The blood is the most vital force of life; every organ, nerve, muscle, tissue and sinew of the body is dependent on it for nourishment and strength, and as it circulates through the system,

pure and rich, it furnishes these different members the healthful properties needed to preserve them and enable them to perform their various dutics. So long as the blood remains free from infection we are apt to escape disease, but any impurity, humor or oison acts injuriously on the system and affects the general health.

Postular cruptions, pimples rashes, and the various skin affections, show that the blood is in a feverish condition as a result of some humor, or the Laboratory, Atlanta, Georgia.

### **Choose a Dentist?**

By DR. PARKER Founder and Executive Head of the E. R. Parker System

DENTIST is often selected because he happens to have an office where it is convenient for you to visit him.

Sometimes he is chosen because he belongs to your church, society or lodge.

You do not know how skillful he is-you simply know there is a dentist's sign on his door.

Every dentist using the E. R. Parker System is selected by experienced dentists who are competent to judge skill, and each is chosen for one reason only-ABILITY.

An experienced dentist's judgment of dentists is better than yours, just as your judgment in your own business is better than a dentist's.

Registered dentists using the E. R. Parker System are not merely skilled and experienced, but are trained in all the System's economies, so that fine dental work is done without losing time and with fewer visits by the patient. Time saved is money saved, and the saving is shared with you.

No charge of any nature for examinations, consultation and advice. You are invited to call.
