Phillip Ringle, son of Mr. and Mrs. W. P. Ringle, North Salem, returned to his home here Tuesday night after an absence of about two years, during which time he served overseas with Uncle Sam's forces. He fought in the engagements at Soissons, St. Mihiel, and in the Argonne forest; later being transferred with the army of occupation to Coblenz. He probably will resume his studies at the high school, where he left when the war called.

Herbert W. Savage, well known young man of Salem, who enlisted for war service and left this city with Company M, returned Tuesday evening. He was discharged several days ago at Camp Lewis. Savage was transferred to the First division ammunition train in France, and figured in some of the most sanguinary struggles of the war. He probably will resume his profession as civil engineer.

Within a week, the orange season will have closed in the hills back of Scotts Mills, S. H. Van Trump, county fruit inspector, said today. The orchards in the hills and also southwest of Turner had the best crops in the county, due largely to the fact that many of the orchards are young. In all the hill sections he said the crop was from a week to ten days later than other sections.

Veta M. Smallwood has filed a petition for a divorce from Harry E. Smallwood, and alleges as follows: He told her she didn't have a lick of sense. That she was foolish. That she was too sympathetic. That he insisted on having his own way all the time. And then if this last accusation was not sufficient for any woman to get a divorce, she added the fact that he deserted her August 28, 1919. All this happened within one year as they were married October 29, 1918. In addition to all these alleged faults, she asserted that he failed to establish a home and that he moved too often.

Other localities in the U. S. may raise a wall about divorces keeping pace with marriages, but no so in Marion county. The official records of the county clerk of Marion county show that during the month of September there was granted 29 marriage licenses and only six divorce suits filed.

British Agents In Germany Try To "Hog" Trade

Berlin, Oct. 1.—(United Press.)—British agents are obstructing American efforts to establish business in Germany, Congressmen Fred A. Britten of Illinois declared when he arrived here today in a sight-seeing tour with Mrs. Britten and his secretary.

Britten said that British inspectors at the boundary line this side of Cologne had treated him insolently. After he had entered his compartment on the train, he said, they insisted that he must go outside for them to examine his passes.

"American ought to awake to the business situation in Germany," Britten asserted. "The British are allowing their own representatives to enter the country freely, but are carefully obstructing Americans in an effort to obtain all the facts pertaining to their business and other affairs. German-American business relations ought to be resumed quickly."

SALEM WOMAN FIRST PORTLAND FLU CASE

Portland, Or., Oct. 1.—Mrs. S. A. Tooze of Salem was taken ill at the Multnomah hotel Monday with a disease which Dr. P. O. C. Wiley diagnosed as a genuine case of Spanish influenza, the first bona fide report of recurrence of the disease since the epidemic of last winter. City Health Officer George Parrish ordered her quarantined at Good Samaritan hospital, where she was taken before the final diagnosis was made. She has been living at the hotel for a time. Her sons, Walter and Lamar Tooze, live at Dallas. Her third son, Leslie, was killed in France.

Mrs. Tooze's case is mild, Parrish reported. Her temperature reach 103.95 Monday but had dropped to 99 today. "If the 'flu' is going to recur this winter, it will be in much milder form than last," Parrish declared Tuesday morning. "This is the only case that has developed so far and it has the indications of being much less severe than the average last year."

A snow-white deer, a freak of the animal kingdom seldom seen, has been observed by a number of hunters in the Yellowstone Creek mountain region.

The Best Health-Insurance Is a Clean Colon
THERE ARE TWO WAYS of insuring yourself against disease. One is to pay big premiums to an insurance company which will pay you so much a week when you get sick. And if you get sick, most of this money will have to go to the doctor who tries to make you well again.
THE BEST WAY is to keep the disease-resisting forces of the body so well organized and equipped as to guarantee health. Then you can enjoy life right along, and make it pay you premiums instead of paying premiums on a policy.
This can be done only by keeping the colon clean and free from clogging. For the most eminent medical authorities tell us that about 90% of the sickness we have is directly or indirectly due to constipation.
Nujol is the best health insurance "policy" in existence, because it keeps the colon clear and clean without dragging or weakening any of the other organs. It is the only foe of constipation which has no unpleasant or dangerous "come-back".
Nujol is not a drug. Every particle of it that goes into the body comes out of the body. But on its journey it softens any mass that may be impacted in the colon and lubricates the way so as to make it easy for nature to move the obstruction a properly get rid of it.
Nujol never interferes with any or any functions of any organ. It is not absorbed by those little "mouths" in the intestine which suck in nourishment from food passed along by the stomach. Its sole job is to keep things moving in an orderly, comfortable way. And it does this without any children, adults and aged folk.
Try Nujol. Get a bottle from your druggist today.
For valuable health booklet—"Thirty Feet of Danger" free, write Nujol Laboratories, Standard Oil Co. (New Jersey) 50 Broadway, New York.
Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. All drug stores. Do not use Nujol. You may suffer from substitutes.
