PRESIDENT SAYS

(Continued from page one)

"14—The only agreement between France and Great Britain with regard to African territory of which I am a member of the commission of five to be signed on that continent. The provisional agreement referred to in the preceding paragraph covers all the German overseas possessions in Africa as well as elsewhere.

"15—No mention was made in connection with the settlement of the Saar basin of the service of an American member of the commission of five to be sent up there.

"16—It was deemed wise that the United States should be represented by one member of the commission for settling the new frontier line of Belgium and Germany, because of the universal opinion that America's representative would add to the commission a useful element of entirely disinterested judgment.

"17—The choice of the commission for the Saar basin was left to the council of the league of nations because the Saar basin is for fifteen years to be directly under the care and direction of the league of nations.

"18—Article 83 does in effect provide that five of the members of the commission of seven to fix upon the boundaries between Poland and Czechoslovakia should be nominated by certain countries, because our five principal allied and associated powers and the nomination of five representatives by those powers necessarily means the nomination of one representative by each of those powers.

"19—No such commission (referring to 18) has yet been appointed.

"20—It was deemed wise that the United States should have a representative on the commission set up to exercise authority over the plebiscite of upper Silesia, for the same reason that I have given with regard to the commission for settling the frontier lines of Belgium and Germany."

MEXICO TO ASK

(Continued from page one)

structed to make representations to the American government asking immediate withdrawal of the American cavalrymen and airplanes.

The president did not give any opinion as to how he viewed the case, merely reciting the facts as related in telegrams to him and announcing the request for withdrawal.

HUNT FOR BANDITS WILL BE ABANDONED SOON IS BELIEVED

Washington, Aug. 21.—(United Press)—Belief prevailed among army officers here today that troops of the 8th cavalry will be withdrawn from Mexico within the next few days.

The expedition which was started across the line early Tuesday, it was said today, was sent to follow a "hot trail." If the trail becomes cold—if the bandits manage to disappear in the rough country through which the expedition is moving—it is probable the cavalry will give up the search, it was said.

So far the state department has not received protest against the expedition from the Carranza government.

TWO MEMBERS OF BANDIT GANG REPORTED CAPTURED

San Antonio, Texas, Aug. 21.—Two Mexicans believed to be members of Jesus Rentario's kidnaping gang, have been captured by the American troops south of Candelaria, according to information received here today.

A cavalry sergeant reached Marfa with the simple announcement that the men had been captured. It was not believed Rentario has been captured, as Lieutenant Peterson, one of the kidnaped airmen, described him as a one legged and one armed man.

General Dickman will arrive at Marfa early today, according to information received at his office here.

WITHDRAWAL OF TROOPS IS SUGGESTED BY CONSUL TO AVOID POSSIBLE TROUBLE

El Paso, Texas, Aug. 21.—The withdrawal of American troops from Mexico "to avoid difficulties," was suggested to Colonel George Langhorne at Marfa in a message from Mexican consul Bengoechea at Presidio.

Jewelry Store Robbers Return Stolen Toilet Set To Owners By Mail

A solid silver toilet set valued at \$55, which was stolen from the Hartman jewelry store Wednesday morning, was returned by mail and received today. Judging from the postmark, it is thought that it was mailed from Portland. None of the articles of the set were missing, but the case showed signs of careless handling.

There is still the general impression that the thieves were young men and this belief is supported by the receipt this morning of the silver toilet set, the most valuable article stolen. There is also the belief that the thieves were familiar with the various passage ways that lead from the foot of the rear staircase to the door that first opens into a hallway used as a store room for the silverware and the second door that leads directly into the grinding room of Dr. Burnette, which room adjoins the main room of the jewelry store.

sighted by an American airplane forty miles below the border. The Mexican troops were moving toward the Candelaria district where the Eighth United States cavalrymen are hunting the Mexican band which had held Lieutenants Peterson and Davis for ransom.

The possibility of a clash between the troops is not seriously considered in military circles here today. The American force will be withdrawn when further search for the bandits seems futile. However, the columns under Captain Matlack were still in the saddle, with no sign of abandoning the hunt, at latest indications early today.

With two regiments of cavalry in the neighborhood of Candelaria that outpost is believed amply protected and no uneasiness is reported among border residents there.

Aside from quickened interest in the American troop movements in Mexico no excitement is evidenced in El Paso over the Mexican situation.

Thirty-two whippet tanks are lined up at Fort Bliss, while thousands of troops stationed there are trained to a fineness in preparation for any emergency. General Erwin, post commandant, is expecting further shipments of tanks.

PACKERS DEFENDED

(Continued from page one)

trol, not only of meat, but of cheese, eggs, canned salmon; not only of lard, but of lard substitutes, oleo, etc.

"That is why we need a law to deal especially with the packers. Economically when one product can be substituted for another it is the same product."

"The Kenyon bill is designed to break up monopoly. The reason for imposing the license feature is that there is a monopoly."

Answering statements that if the license feature is applied to one business, it may be applied to all, Dr. Haney said there would be no necessity for extending the license to anything else.

"Licenses are not necessary unless a monopoly is developed," he said.

"This feature sets no precedent except for monopolies."

The petition of the Chattanooga citizens said: "Our former action was taken at the request of the packers, through a misunderstanding of conditions as they exist."

SENATOR FERNALD RISES TO DEFENSE OF BIG PACKERS

Washington, Aug. 21.—Defense of the big packers was made today by senator Fernald, Maine, in a speech on the senate floor. He urged that attempts to regulate big industries of the country be abandoned and iron pay given to individual enterprise.

Fernald, himself a large packer of vegetables, declared the big packers are efficient and economical and decried those who are in a position to be singled out for attack. If they are licensed, all business should be treated similarly, Fernald declared.

In opposing the Kenyon and Kendrick bills to regulate the packing industry, Fernald attacked the federal trade commission.

"The federal trade commission has laid great emphasis on what they call extortionate profits taken by the packers and in my opinion have gone to great lengths to mislead the country," Fernald declared.

He added that the profit on the investment of the five packers was 5.6 percent, according to the food administration report. No business of such size is run on so small a margin, he asserted.

Fernald repeated many charges made by the big packers against the federal trade commission, charging that the hearings were one-sided and that unfair methods were used. He called the Kenyon bill "socialistic and un-American."

"Sometimes I think our whole civilization is in danger," Fernald concluded. "We hear new and strange voices which speak a language foreign to American traditions."

"Business men are among our leading patriots," he added.

STEARNS SURMISED

(Continued from page one)

under the spruce division cost the government \$8,742,100.20. Tell me why your division pieces salvage of railroad equipment at the low figure of \$750,000?"

"We placed it at less than 10 percent so as to be on the safe side," Colonel Stearns replied.

It developed that construction work credited to the Siemens-Carlyle S. Kerbaugh corporation was listed at \$2,295,345.14 while salvage for the same was placed at \$239,000, less than 10 percent of the initial outlay.

Joseph H. Klecker has brought suit for a divorce from Elizabeth Isabella Klecker. In his complaint he alleges they were married in Stayton in 1911, that they have no children and that she deserted him in 1916 and since which time has refused to live with him. He asks for an absolute divorce.

DATE OF NATIONWIDE STRIKE NOT YET SET

Only Conference Agreement By Steel Corporation Can Halt Walk-Out.

Youngstown, Ohio, Aug. 21.—The date for a nation wide strike affecting 250,000 organized iron and steel workers will be announced in ten days, unless the heads of the United States Steel Corporation agree to a conference with union representatives.

This statement was made by union officials today, after a re-cavass of the votes cast by union members on the question of whether they would strike if necessary to back up their demands.

A committee, representing 24 unions, canvassed the votes. This committee was authorized to take the steps necessary to enforce union demands.

It appointed a sub-committee of six last night to confer with officials of the United States Steel Corporation. The sub-committee is composed of Samuel Gompers, John Fitzpatrick, D. J. Davis, E. J. Evans, William Lannon and W. Z. Foster.

Following the committee meeting it was announced by W. Z. Foster, secretary and treasurer, that the recavass shows ninety eight percent of the votes cast are in favor of a strike.

At a meeting in Pittsburgh yesterday the committee adopted resolutions favoring a strike ballot of iron and steel workers and formulated "fundamental" demands for presentation to the steel corporation.

These demands embrace right of collective bargaining; the eight hour day; one day of rest in seven, double rates of pay for all overtime work and for work on Sundays and holidays.

Abolition of company unions and of physical examination of applicants for employment are also demanded.

Union officials said a strike would affect 1,750,000 workers.
