JONES PROPOSES TO AMEND LEAGUE PACT

Washington Senator Would Force Abolition Of Conscription Entirely.

Washington, Aug. 25.—Withdrawal of the United States from the league nations two years after ratification of the peace treaty, unless all nations abolish conscription within that time, was provided for in a bill introduced today by Senator Jones, Washington, a republican.

The bill directs the secretary of state to give immediate notice to league members of the United States intention to withdraw because two years' notice is required by the league covenant. The bill also calls for election of American representative to the council and assembly directly by all the people of the United States and provides that three members of the assembly, elected for four years, must be native born Americans and at least 35 years old.

Their election is provided at the same time and through the same electoral system as governs the election of the president and vice-president.

Under the bill the first election would be in November, 1920, and those elected would begin serving on March 4, 1921.

Temporary representatives to serve until the elected ones takes their seats are to be appointed by the president, under the bill, but must be confirmed by the senate.

All questions of policy upon which American members of the council or assembly are required to vote must first be submitted to congress for its advice, the bill provides.

SCORES SYSTEM OF REFRIGERATOR CARS

Trade Commission Report Says Private Owners Abusing Uses.

Washington, Aug. 26.—Recommendations that private ownership of refrigerator and livestock cars be prohibited were made in a report by the federal trade commission today.

The commission declared that all such cars should either be acquired and operated as a government monopoly or owned by the railroads and operated under government license and regulation.

The commission says that the big packer and livestock cars are enabled to gain an advantage over smaller independent concerns.

Cars of the "big five" packers are granted "expedited service," the commission charges.

"The cars of small independent packers are misused and diverted," it says, "frequently being out of service for extended periods, in several instances for as long as six months."

The commission cites traffic figures showing how this "expedited service" works out to enable the "big five" to deliver their products in quicker time than their competitors. Cars of the "big five" in 1917 averaging 30.8 miles travel per car, the report says, while those

TEN SEATTLE FOOD DEALERS ARRESTED

Wholesalers Charged With Hoarding 283,900 Pounds Of 1918 Potatoes.

Seattle, Wash., Aug. 25.—Charged with illegal hoarding of 283,900 pounds of potatoes of the 1918 crop in the Spokane Street warehouse ten Seattle wholesale produce dealers were arrested today on complaints filed by Associate United States Attorney Conway. They were released on \$500 bail each.

Those arrested and held for violation of the Lever food control law are: A. U. Herret, 1113 Western avenue, charged with hoarding 30,800 pounds of potatoes since May 26 1919.

C. H. Hohag, W. H. Hohag, and J. T. Rice, 1015 Western avenue charged with hoarding 114,100 pounds since May 13, 1919.

John Doe Nomi, Richard Doe Nomi, Thomas Styles Nomi and Edward Gody Nomi, owners of the Western Produce company, at 514 Sixth avenue south, charged with hoarding 6000 pounds of potatoes since May 24 1919.

C. W. Chamberlain, 1101 Western avenue, accused of hoarding 40,000

pounds of potatoes since April 21 1919. Henry J. Mignery, 1202 Western avenue charged with hoarding 32,500 pounds of potatoes since May 21, 1919.

Search For Lost Airmen Is Resumed This Morning

San Diego, Cal., Aug. 25.—(United Press)—After another 48 hours of fruitless search for Lieutenants Frederick Waterhouse and Cecil H. Connolly, army flyers missing since last Wednesday, the hunt was renewed today with a detachment of troops from Fort Rosecrans aiding the airplanes which have been scouring the country to the east of here.

The only authentic trace of the two young officers, who left Yuma for the return to Rockwell Field, is the report by O. J. Adams, a mining engineer, that he has seen an airplane pass his mine 40 miles south of Campo, Cal., on Wednesday. Campo is a mountain town on the Mexican border. The search today centered in Lower California, where Governor Cantu is offering every assistance to the American searching parties.

Two squadrons of planes were in the air yesterday, one flying from North Island and the other from the border patrol base at Yuma.

Trinidad, Lower California, has been selected as the base from which the flyers will pursue their hunt today.

If Adams' report is true it means that the missing young men are far into Mexican territory. The mine where Adams is employed is 40 miles below the line and in especially rugged country.

rock, seventy feet below street level. Architecturally, the new office will harmonize with the Sub-Treasury building, which it will adjoin on Wall street, and with the banking institution opposite, making a very handsome trio of buildings for this section of the city.

The new building will face the edifice which houses the firm of J. P. Morgan & Co., at the corner of Broad and Wall streets.

STATE HOUSE NEWS

Five new automobile and garage firms were among the list of new incorporations filing articles at the state house during the past week. These were the Monarch Motor Co., Portland, capitalized at \$25,000; Heaniman Motor Co., Portland, \$10,000; Auto Sales Co., Portland, \$10,000; Brown Motor Co., Medford, \$10,000; Auto Sales Co., Portland, \$25,000. Other important corporations filing were Carpenter Investment Co., Portland, \$50,000; State Grange Cooperative Exchange, Albany, \$50,000; Endicott Paper Co., Portland, \$75,000; Mortgage Guarantees Co., Portland; Springfield Mill & Grain Co., Eugene, \$30,000; Pacific Coast Supply Co., Portland, \$50,000; Mutual Investment Co., Portland, \$50,000; Summer Loan & Development Co., Marshfield, \$10,000; Coast Securities Corporation, Portland, \$10,000; Astoria News company, Astoria, \$75,000; Eagle Flour Mills, Portland, \$100,000; Transatlantic Estates & Credit Co., Portland, \$25,000; Sunset Farms Co., Tillamook, \$5,000.

The public service commission held a hearing yesterday at Hood River regarding freight rates over the Oregon-Washington railway lines. Tomorrow there is an important hearing in Portland with regard to the so called Burlington schedule of rates on the lines of the Pacific Telephone & Telegraph company. Both the fairness and the validity of the schedule has been challenged, and a thorough investigation will be made. As the rates affect a large number of communities it is expected that delegations of interested citizens will be present. Possibly the investigation will occupy several days.

In behalf of the eastern Oregon shippers, who have long felt the handicap of discriminatory rates under the present schedule, H. Corey of the public service commission, has addressed letters to members of the committee charged with drafting legislation regulating railroad operations under peace conditions, urging favorable provisions of this territory.

John A. Perry of Bend has been awarded the contract by State Engineer Cupper for the drilling of a number of test holes into the bedrock at the Benham Falls reservoir site, to determine whether it will retain water. Several holes will be drilled to a depth of from 200 to 300 feet, and a larger number of lesser depth in order to demonstrate whether the formation is erupted or stratified in such a manner as to allow water to drain away under great pressure. The investigations at the site are in charge of Prof. W. O. Crosby of the U. S. reclamation service.

2,000 Dallas People Mob Army Foodstuffs Store

Dallas, Texas, Aug. 26.—(United Press)—A crowd of 2000 persons, including hundreds of women, today rushed the city's first store sale of army food stuffs and carried away considerable quantities of food without paying for it.

Police squads were unable to handle the throng.

Dozens of persons, including women, were injured by police clubs. The store was finally closed.

NO TRACE OF AIRMEN

San Diego, Cal., Aug. 26.—Another night and day of searching has failed to locate any trace of Lieutenants Waterhouse and Connolly, army flyers missing since last Wednesday. Mexican troops detailed by Governor Cantu are searching the Gulf of California straits.

VICTIMS RESCUED

Kidney, liver, bladder and uric acid troubles are most dangerous because of their insidious attacks. Heed the first warning they give that they need attention by taking:

New Vaults Big Enough To Store All Of World's Gold

New York, Aug. 25.—Huge vaults, made of stone, marble, steel and concrete, with ample capacity for holding the gold supply of the world, were under construction today for the new assay office in Wall street, which will be completed next March.

The new building will be a potential storeroom for billions of dollars in bullion. Not only will the building hold much of the gold and silver depot of the United States but a vast amount of the bullion collected from foreign lands.

"We shall have room in our vaults to hold all the available gold on earth," said Verne M. Bowie, superintendent of the local assay office. "All the vaults will be under ground. There will be five stores of them, running down to bed-

CALIFORNIA FIRES PUT UNDER CONTROL

San Francisco, Aug. 26.—Four forest fires raging in national forests in California have with two exceptions been brought under control this week, according to the United States forest service. The cost of fighting these to date has been \$13,500 and close to 1000 men have been employed.

One of the fires yet to be brought under control was a bad timber and brush fire in the Pine Mountains, reported from Santa Barbara today. Driven by a heavy wind, the fire has swept over 2000 acres and is 12 miles from Nordhoff, scene of a disastrous fire two years ago.

Work of combatting a fire in the Klamath forest, near Korks-of-Salmon, Siskiyou county, is hampered by the isolated location and difficulty in scouring men. After sweeping 5000 acres, the fire is only partly surrounded today and with a 20-mile wind is particularly bad on the north end.

Another Siskiyou county fire, near Sisson in the Shasta forest, is reported under control today, after destruction of the Nev Spring health resort. In the face of the fire, the patients had to be removed to Dunsmuir by auto. More than 200 men, including rangers sent from all forests in the state, battled the fire which has swept 8000 acres.

Three fire were reported in the Eldorado national forest, near Caldor, southeast of Placerville. This is confined to outcoter land of the California Door company, an Oakland concern.

THOUSAND MEN EMPLOYED IN FIGHTING FOREST BLAZES KEEP BURNS CHECKED.

Washington, Aug. 26.—The Fifth and Fiftieth infantry regiments will be moved into Silesia.

Washington, Aug. 26.—The Fifth and Fiftieth infantry regiments will be moved into Silesia, according to war department officials, who told unofficially confirmed dispatches that action would be taken.

President Wilson, it was said, has approved the plan.

Should conditions change so that American troops would not be needed, the two regiments would be held at Colonez where they are to be equipped before crossing Germany into Silesia.

The Fifth infantry is at Camp Taylor, Kentucky, and the Fiftieth at Camp Dix, N. J.
