When I Lafayette shaved in America

WHEN Lafayette put aside the pomp and ruffles of the French Court, and became a fighter for your liberty and mine, he brought with him his beautifully chased set of razors. As a soldier, he realized the part they would play in keeping him fit. But after he was wounded at Brandywine, the young general found it was not so easy to shave unaided, for in spite of their sweetness of balance and true French temper, his razors lacked the common sense element of safety. In general form, exactly the same as Lafayette's own exquisitely balanced razor, but with these extra advantages: (1) Absolute safety. (2) Longest, strongest, keenest blade on earth. Go to your nearest dealer and lay the long, safe blade of this real razor with the old-time shape and balance against your cheek. You'll see why thousands of shavers are making the Durham-Duplex their razor every month in the year. Seven million have changed already from other razors to this real razor made safe.
