Umpqua. The party will be joined later by Judge Bingham and O. B. Gingrich. The results of this trip will be watched with interest for the question is at issue as to whether the pondosity of the professionals, the oratory of Winslow, the grand opera of Gingrich or the salesmanship of Vick will avail anything in luring cutthroats or holding the attention of buck deer. While the other members of the party expect to return in a few weeks, Dr. Findley will be out of town until after the first of October, as he expects to take another trip later with his family.

In appears that while a conference of governor was held and such an agreement made, Mr. Olcott was not present at the meeting and knew nothing of the matter until he saw a report of it in the Salt Lake papers. He hastens to make public a statement expressing his regret that such a report got into print, and reiterating his determination to adhere to the policy of calling a special session only on the conditions which he has laid down in the past.

STATE HOUSE NEWS

The latest in the series of changes in and about the state house occurred yesterday when State Printer A. W. Lawrence, who has supervised the public printing since 1915, presented his resignation to the board yesterday afternoon, to become effective within two weeks. No reason is assigned for the action other than the statement that he contemplates going into the printing business on his own account, having purchased a plant at Corvallis. The resignation was accepted and the vacancy promptly filled by the appointment of H. S. Bosshard, who has stood second to Mr. Lawrence in the state printing office during his administration of the office and is therefore thoroughly competent to take up the work. The position carries a salary of \$2400.

Governor Olcott pulled something like a blush of embarrassment yesterday when he found himself in receipt of a
