### BODY OF MAN MURDERED SIX MONTHS UNEARTHED CLOSE TO JACKSONVILLE

Medford, Or., Aug. 30.—The body of a man, probably murdered six months ago, which was found by wood cutters, buried on a lonely mountain top near Jacksonville Thursday night, has been identified as that of A. F. Raymond of Seattle.

Two cards bearing that name and address were found in his pockets.

The gruesome find was made by the woodcutters when they saw two feet protruding from the earth. The skeleton was exhumed by county officials, who went to the scene yesterday.

The entire front of the skull had been crushed in, evidently by the murderer, who carefully buried the body and placed stones around the grave.

The victim may have been a prospector. A card found on the body bore the name of Mrs. M. Grace Brunsau.

#### HUBBARD SCHOOLS

Monday morning, September 1, school will open in Hubbard for the 1919-20 term. Many inquiries have been made the past ten days regarding this important event and not until Monday of this week was it possible to make a positive statement regarding the date. There was no assurance that the new books would arrive and not until the middle of the week were all the teachers secured for the term. But now that these matters have been settled the faculty is making every effort to be ready for Monday morning next, for enrollment and registration. As far as possible a full registration is desired at the beginning of the term. New emphasis has been put upon the work of the public schools by State Superintendent J. A. Churchill, and high schools as well because of the low standard discovered to exist when the men were called into service. This condition was not found to exist generally, but to a degree that meant no good to the people generally. —Hubbard Enterprise.

#### REAL ESTATE DEALS

The O. K. Yoder property on north Third street was this week purchased by Henry Hatcher, possession to be given soon.

The Herman Roedel place north of Hubbard on the highway was recently purchased by Mr. Becker who has taken possession and is making some improvements. —Hubbard Enterprise.

#### BARN AND CROP LOST

Fire, probably originating from a live coal dropped from the thrasher engine as it was being moved upon the place Sunday afternoon, destroyed the large barn and grain crop belonging to O. A. Krusheke near the Rocky Four Corners. Threshing at the Krusheke farm had been in progress but a short time when the fire was discovered in the straw stack back of the separator. The machine was removed and loss was prevented, but the grain and barn could not be saved, although a great effort was made on the part of the thrashing crew and neighbors. Several went out to the scene of conflagration when word reached here by phone that help was required.

Mr. Krusheke carried about \$200 insurance on the barn, but the grain is said to have been a total loss. —Silverton Tribune.

#### NEWLYWEDS SURRENDER INTO HANDS OF FRIENDS

A pleasant entertainment was given at the home of Mr. and Mrs. Webb Haskins who were married Sunday, August 17, in Salem with Miss Marie Osborn and Claude Rowland in attendance. Mrs. Haskins was formerly Miss Pansy Browning and was an employee of the Southern Pacific Railway company, having been with the local station during the past year. Mr. Haskins has been a fireman on the Great Northern railway for the past seven or eight years in the east and came here last spring with his father purchasing a stock farm between Silverton and Salem where Mr. and Mrs. Haskins may later reside.

Sunday evening friends of the young couple called at a late hour and demanded the surrender of the newlyweds. After their appearance in the living room of their home and showers of rice they were again set free but upon retiring found that during the stay friends and burglars had stolen all of their bed clothes. After much difficulty with the lights being out off, it is said Webb was seen dragging comforters and blankets up the street and later both were engaged in untying the knots in the blankets which were numerous.

## "A Fair Proposition but Nothing Doing"

Under the above heading the Santa Ana. Cal Register thus tells of an experience of another publication in its section of the state. The facts furnish their own commentary:

The wind bloweth where it listeth:

And no answer cometh:

Neither cometh the wood or the corn or the taters or the eggs or the bacon:

Some days ago, a good, liberal, loyal, generous, broad-minded citizen of one of the "cow counties" wrote the local weekly paper that he wanted to subscribe for it during 1919 and get the county news, and would send in his subscription if the paper would be sent him at the OLD PRICE (the price had of necessity been advanced from \$1.00 a year to \$1.50).

"We immediately wrote him," says the editor, "we would accept his proposition—provided he

would bring us a cord of wood, a barrel of corn, bushel of sweet potatoes, a basket of eggs, or a side of bacon at the price he got for these commodities five or six years ago, when there was some profit in publishing a newspaper at \$1.00 a year.

"Seven long days have passed—and no wood, no corn, no taters, no eggs, no bacon:

"He couldn't afford to do it. Yet, he was generous enough to ask us to send him the paper for \$1.00 and make him a present of 50 cents: Of all the 33,285 people in the county this kindly disposed individual is the only one with gall enough to ask us to send the paper at the old price—and we do not believe there is another in the whole county."

Every user of a telephone who stops to think knows that he would be paying an inadequate rate now if he was not paying substantially more than he was before the war.

## THE PACIFIC TELEPHONE & TELEGRAPH COMPANY

Monday night Mr. and Mrs. Harkin opened their home to friends and a very enjoyable evening was spent. The rooms were beautifully decorated with sweet peas and ferns and the dining room table was an object of much attraction adorned as it was with cupids, red hearts and white bells. —Silverton Appeal.

#### WOODBURN SCHOOLS

Woodburn public schools will open for work on Monday, September 15. All the departments of the schools have been strengthened as much as possible and are ready to begin the year's work on the opening day. A strong corps of teachers has been selected, with special reference to the preparation for their particular grade or department of work. The 7th and 8th grades and a part of the 6th grade will be departmentalized, this insuring better and more efficient work in those grades and by this method also a congestion in intermediate grades can be relieved. A course in agriculture has been added to the course of study for the high school. The commercial department has been enlarged by the addition of a course in commercial Spanish. While sorry to lose Messrs. Johnson and Shorey from the business ranks, we glad to welcome such a live druggist as Mr. Steelhammer and his affable assistant, Mr. Carson. Mr. Johnson will assist for awhile in the store and Mr. Shorey will take to the open air. Mr. Steelhammer has been in the drug business in Silverton since 1910 and has made an enviable record there as a business man and citizen. Mr. Carson, who has a pleasing personality, is part owner in the store. He will be joined by his wife as soon as a suitable house can be obtained. —Woodburn Independent.

## Service First Advice Second Sales Third

There's our policy in a nutshell.

First—When the customer comes in, find out what HE wants. Give him satisfaction at the lowest charge consistent with a good, thorough job.

Second—Tell him how to prevent battery trouble. We're not anxious to repair his battery, except to make it last longer.

Third—When he really needs a new battery we want him to buy it from us, naturally, and to buy a Willard with Threaded Rubber Insulation—because that battery will last longer and give him less occasion for expense on repairs than any other battery he can buy.

Come in and find out the wonderful service records of Willard Batteries with Threaded Rubber Insulation.
