Salem Shriners Make Plans To Entertain Visitors On Way Through to Marshfield

The patrol band and members of Al Kader have already accepted an invitation to stop off an hour in Salem about noon of October 3. COLLEGE GETS \$30,000 ASKED FOR DORMITORY

Emergency Board Authorizes Expenditure From Maintenance Funds.

Meeting at the call of Governor Orcutt to consider the request of the board of regents of Oregon Agricultural College for an emergency appropriation of \$30,000, with which to provide accommodations for the large number of returned soldiers who are expected to register at the college this fall, the emergency board this afternoon authorized the officials of the college to expend the necessary \$30,000 from the maintenance fund created by the last legislature, and pledged itself to reimburse the fund when it became exhausted.

The action of the board makes it possible for the college officials to go ahead with the work of remodeling the old S. A. T. C. barracks at Corvallis to provide the needed living quarters, and also saves the state approximately \$1,800, the interest which would accumulate on the \$30,000 should it be supplied by an emergency appropriation at this time.

Auto Registration Over 79,000 In Oregon To Date

With a total of 1097 automobiles registered with the secretary of state's office since September 1, total licenses now issued in this state have reached 79,310, according to a statement issued today by Sam A. Koser, deputy secretary of state. Nearly all of the registrations so far this month have been for new cars, Mr. Koser states. Motorcycles registered to date total 3496, dealers 557 and chauffeurs 2870. Eleven thousand four hundred automobiles and motorcycles have been transferred during the year according to the same records. Fees collected by the automobile registration department now aggregate \$582,352, or \$120,900 more than was collected from all sources by the department for the entire year 1918. Mr. Koser now estimates that total registrations for this year will reach if not exceed 81,000 which will be 15,000 in excess of the figures for 1918.

Hoxie To Resume Work On Insurance Board, Report

Sergeant Harry Hoxie who has just reached Camp Merritt, N. J., after service with the American army overseas, will be reinstated as cashier in the state insurance department immediately upon his return to civil life, according to A. C. Barber, state insurance commissioner. This is in accordance with a policy of the state administration by which all service men, who prior to their enlistment were in the employ of the state, are assured of reinstatement in their old position upon their return if they care to accept them.

ADVERTORIAL

Catch penny phrases make up the basis of many advertisements, one being that old incorrect statement, "We buy for cash and sell for cash;" "credits stores cannot match our prices."

There was a time when this was partly true, but now it is a truth half told, and a truth half told is not the truth. Nowadays "credits" resolve themselves into "assured facts," as to payments; and in commercial enterprises 10 to 30 days is considered cash.

There is no store of any size or importance that does not have accounts with wholesalers or manufacturers and if those accounts are paid within 30 days the account is considered a cash account.

Therefore "buy for cash" is partly true, but what about "sell for cash," this is another phase we will talk about tomorrow—look for our "Advertorial."

Osborne To Return To Old State Job Upon Discharge

Lieutenant E. B. Osborne will resume his position as a deputy state veterinarian as soon as he receives his discharge from the army, probably September 27, according to an announcement by Dr. W. H. Lytle, state veterinarian. Dr. Lytle, however, who succeeded to the position held by Dr. Osborne when the latter entered army service, will return to his private practice in Portland.

Cottage Grove may become a center for the production of pitch tar and turpentine. It is estimated that there are 30,000,000,000 feet of timber tributary to that city.

The lumber industry of the Coos Bay country is suffering as a result of a car shortage, not more than 50 per cent of the normal requirements being furnished at present.

ATTORNEY'S FEES ARE DENIED BY RULING

Lawyers Restrained From Charging In Actions To Condemn For Roads.

Attorneys' fees cannot be collected in a proceeding brought by the state to condemn land for use as a public highway, according to an opinion handed down by the supreme court today, Justice Harris writing the ruling opinion which is concurred in by Justices Benson, Burnett and Johns. The case was up to the supreme court on an appeal by the state highway commission against a decision by Judge Robert Tucker of Multnomah county circuit court in which Joseph W. Ganong, attorney for the defendants in the condemnation proceedings which involved a right of way for the Pacific highway had been allowed an item of \$300 as attorney's fees, aside from an item of \$750 which the state was to pay for the land involved. The opinion of the supreme court modifies Judge Tucker's opinion by disallowing the claim for attorney's fees.

The right of the city of Portland to enact and enforce an ordinance requiring the inspection of all public places dealing in food stuffs and the licensing of all dealers in food stuffs, is upheld in an opinion handed down by Justice Johns.

Joel D. Mays, appellant, vs. Hovert Mays Estate company, appeal from Lane county. Suit to compel defendant to deed over to the plaintiff an 80 acre tract of land in Lane county. Opinion by Justice Bennett. Judge G. F. Skipworth affirmed.
