

For Our Roads

We need a tire that's sure—one that holds the car on the road with a firm, persistent grip.

That's the 'Nobby.'

Notice how those big, husky nobs zig-zag so as to hold firmly against skid or side slip.

They do it too!

And beneath them is a casing that is literally packed with the endurance and strength that mean long wear.

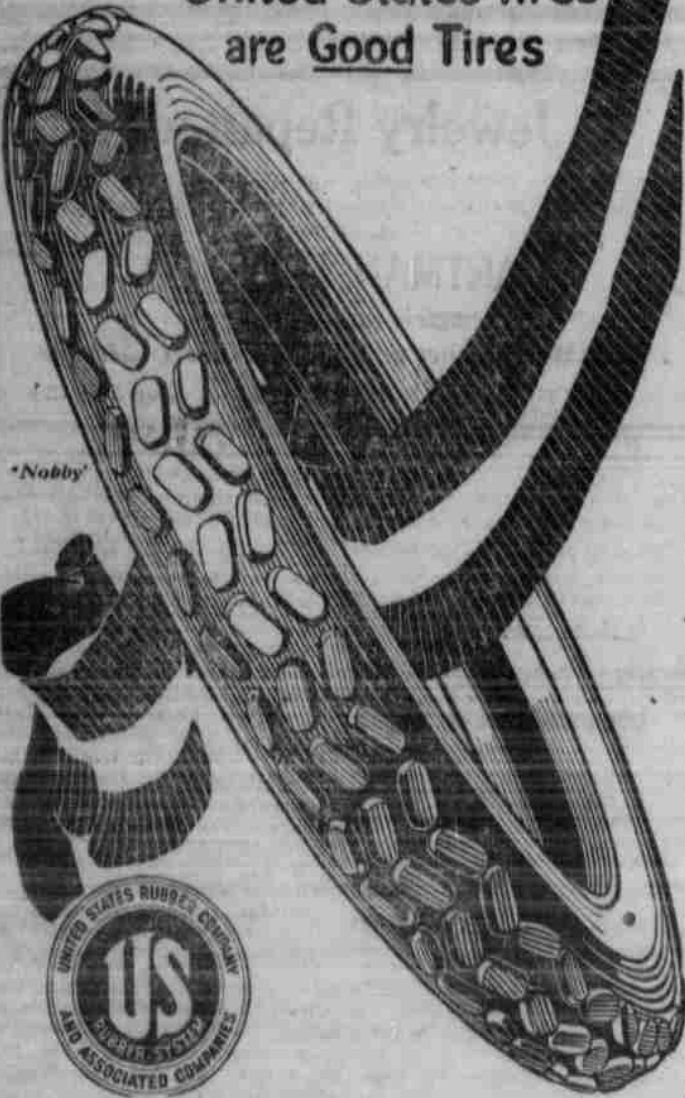

You'll find the 'Nobby' not only in a class apart as an apti-skid,

—but also in low mileage cost.

You needn't hesitate about buying any of the five different United States Tires. They're all good.

We have exactly the ones you need for your car.

United States Tires are Good Tires

We know United States Tires are GOOD Tires—THAT'S WHY WE SELL THEM.

FURTHER CUTS MADE IN ARMY FOOD PRICE

Reductions Forced By Dealers Who Attempt To Meet Selling Figures.

Washington, Aug. 13.—Reduced prices on thirteen of the food products on sale by the army were announced today by the war department.

Reductions were caused by retailers who tried to meet the army prices. Further reductions will be made if food prices again decrease. New quotations are basic prices for the products specified.

To these prices must be added cost of transportation, either by rail to cities or by parcel post to consumers.

The reductions are:

- Canned beef, six pound cans, from \$1.92 to \$1.75.
- Roast beef, six pound cans, from \$2.10 to \$1.90.
- Baked beans, number one cans from five cents to four cents.
- Baked beans, number two cans, from eight cents to six cents.

Baked beans, number 5 cans, from 11 cents to nine cents.

Stringless beans number 10 cans, from 12 cents to 10 cents.

Sweet corn number 2 cans, from 10 cents to nine cents.

Tomatoes number 2 cans, from 11 cents to eight cents.

Tomatoes number 3 1/2 cans, from 11 cents to nine cents.

Tomatoes number 3 cans, 12 cents to 11 cents.

Tomatoes number 10 cans, from 37 cents to 33 cents.

Bacon from 25 to 23 cents a pound.

Sugar cured hams from 31 cents to 29 cents.

Pickles have been added to the commodities listed at 23 cents a gallon or \$4 a keg of 16 gallons.

Secretary Baker, it was stated today, thoroughly approved the policy of revising war department quotations from time to time to keep the prices below those charged by retailers.

So cities will not lose by sending in orders prior to a reduction, the director of sales announced that prices charged by municipalities and postmasters will be those ruling at the time of shipment.

Radical Change In Policy Toward Mexican Outrages Made By State Department

Washington, Aug. 14.—Terror of a "radical change in policy with regard to Mexico" was made in presentations to the Carranza government following the murder of Peter Catron, an American, on July 7, the state department announced today.

The note to the Carranza government was sent by George T. Sumner, chief of affairs of the American embassy at Mexico City.

It warned of the change in the policy should the "lives of American citizens continue to remain unsafe and these murders continue by reason of the unwillingness or inability of the Mexican government to afford adequate protection."

The note read:

"With reference to the embassy's note dated July 16, relative to the murder of Peter Catron near Yaltes, San Luis Potosi, on or about July 7 last, I have the honor to inform you that I am now under telegraph instructions from my government to urge upon the Mexican government the captured and punishment of those responsible for this murder and the adoption of adequate measures to prevent a recurrence of the murder of American citizens."

"I am also instructed to state that should the lives of American citizens continue to remain unsafe and these murders continue by reason of the unwillingness or inability of the Mexican government to afford adequate protection, my government may be forced to adopt a radical change in its policy with regard to Mexico."

The note was sent July 22.

The state department in publishing the note with a reply from the Mexican government, explained its action was taken "in view of the long series of murders and outrages of American citizens in Mexico, culminating in the murder of Peter Catron in San Luis Potosi last month and the perpetration of other acts in disregard of American lives and property."

The Mexican reply dated July 28, was signed by Salvador Diego Fernandez. This note said that the Mexican government is doing its best to protect Americans and other foreigners.

Many foreigners, it was said "through ignorance, the lack of prudence, or rash eagerness for profit ventured to remain or to travel in dangerous regions, thereby incurring the risk of becoming the victims of offenses and even trusting to escape offenses because of their being foreigners."

The note charged that pay masters of petroleum companies in the Tampico region have refused offers of escort on the ground that the escorts attract rebels, or the escorts members do not behave properly.

"These are unfounded assertions," the note charged. "Moreover, the relation which has existed between those some petroleum companies and the rebels is notorious, it being also suspected that there have been cases in which the paymasters were in accord with the supposed assailants."

In conclusion the note states that the Mexican government desires to give every sort of guarantee of safety.

"In view of these facts," it was said, "the menace embraced in your note has surprised the Mexican government, all the more so since it seems strange that it should be exacted that even in depopulated regions human life should be protected in a more perfect manner than in the most populous cities of the most cultured countries where bloody crimes often occur without the respective governments thereby becoming the object of severe observations."

LEWIS TO GIVE WHOLE TIME TO NEW DUTIES

Secretary Of Growers Association Resigns From College Faculty.

C. L. Lewis, who has for the past 14 years been associated with the Oregon Agricultural college as chief of division of horticulture, has resigned his position with the college and is devoting all his time to the field work of the Oregon growers Co-operative association.

In severing his connection with the college, Mr. Lewis took into consideration the fact that he could do greater work for the fruit growers of Oregon and especially the Willamette valley, by taking over the field work of the association, than by continuing with the college.

On account of the active farm work now going on, Mr. Lewis says that during the past two weeks not many meetings have been held to interest fruit growers in the association. However, at a meeting held last evening at Dallas, every apple grower present signed with the association and it is estimated that this season from 10 to 15 carloads of apples from the vicinity of Dallas will be handled by the association.

Growers of apples at McMinnville, Sheridan and Corvallis have signed up with the association and it is now estimated, Mr. Lewis said, that from 200 to 300 carloads of apples will be handled this fall by the association in conjunction with the Willamette Valley Fruit Exchange.

It is also estimated by Mr. Lewis that in another year from 60 to 70 per cent of the apples grown between Portland and Roseburg will be handled through the association, with headquarters at Salem.

It is also estimated that within two years fully 1000 cars of apples will be handled through the community houses of the association.

A fruit growers service has been established, one of the first in this part of the northwest. Mr. Fish, who will have his main office in Salem, will devote all his time to traveling among the growers and giving general advice, besides assisting in material ways. He will have charge of general inspection and standardization.

Standardization is one of the main points in fruit growing that will be considered by the association. It is well known, Mr. Lewis says, that standardization brings right prices, and the system that has been so successful at Yakima and Wenatchee, will be established in this district.

DEATH OF DAVID M. GRAHAM JR.

The David M. Grahams had the misfortune to lose their infant son, David M. Graham Jr., who was born prematurely on August 6. The child died on Sunday night, August 10. Interment will be made at Salem today in the Graham family plot in I. O. O. F. cemetery. Mr. Graham will convey the body to the capital city this morning, going via the Oregon Electric. Mrs. G. A. Burden will accompany Mr. Graham on his errand.—Eugene Register.

STEAMERS COLLIDE

New York, Aug. 14.—Following a collision with the Norwegian steamer John Blumer early today, the United States shipping board steamer Point Judith was proceeding on her way uninjured, according to wireless messages to the naval communication department here. The Blumer proceeded to this port.

WILL COMMAND OREGON

Los Angeles, Cal., Aug. 14.—Announcement has been made here that Captain Ivan C. Wettingill, commander of the cruiser Montana, will assume command of the battleship Oregon when President Wilson reviews the fleet at San Francisco. Wettingill is now taking the Montana to Bremerton navy yard, where he will transfer to the Oregon.

ROUND COAST LEAGUE BABES

Yesterday's winners: Vernon, Oakland San Francisco, Los Angeles.

Home Runs: Mossel, Vernon; Killifer, Los Angeles.

Wheeler Tjell allowed the Swashes only two hits and the Tigers hit hard and often, taking the game, 7 to 0.

Louie Guisto was the only bright spot in the Oaks' five one win over the Beavers. His single started the Oakland victory and his two sensational catches kept the Portlanders beaten.

Bill Rodgers blames the Sox's defeat of the Yippers to the fact that he was out of the game three innings, trying to collect \$1500 from the Swashes for the "shoot" in the game.

European Workers Declare U.S. Labor Too Conservative

Paris, Aug. 14.—American labor is too conservative, in the view of European workers.

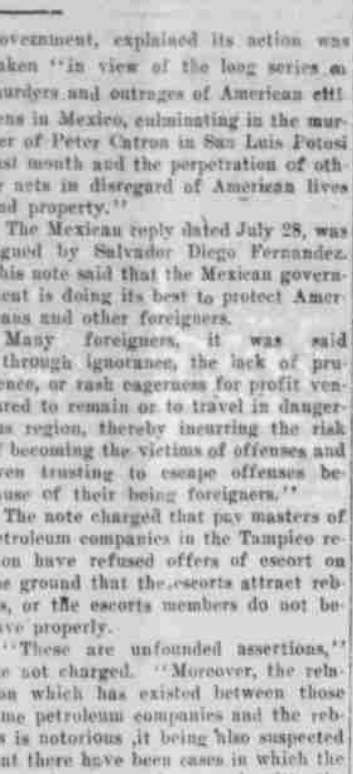

Speaking of Samuel Gompers, president of the American Federation of Labor, Jean Longuet, French deputy and Paris European labor leader, said today:

"Gompers is too conservative. We are unable to reach common ground for action. I find him entirely out of sympathy with our cause."

The wide gulf separating the ideas, aims, plans and methods of American and European labor, so clearly emphasized at the recent international conference in Amsterdam has been even more clearly demonstrated since Gompers came to Paris. He and the French laborites cannot attain a common viewpoint.

Gompers was here conferring with members of the American peace commission as well as the French laborites.
