MILITIA PATROLLING STREETS OF HAMMOND

Hammond, Ind., Aug. 21.—(United Press.)—Five companies of state militia patrolled the steel district here today in an effort to prevent renewal of labor rioting by strikers of the Standard Steel Car company. Six other companies were on the way here and were to arrive before noon.

The city was quiet. Police were able to cope with the situation during the night when there were several minor outbreaks in the foreign quarter where most of the steel workers live. Refusal of the workers to return to work or to accept a compromise offered by the company caused city and county officials to

ask for state troops as a precautionary measure.

Governor J. P. Goodrich and Adjutant General Smith ordered eleven companies of the Indiana militia to Hammond upon the receipt of word from Lake County and city officials that the labor situation there was threatening.

Hundreds of foreign born workers in the car plant refused to listen to the dictates of their leaders and were set on strike following rejection of a compromise offered by the company. The telegram sent by Sheriff Barnes and Mayor Brown of Hammond asking for troops said the situation had got beyond their control.

London.—"Would the person in the green Tyrolean hat note that though it may be a custom on his own course to pocket golf balls on the fairway, it is not done elsewhere," reads a Times agony.

Soldier Help Underfed In Spruce Camps

Seattle, Wash., Aug. 22.—Soldier laborers in the spruce production division would not work for the simple reason that they were underfed.

This accusation was leveled at the heads of the spruce division of the army by William J. Chisholm, manager of the Maryland Lumber company, of Deer Creek, who was a witness before the congressional investigating committee this morning.

That the loggers of the northwest were barred from bidding on spruce contracts during the war but were offered sub-contracts by the Siems-Carey-Kerbaugh corporation which they indignantly spurned, was the main feature of the testimony yesterday afternoon of J. E. Frost, president of the Cedar Lake Logging company.

"We felt that the loggers of the northwest were not given an opportunity to bid on spruce contracts," Frost told the committee. "We were animated by patriotism as well as a selfish desire to escape the strain which we felt was bound to come from the waste, inefficiency and incompetency of the Siems-Carey-Kerbaugh and Warren Spruce company outfits.

"Anyway," Frost added, "I did not want to make money had enough to be mixed up with what I thought was a bad outfit."

"No attempt was made to consult loggers who knew the northwest like a book until after the armistice was signed," Frost told the committee.

"There was not a logger in the north-

SUBSTITUTE FOR BITRO-PHOSPHATE LEADS TO ARREST

Pharmacist Sought to Make Fortune By Trading Upon Reputation of Well Known Tonic, Strength, Tissue and Blood Builder—Imitation Did Not Contain Strength Giving Properties of Genuine Product.

Phoenix, Ariz.—The arrest of a pharmacist of this city revealed a gigantic plot to violate the state and federal statutes by selling a cheap, inferior substance represented to be genuine bitro-phosphate.

The authorities found thousands of counterfeit labels and materials indicating elaborate plans for the nation wide exploitation of the spurious tonic. This case is unique in the criminal records of Arizona and serves as a warning to the public against worthless imitations designed to sell upon the reputation of high grade, efficacious preparations.

For many years Bitro-Phosphate has enjoyed the confidence of its millions of users and the fact that reputable physicians prescribe and recommend it in cases of nervousness, excessive thinness and general weakness makes it the natural target for the unscrupulous substitute.

Frederick Kelle, M. D., editor of New York "Physicians Who's Who," says Bitro-Phosphate should be prescribed by every physician and used in every hospital to increase the strength and enrich the blood of weak, thin, nervous or anemic people.

The genuine bitro-phosphate is sold by a first class druggist under a definite guarantee of satisfaction or money back and cases of attempted substitution or the sale of imitation should be reported to Arrow Chemical Co., sole manufacturers, 31 Union Square, New York City.

west who could not have built the Siems-Carey-Kerbaugh railroad at a cost of less than \$30,000 a mile, yet the road as built cost the government from \$100,000 to \$112,000 a mile."

Prior to the appearance of Frost on the witness stand, Representative Clarence Lea of California protested against what he termed browbeating and bullying of witnesses.

"We are going ahead with this investigation and get at the facts regardless of whose head is hit," reported the chairman, J. A. Fear, of Wisconsin. "I, for one, am not here to cover up a single fact. If so, no resignation goes back to congress."

BRUSH COLLEGE

(Capital Journal Special Service) The musical comedy given by Miss Judd, Miss Hodges, Mr. Stover, Mr. Craven and Mr. Macy at Salem, last Tuesday evening was well attended and quite a success. The Brush college folks spent a very enjoyable evening, and appreciated their coming out, and hope they will come back again.

Quite a number of our people are at the coast enjoying their vacations. Among the recent "coasters" are Ed Loare and family, A. R. Etting and family, Clifford and Harvey Smith, Mr. Beckett and family are still there.

Asa Smith has so far recovered from the operation on his knee that he will be able to resume his duties Monday; we are glad he is doing so nicely and think a banquet is due Doctor Fisher for his speedy recovery.

Mrs. Jeanette Connel, children and grand children have returned to their home at Whittier, Cal. They spent a month visiting with relatives and friends. The Connels are quite extensive walnut growers and enjoy a good income and living from their grove. They like Oregon but are loud in their praises for California. Mrs. Connel is Mrs. C. H. Smith's oldest sister and has recently lost her eyesight and of course her visit was not as pleasant as it would have been had her eyesight been good.

Mrs. George Connel is a prominent worker in the Christian church at Whittier. The Connels are pleasant people and we are glad to see them and know them.

Brush college is all swelled up over the Salem airplane pilot, Elmer Cook. Lieutenant Cook was the first young man from Brush college to volunteer for service when the U. S. declared war, we are glad he is back and glad he has the position he has, and we wish him success in his work.

Mr. and Mrs. L. L. Oliver are having their home remodelled into an up to date home; it is very beautiful and may they enjoy it for years to come.

Will Patterson has returned from a trip to Astoria, Seaside, Portland and Columbia highway.

Mrs. C. H. Smith, Mr. and Mrs. C. A. Smith and baby and Clifford Smith spent a few days in Willamina.

Mrs. Harvey Stanton was a dinner guest of Mr. and Mrs. Arnold Smith last week. Mr. and Mrs. G. E. Smith spent Sunday with Mrs. Smith's mother, Mrs. Wilson on the Oak Grove road.

WOOL USED IN JUNE BREARS MONTHLY RECORD FOR 1919

Washington, Aug. 21.—The total amount of wool consumed during June was 35,000,000 pounds, grease equivalent, which exceeds that of any other month this year and is more than twice the amount consumed in February, according to the monthly wool consumption report just issued by the bureau of markets, United States department of agriculture. June consumption represents an increase of 6 per cent over the amount used in May and 22 per cent over the amount used in April. Monthly consumption of wool has increased steadily since February, which is said to indicate continued activity in the textile industry.

Total amount of wool used during June, 1919, by condition, in pounds were: Grease, 40,332,664; scoured, 6,094,243; pulled, 2,432,985.

Simplified Word List For Use In Schools Is Issued. Teaching children in the public schools who have advanced as far as the first reader will now be made easier, by means of the word list recently issued. This word list shows, exactly what new words are inducted into the vocabulary of the young citizen, from page to page. For instance, on page 8 of the new reader, the child is made familiar with the word "twinkling" for the first time. After studying for 44 pages, the word "chicken" is introduced. Having arrived at the 52d page, the youngster becomes acquainted with "Teddy Bear" as it looks in print. The words "grandmother, woodcutters and wolf" are first seen on page 58. The child reads as far as page 75 before it gets its first acquaintance with the word "snoun." "Ginger bread" is found for the first time on page 104 and by the time the 126th page is reached, the young student is introduced to the word "hucous pocus."

London—Gassed at Vimy Ridge in March, 1918, Private A. E. Pentson, completely lost the power of speech. Larking at home with his mother, the latter pinched him, and Pearson yelled "Don't" recovering his speech since "Forget It"—Buy At Home

A Scene from "A House Divided" LOVE, MARRIAGE AND DIVORCE—These are the three subjects taken up by the writer of "A House Divided" photodramatized by Anthony Paul Kelly, author of "Three Passes East," the biggest hit on Broadway, and produced by J. Stuart Blackton. At the Liberty theater starting Sunday. First time in this city.
