JACK PICKFORD IN "BILL APPERSON'S BOY"

MOUNTAIN HONOR CODE IS SAME FOR CENTURY—Interiors of several quaint homes in the Blue Ridge Mountains of Kentucky, which are shown in "Bill Apperson's Boy," the first National feature to be seen at the Liberty theater, starting Sunday, furnish a close study of the lives of the mountaineers who are characters in the picture.

These people, who have lived with little change for the past hundred years, contributed some of the best fighters who went to France under the American banner and have within themselves a code of honor which is one of the strictest in the world.

A Firestone Year

GOOD news travels fast. That's why "the trade" speak of this as a "Firestone Year." The mileage that the Firestone Gray Sidewall has been giving has gotten around. No more shopping around for those who have discovered the real MOST MILES PER DOLLAR answer---

DALLAS MEN BAG DEER
(Capital Journal Special Service.)
Dallas, Or., Sept. 4.—Walter and Jess Berham, Hon. C. L. Hawley and Frank Lynn returned from a two days' hunt in the mountains west of Dallas Tuesday with three deer to their credit. The hunters had good luck from the time they started to hunt until they returned to this city but stated that owing to the dry condition of the timber at this time the deer would get away from them before they got sight of them and in this manner they lost several good shots at the animals.
One deer killed was an unusually large specimen and required the combined efforts of all the hunters to carry it seven miles to their camp.
So far this group of hunters have been the only successful ones of the many parties that left Dallas Saturday and Sunday in quest of game.

BECKETT LOOKING TO SCRAP WITH DEMPSEY

British Champion, However, Insists Upon Meeting Carpenter First.

London, Sept. 4.—Reports that Jack Dempsey had already signed to meet the French champion, George Carpentier, got a rise here today from Promoter Cochrane, who put on the recent Beckett-McGoorty fight.
Cochrane claims he has the French fighter's name to a contract for a battle with Beckett, the British champion, on two months' notice. He also said that Manager Dempsey had posted a thousand pounds forfeit and made himself liable to heavy damages if his French scrapper met Dempsey before Beckett.
A letter from Jack Kearns states he is seriously considering the offer to fight in London, Cochrane said. He quoted Kearns as saying: "I repeat that Dempsey is willing to fight the winner of the Carpenter-Beckett fight."
Beckett, triumphant in the role of challenger for the world's heavyweight championship, talked today of the victory which had gained him that position. But Beckett's enthusiasm over hearing McGoorty was running wild on the beach, he believes he is in line to battle Dempsey.
"Carpenter is next," Beckett said. "I do not think he is as good as McGoorty. I shall dispose of him easily. After that I hope to meet Dempsey. It's too early to discuss my chances of beating Dempsey. But I'll give him my best."
The big Briton said he had no intention of fighting Fred Fulton, as the latter was listed among Dempsey's victims.
"McGoorty is a wonderful fighter," Beckett remarked. "I had no doubt of the result, however, though I thought I would win sooner than I did."
"My victory was due to secret training which developed my foot work and my speed in punching and defense. Bernard Mortimer, my manager, wanted to surprise McGoorty. I think we did, too. McGoorty's punches didn't hurt me. I was surprised that I was able to hit the American so easily. However, I still have room for improvement."
"McGoorty was a hard man to knock out."

Crowds at Newport Beaches Thinning Slowly; September Weather Will Draw Few More

Newport, Or., Sept. 3.—This week has seen the Newport beach season reach its highest mark and the tide of travel is again slowly and steadily ebbing towards the rising sun. Many there are who regret the necessity that compels them to give up the pleasures of the vacation season at the seashore and return to the drudgery of the business grind. The season now nearing its close has, without exception, been the best Newport has yet experienced and the general satisfaction expressed among thousands who have visited this beach augurs well for the future. One sentiment voiced practically unanimously among the visitors and tourists is the hope of better transportation facilities before another season opens. The Southern Pacific company is roundly and soundly condemned by all for its refusal to operate its trains to Newport this season. There has also been considerable complaint regarding an insufficient number of passenger coaches in the trains and numerous instances are mentioned of people being unable to obtain seats and being obliged to occupy the smoker. Of late, however, this has been remedied.
Some further excitement was caused yesterday by E. M. Baker, the proprietor of the Nyebeach Natatorium, getting into an altercation with a jitney driver and pulling his gun on him. The driver sought refuge in a nearby shooting gallery. Some time later Deputy Marshals Brown and Kisor arrested Baker and disarmed him. Marshal Kisor usaid his club to enforce submission.
Deputy Grand Master Johnson, I. O. O. F., of Portland visited the Newport lodge last evening and gave a very interesting address to the lodge and visiting members. Later refreshments were served. This morning he passed down the coast to visit the Waldport lodge.
N. R. Moore, the sedate business manager of the Corvallis Gazette-Times, made his appearance on skates at the rink Monday evening and held the other skaters and audience spell-bound with his hair raising stunts. The manner in which he manipulated the "rollers" or the "rollers" manipulated him was simply marvelous and evoked great applause.
A silver tea was given Wednesday afternoon at the home of Mrs. Ella Hays, on May street, at which the neat sum of \$13 was realized for the benefit of St. Stephen's guild.

State House.
The problem of the disposition of new land bordering upon Malheur lake has been found more complicated than was expected. Considerable time has been spent by Attorney General Brown and associates in investigation of the area and in conference with settlers without reaching any definite decision, and further investigations will be carried on. For some reason still to be determined the water of the lake has been receding during the past year or two, making available from 30,000 to 40,000 acres of land that can be adapted for farm purposes. This condition may or may not be permanent, but it presents a situation without precedent. The surrounding ranchers who have had big additions of land to hold title to the lands, which will be of considerable value. The problem before the investigators is to determine whether the lands are an addition to the public domain.

At the coming meeting of the state highway commission to be held in Portland September 20 another huge block of \$2,000,000 worth of bonds will be offered to the bidders. These will mature in from 5 to 25 years and will bear interest at the rate of four and one half per cent.
The industrial accident commission has been given a token of the I. W. W. spirit in an anonymous communication recently sent in from Portland, in which is given a round of brimstone and blue vitrol because of the provision by which the beneficiaries under the compensation act receive a maximum of 60 per cent of their ordinary wages during the period of total disability following an accident. The writer curses both the commission and the governor and threatens to "get" them in the near future.

Denver Street Railway Men Would Try Out Plumb Plan
Denver, Colo., Sept. 4.—The Plumb plan made its first appearance in municipal ownership when organized labor here announced today that the principle of nationalization of the country's railroads would be attempted as a solution of Denver's street railway problem. Petitions to initiate the Plumb plan in city ownership of Denver's street car lines will be circulated by unions. The street car scheme has already been approved by the city council for submission to popular vote on October 22.
