Many Extra Miles

We can show you—and prove to you—that there is a genuine money saving in the use of United States Tires.

The extra miles they give mean just so many extra dollars counted in real money.

And there are further actual economies in the saving of gas, oil, repairs and depreciation.

The reason of all this is in the tires themselves—their liveliness, ruggedness and sturdiness.

There are five United States Tires—a type for every make of car.

United States Tires are Good Tires

We know United States Tires Are GOOD Tires—THAT'S WHY WE SELL THEM.

PILOT COMMISSIONER REQUESTED TO RESIGN

Refusal To Discharge Alien Slacker Prompts Governor To Take Action.

Aliens who during the struggle for which this nation has just emerged, demonstrated their disloyalty to the country from which they have gained their sustenance, should be deported never to return.

Governor Olcott thus expressed himself with reference to the alien question in this state in a letter to Thomas Nelson, manager of the Union Fishermen's Cooperative Packing company, whose resignation as a member of the state board of pilot commissioners will be requested if charges preferred against him by the Loyal Legion are proved to be true.

The Loyal Legion in a letter received by the governor, last week charged that Nelson had refused to discharge an employe of his company who is "admittedly and openly a disloyal alien." Before taking any definite action in the matter the governor has asked Nelson to submit a statement in his own behalf.

"Of course I have no jurisdiction over the employment of persons by individuals or private corporations," the governor writes. "But it is my official duty and my privilege to determine that state officers so long as they are under the jurisdiction of this office shall tolerate no disloyalty in their employes and shall demand the highest sense of loyalty and patriotism from all whom they may employ. A man who would tolerate disloyalty in his employes in a private capacity I have reason to feel might tolerate such disloyalty in those whom he employed to work for the state.

"If the charges lodged against you are true I feel it incumbent upon me as chief executive of the state of Oregon to request you to submit to this office, at an early date, your resignation as a member of the state board of pilot commissioners for Oregon.

"If you have any statement to make in the way of refutation of these charges I will be pleased to give it careful consideration as I desire to condemn no man until he has been given full opportunity to make his position clear when charges of this character are lodged against him."
