"You Can Do Better Here For Less"

STATE HOUSE NEWS

motors a plan whereby the district will be required to provide funds to take up the semi-annual payments of interest on the bonds which must be issued by the state as a basis for their guarantee.

The state highway commission has found it necessary to adopt a systematic plan of posting all the main highways of the state where construction is under way. In order to save tourists as much trouble and delay as possible, signs will be put at all points where grading and paving is under way, directing them as to necessary detours. At present there are scores of places where the road is practically impassible for automobiles.

EVERY WOMAN

NEVER EXPECTS TO BE WITHOUT IT

"There's Nothing As Good As Tanlac," Says Portland Man—Gains Twenty-Five Pounds.

"In all my long experience I have never found anything as good as Tanlac when it comes to relieving suffering," said J. A. Neisz, a well known employe of the Pacific Car and Foundry Co., who lives at 14 East 56th St., North Portland, Or., the other day.

"My troubles began about three years ago," continued Mr. Neisz, "and I have been having a tough time of it ever since—that is, until I commenced taking Tanlac. I had rheumatism in my arms and back, and I suffered almost constantly during all that time. Of course there were times when this trouble was worse than at others, but I can truthfully say that there was hardly ever a time when I was not conscious of pain to some extent. My arms were so stiff and sore at times that I couldn't raise my hands to my head. Besides what I spent for treatment and medicine, the time I lost from my work on account of this rheumatism amounted to over four hundred dollars in salary. I couldn't sleep much, and just gradually went down hill until I had lost in weight from one hundred and thirty five to one hundred and ten pounds, and was so weak and run down that I could hardly get about at all.

"A friend of mine who had been suffering from this same kind of trouble, told me that Tanlac was the only thing that had ever done him any good, and advised me to give it a trial. Well to make a long story short, I have just finished my sixth bottle of Tanlac, and I am as free from suffering in every way, and am as well and strong as I ever was in my life. I weigh one hundred and thirty five pounds now, which means that I have gotten back all I lost in weight. I have regained all my strength and can do as much work as I could fifteen years ago. All that soreness and stiffness has gone from my arms and I can raise my hands above my head without the least trouble. Yes, sir, Tanlac has been a godsend to me, and I never lose an opportunity to recommend it to others. I am buying another bottle to take home with me today, for I never expect to be without it."

Tanlac is sold in Salem by Dr. S. C. Stone, in Hubbard by Hubbard Drug Co., in Mt. Angel by Ben Gooch, in Gervais by John Kelly, in Turner by H. P. Cornelius, in Woodburn by Lyman H. Sauer, in Silverton by Geo. Steinhilber, in Gales by Mrs. J. P. McCurdy, in Stayton by C. A. Bouchamp, in Aurora by Aurora Drug Store, in St. Paul by Groceria Stores Co., in Donald by M. W. Johnson, in Jefferson by Foshay & Mason and in Mill City by Marasteria Gro. Co.

University Of Oregon To Hold Fast To Scheduled Date For Stanford Game

Eugene, Or., Sept. 4.—The University of Oregon will be unable to arrange to play Stanford on December 6 as requested by the California institution, according to Graduate Manager Marjorie McClain. A definite faculty ruling against post season conference games makes the plan impossible and the university will have to stick to the contract calling for a game on November 22.

"We would like to be able to accommodate Stanford so that the game with Berkeley and the former institution could be played on the November date but it can't be done so far as we are concerned," states Mr. McClain. "The Oregon prospects are bright this year and we do not care to pass up the Stanford game."

Sir Edward Carson May Talk In U. S. Against Home Rule

Belfast, Sept. 5.—Sir Edward Carson, leader of the Ulster Unionist movement, has been invited to the United States, to talk in opposition to Irish home rule. It was confirmed here today. Carson has not decided whether to accept the invitation.

Lieutenant Hawley Wins Honors As Hero

Washington, Sept. 3.—In the little town of Chaumont, France, Lieutenant Cecil Hawley of Salem, Or., son of Representative and Mrs. Willis C. Hawley, is proclaimed a hero.

But the act of heroism which won the plaudits of the people of Chaumont caused Lieutenant Hawley to be laid up indefinitely in a hospital while recovering from a broken leg, several fractured ribs and six or seven injured fingers. The young officer was riding a bicycle through the streets of the town one day recently when a little child suddenly ran out in front of him. There was a second to think and he quickly turned his wheel toward the side of the street, colliding with an obstruction that threw him to the ground.

He was taken to a French military hospital, where his fractured bones were set, after which he was removed to another hospital at Is-sur-Tille. A second letter from him received by his mother here yesterday said that he is recovering from his injuries as rapidly as can be expected. Upon his recovery he hopes

Activity In Wool Has Slackened Somewhat

Portland, Or., Sept. 4.—With the mid-summer vacation period has come a slackening in activity in wool, due not to any fundamental change in the market situation, but rather to the fact that most of the manufacturers have purchased enough wool so that they can afford a brief respite from buying while the lightweight samples are being shown. Within the past few days, also, the industrial situation has produced some new complications which have given pause to buyers. Nevertheless, there are contract requirements still uncovered which will demand considerable wool, and so the undercurrents of the market are setting strong. Wool textile machinery is eating up wool rapidly, the government figures for June showing the largest monthly consumption this year, estimated at an equivalent of 55,000,000 pounds, grease equivalent, which was 6 per cent more than in May and 23 per cent more than in April. The figures for July undoubtedly will show some further increase. Meantime the manufacturers are advising their customers that the production of lightweight goods will be materially curtailed and that they will be rationed in proportion to previous purchases. The demand for wool still favors the finer grades and the manufacturers felt obliged to ask the government to intercede for them with Great Britain to secure the direct importation of a substantial additional quantity of Australian merinos to be sold at auction here.

The allotment for America in London for the current series were 19,000 hales (about 15 per cent of the total offerings), of which 9000 hales were of the finer grades most in demand. The total American allotment (about 6,000,000 lbs.) is manifestly too small to have any material effect upon this market; hence, it is understood that the applications for the finer wools from this side were five times the quantity allotted.

Continental operators have been operating of late at the River Plate, where between 10 and 15 per cent of the 1918-1919 clip is reported unsold. The im-

Adequate Telephone Rates Must Be Provided

It is obvious to everyone that the operating income of any business most of necessity be sufficient to meet its operating expenses and permit of a reasonable return upon the capital invested.

The telephone business affords no exception to this accepted and well understood fact.

On account of the general high costs prevailing for labor and materials in these unusual times, the people have been willing to accept advances in the cost of almost every necessity.

The Telephone Company has had to meet the same increases in cost of materials and labor the same as all other industries and business and asks its patrons to recognize this fact and accept the increase in telephone rates in the same spirit of fairness and consideration, realizing that only through adequate rates can the telephone company provide adequate service.

THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY
