.

From Kansas City the four planes will tour the Dakotas, Montana, Washington and Oregon returning to San Francisco for the start of the trans continental dash to New York.

CITY NEWS

A gentleman who advertised a cow for sale in the "New Today" columns of the Capital Journal yesterday, telephoned this afternoon peremptory orders to stop the ad. It seems that he sold the cow advertised and another one last evening and was being worried to distraction by many other persons who also wanted to buy cows.

That good old standby rice, is now taking its stand among the articles of food which were once almost luxuries. It wasn't so many years ago that rice retailed at about three or four cents a pound. It is different now as grocers have received quotations for December delivery ranging the Japanese style of rice at 13 1/2 cents a pound wholesale. This is just about the present retail price.
