### SUBSTITUTE FOR BITRO-PHOSPHATE LEADS TO ARREST

Pharmacist Sought to Make Fortune By Trading Upon Reputation of Well Known Tonic, Strength, Tissue and Blood Builder—Imitation Did Not Contain Strength Giving Properties of Genuine Product.

Phoenix, Ariz.—The arrest of a pharmacist of this city revealed a gigantic plot to violate the state and federal statutes by selling a cheap, inferior substance represented to be genuine bitro-phosphate.

The authorities found thousands of counterfeit labels and materials indicating elaborate plans for the nation wide exploitation of the spurious tonic. This case is unique in the criminal records of Arizona and serves as a warning to the public against worthless imitations designed to sell upon the reputation of high grade, efficacious preparations.

For many years Bitro-Phosphate has enjoyed the confidence of its millions of users and the fact that reputable physicians prescribe and recommend it in cases of nervousness, excessive thinness and general weakness makes it the natural target for the unscrupulous substitutor.

Frederick Kelle, M. D., editor of New York "Physicians Who's Who," says Bitro-Phosphate should be prescribed by every physician and used in every instance to increase the strength and enrich the blood of weak, thin, nervous or anemic people.

The genuine bitro-phosphate is sold by all first class druggists under a definite guarantee of satisfaction or money back and cases of attempted substitution or the sale of imitation should be reported to Arrow Chemical Co., sole manufacturers, 31 Union Square, New York City.
