Portland, Or., assisted by workers from Dallas. The full Gospel will be preached on justification; sanctification, a second definite work of grace; the Baptism of the Holy Ghost and fire; divine healing; the eternal punishment of the wicked; and other Bible truths. Good music and singing. No collections. 8-25

Salem Cigar Factory is now making "La Corona" and "Little Salem" cigars exactly as they were made before the war. Smoking them reminds you of old times.

The candelabra offering box of St. Joseph's church was broken into last evening at about 8 o'clock and the offerings of the past two or three months carried away, but not far, as the thief upon hearing the burglar alarm, dropped the money and fled. The contents of the box have been stolen once or twice before and in order to guard against theft, a burglar alarm had been attached which was to give the alarm at the home of Father Beck. As no services were being held last evening, he was not at home at 8 o'clock. The

Loganberries having made such a fine record the past two years, are now attracting a number of capitalists, who are investing in suitable land. Louis Lachmann and Wm. S. Walton are reported to have purchased the Charles Winkler farm of 160 acres in South Bottom. It is understood the greater part of the tract will be planted to loganberries. M. L. Jones, the Lake Labiah farmer is reported to be planning to go into loganberry raising to such an extent that in a few years he will be one of the big growers of the valley. L. H. McMahon has transferred his holdings, part known as the Oliver Beers tract to the Hunt Bros. cannery and the tract known as the Hubbard farm to H. S. Gile.

A request of unusual character is held out to Willamette university by an aged rancher of Washington. He holds a divided affection for both Willamette and the College of Puget Sound and has proposed to turn over jointly to the two institutions 3000 acres of grain land in the Horse Heaven region of that state, the property to become immediately available with the proviso that the two schools shall jointly guarantee to him a certain annuity during the remainder of his life. Whether this will prove an asset or a liability to the beneficiaries depends largely upon the climatic conditions in the aforesaid equine paradise, for it is a region where the crops are sometimes abundant and at other times otherwise.

Call Patton Plumbing Co. for your repair work. Phone 1668, 230 N. Com. street. 1f

Artificial teeth, have expert plate man, with over 35 years experience, at my office. Dr. D. X. Beecher, dentist, 302 U. S. Nat. bank bldg. 1f

The mills of the Gods grind slowly and the same may be said of the federal government when it comes to having some work done on government property. About six months ago he postoffice department at Washington approved of the petition of Postmaster Huestein to have a vestibule placed at the south entrance of the post office and to dispose of the two heavy swinging doors at the south entrance. After several months spent in securing drawings and specifications, plans were finally sent here and bids called for. This required half a year. However, bids were submitted Friday as follows: Erickson & Jones \$1085, C. Van Patton \$178, George E. Wright of Chicago \$1900. Instead of the bid being awarded at once to the local bidder, they must be sent to Washington where in the course of time the civil service architects will think it over and eventually there may be a fine vestibule at the south entrance of the post office.

For rent, a nicely furnished room in a modern house, close in, setting room with bed-couch at \$5 per week, or a bedroom for \$ 3per week. Phone 1709.

The old flouring mill elevator on Trade street between Commercial and Front is now on its travels. These travels are extremely slow as the elevator was erected years ago when solid timbers were used, and its method of traveling is on rollers. A. T. Moffitt has the contract for moving the old structure from its present elevation to its new home at the foot of Trade street, where it will be used for the storage of pulp when the new paper mill begins operation next spring. The concrete foundations and pilings for the floor of the building will be 25 feet above low water mark, just level with Front street paving at the foot of Trade.

Attorney, experienced and reliable, familiar with Oregon statutes and procedure, desires association with lawyer or firm with established practice. Would consider proposition of partnership or salary or other practicable proposition. A. E. care Journal. 8-26

Governor Olcott is termed "The Flying Governor" in an article published in the September Sunset magazine written by Milton R. Klepper, president of the Aero club of Oregon. In writing the story of the airplane ride which the governor and Mr. Klepper took together, the writer says that the governor didn't even take a tooth brush along for baggage. He just placed the aviator's hood over his head, stepped in the plane and was on the way. However the ride from Portland to Sacramento had its thrills, even for a governor. Mr. Klepper tells in the story that it was extremely exciting when going over the Siskiyou mountains at an elevation of 8000 feet for the engine to suddenly develop troubles, and it looked as if they would be obliged to make a landing in the forest with no open space in sight. He writes, "after landing at Redding, the pilot congratulated us that we were alive. So we knew for certain we had come through on a narrow squeak."

The peach canning season will open this week and will last about 20 days. Bring your boxes and come to the orchard and get your fruit. Phone 422, Salem, Rt. 8, our orchard is on the river road at end of pavement, north.

If a bank has an account on which there has been no check given nor any deposit made within seven years, a report must be made to the secretary of state every two years. Or in case of a savings account, if no money has been deposited for the account nor any amount withdrawn for 12 years, the bank must report to the state treasurer. According to the July 1 report, here is but little money in dead accounts in Salem. The Capital National bank reported \$271.48 and the Ladd & Bush bank of Silverton reported \$6.32 and the bank at St. Paul, 25 cents. In the Turner State bank there is \$3.12 and in the Security State bank of Woodburn, \$39.52. The Farmers and Mer-

chants bank of Stayton reported \$17. The Dallas National bank reported \$35.63. This money will eventually go into the school fund of the state.

Sunday afternoon and evening the maximum temperature in Salem was 86. For the benefit of those who have any doubts as to whether this part of the Willamette valley is a fine summer resort, the high temperature of Salem might be compared with the following, reported by the weather bureau as the maximum for Sunday: Phoenix 104, Pocatello 100, Salt Lake city 100, Boise 98, Medford 96, Sacramento 96, Walla Walla 96, Baker 94, Yakima 94, Washington, D. C. 94, Spokane 92 while at Sitka, Alaska, Saturday afternoon the maximum was 72.

McMinnville has visions of oil and sudden wealth and has the sand stone rock saturated with oil to prove that underneath somewhere there is oil. J.

T. Moore of McMinnville brought to Salem a sample of the sandstone which has the appearance of having been saturated with oil. He says when first taken from the ground, the oil can be plainly seen. Two miles north of McMinnville on the Yamhill river, oil is seeping out of the bank. Drilling operations are in progress on the farm of J. W. Tilden, just north of McMinnville. Geologists from California and Portland capitalists are keeping a close watch on the progress being made while drilling is going on.

J. B. Hawthorne of R. F. D. 9, wanted to sell his household goods before moving. He put a classified ad in the Capital Journal and the same evening the ad came out he sold \$90 worth of goods. The next day he sold the rest and ordered the ad stopped. That is the way Mr. Hawthorne tells the story of Capital Journal want ad results.
