

## The Colon Is the Home of Health—Keep It Clean!

FALL HOUSE CLEANING is at hand. It's a hard job, at best. But consider what an impossible task it would be if the house hadn't been getting its regular daily cleaning all these months!

Long before this no one could have lived in it. The accumulated dust and dirt, which is fairly easy to down day by day, would have so clogged the quarters that they would be uninhabitable.

Your Colon is the house where your health lives. It has different "rooms" in which your daily physical welfare "lives". These "rooms" are long and narrow. So they are easily clogged. And when constipation clogs them, your health has to get along the best it can in a home that isn't fit to live in, any more than a house clogged up with dust and dirt is fit for you and your family to live in.

Nujol is the broom that will keep this "home of health" in perfect order all the time.

Nujol is the only helper that will do this without turning things topsy-turvy and upsetting all the "rooms"—just as house-cleaning does.

By daily use of Nujol you can free yourself from all the disease-risk, discomfort and inefficiency that come from a clogged colon.

Nujol is not a medicine. Not the least particle of it is absorbed into the system. It is a clear, tasteless, odorless, absolutely HARMLESS softener and lubricant. A baby can take it with perfect safety. It doesn't upset the stomach or anything else. It simply keeps the home of your health CLEAN and COMFORTABLE.

Get a little of Nujol from your druggist to-day, and send for free booklet—"Thirty Feet of Danger."

### A DISCOVERY THAT BENEFITS MANKIND

Two discoveries have added greatly to human welfare.

In 1835 Newton originated the vacuum process for condensing milk with cane sugar to a semi-liquid form.

In 1883 Horlick at Racine, Wis., discovered how to reduce milk to a dry powder form with extract of malted grains, without cane sugar.

This product HORLICK named **Malted Milk**. (Name since copied by others.) Its nutritive value, digestibility and ease of preparation (by simply stirring in water) and the fact that it keeps in any climate, has proved of much value to mankind as an ideal food-drink from infancy to old age.

Brest is now the official port from which French brides sail for their new homes. The barracks which the Y. W. C. ### Present Fiume Revolt Was Formed In Venice, Rumor

Poor tea costs more per cup than good tea.

That's the money cost. Poor tea has a health cost too—it's full of tannin which is all right for tanning leather, but bad for the stomach and nerves.

Good tea—Schilling Tea—is the tea for enjoyment, health and economy.

There are four flavors of Schilling Tea—Japan, Ceylon, India, Oolong, English Breakfast. All one quality. In parchment-lined moisture-proof packages. At grocers everywhere.

### Plumbing Firms Comply To Law Requiring Licenses

All plumbing firms of the city have now complied with the ordinance providing a license fee for plumbers of \$20 a year. That is, the eight firms have paid to the city treasurer the semi-annual license of \$10 rather than have action taken against them.

The ordinance that provides an annual license fee of \$20, also provides for the appointment of a city plumbing inspector, as a protection to those plumbers who do work that will pass inspection.

As the matter now stands, the plumbers feel they are doing their share and paying, while at the same time they have no protection from inspection. Any kind of plumbing may be done now, as has been the case since a plumbing inspector was dispensed with about four years ago.

The firms that have paid the license fee since ordered by the city council about one month ago, and the dates are as follows: Nelson Bros., Aug. 25; Graber Bros., Aug. 25; Patton Plumbing Co., Aug. 25; Louis Ashman, Aug. 30; T. M. Barr, Sept. 2; J. H. Mueller, Sept. 3; A. L. Fraser, Sept. 16 and Purvine Pump & Implement Co., Sept. 17.

### Proposed General Strike Fizzles; Firemen Stick

Boston, Mass., Sept. 17.—Although voting on the question of a general strike in sympathy with the striking police was continued today, it was believed in many quarters that action of city firemen in refusing to join the movement may cause abandonment of the plan.

only a moment, to glance over the crowd. As he stepped to the sidewalk a naval band played "The Star Spangled Banner." Then he reentered his automobile and rode slowly past a cavalcade escort. There was a long flicker

of light and scores of sabers came to salute. The foot escort was dropped and the run to the hotel was made at a fast clip, mounted police, motorcycle policemen, and automobiles filled with secret service agents jockeying around the president's car. One motorcycle officer fell and an automobile struck his machine but he was not hurt.

Arriving at the hotel, Wilson went to his room to rest preparatory to attending a women's luncheon at the Palace hotel. No speech was scheduled but it was expected the president probably would make one as this was the first opportunity he had had to talk directly to women with regard to the treaty.

ans from whom most of them are descended, they were already planning the rehabilitation of the city.

Aid had begun to pour in from the state. Four relief trains brought additional troops, clothes, tents, food and blankets. The military is preparing to care for the refugees in a systematically operated camp.

United Press reports from throughout the stricken counties, however, indicated

that the dead probably will not total more than 200.

Reports from Duval and Jimm Wells counties which reached here today indicate no lives lost in that section, but three towns damaged, the cotton crop ruined and many buildings wrecked.

Two aviators patrolling the border believed lost in the gale, were reported safe. They landed north of Laredo and proceeded back in their plan to Eagle Pass.

Roy Brown, former mayor of Corpus Christi and chairman of the relief committee, today issued an appeal through the United Press for financial aid.
