

COUNTY PAVING PLANT TO CEASE ROAD WORK SOON

With the coming of unfavorable weather for road work and paving, the Marion county paving plant is about to be closed for the season. For the past few weeks the plant has been working on the Salem-Turner-Stayton road and has completed the paving as far as the Bell place, about three miles from the penitentiary.

After paving all the road bed prepared on this road, other work to be done this fall will be in the way of patching on the Silverton road and also on the road leading to the poor farm. There is a stretch of road near the Bell place towards Turner where the base has been laid and within the next week or so soon as the weather permits, this will be surfaced.

During the past summer about six miles of road has been paved by the county plant. About 2 1/2 miles of this was on the road between Salem and Liberty and about 3 1/2 miles on the Salem-Turner road. As yet the figures have not been carried out to give a correct estimate of what these roads have cost the county per mile. During the working season from 29 to 35 men have been employed.

In addition to the six miles of paving laid, the county has been at great expense in preparing the three miles of cut off road, surveyed by the state engineer to avoid the Jackson Hill on the Jefferson Way. This road leaves the main road at the Sunnyside school house and runs through a heavy timbered country and hills that required deep excavating. This cut off has now about all been completed, ready for paving and surfacing next spring and will be one of the scenic drives of this part of the Pacific highway. The old stage route over the Jackson Hill, famous as the highest point between the mountains to the south and Portland will soon be only a memory and those living in that section will probably build cross roads to connect with the highway.

With the coming of the spring of 1920 the county court will have three paving plants working on market roads. The good roads program calls for 125 miles of paved roads within the coming five years and 25 miles of graded roads. As yet no plans have been made as to where the early paving will begin next spring.

Alois Hansuska Dies At Hospital This Morning

Alois Hansuska, a farmer living near Woodburn died this morning at one of the city hospitals, at the age of 53 years, after an illness of two years. He is survived by a wife. The body was shipped this afternoon by Webb & Clough to Woodburn for burial.

REDS SEND CICOTTE TO BENCH AND WIN, 9 TO 1

throw to first in an attempted double play. Neale up. Neale singled over second. Kopf going to second. Wingo up. Wingo singled to right, scoring Kopf and sending Neale to third. Wingo took second on the throw in. Reuther up. Reuther tripled to left scoring Neale and Wingo. Rath up. Rath doubled along the left field foul line scoring Reuther. Daubert up. Daubert singled to right scoring Rath. Daubert went to second on the throw in. Wilkinson now pitching for the Sox. Groh flew to Felsch. Five runs, six hits, no errors.

MRS. WINSLOW'S SYRUP

Makes Babies Happy

Some people try to cover up the puckery taste of common tea with sugar and milk. The user of fine tea doesn't have to use sugar and milk unless he likes it better that way—the full delicious flavor of the tea is good enough for anybody. Anyway, why waste good sugar and milk on common tea? Schilling Tea is the fine practical tea for the economical American housewife.

There are four flavors of Schilling Tea—Japan, Ceylon, India, Oolong, English Breakfast. All one quality. In parchment-lined moisture-proof packages. At grocers everywhere.
A Schilling & Co. San Francisco

THIS WEAK, NERVOUS MOTHER

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Philadelphia, Pa.—"I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which added to my weak condition kept me worrying most of the time—and he said if I could not stop that, I could not get well. I heard so much about Lydia E. Pinkham's Vegetable Compound. I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness."—Mrs. J. WORTHINE, 2842 North Taylor St., Philadelphia Pa.

The majority of mothers nowadays overdo, there are so many demands upon their time and strength; the result is invariably a weakened, run-down, nervous condition with headaches, back-aches, irritability and depression—and soon more serious ailments develop. It is at such periods in life that Lydia E. Pinkham's Vegetable Compound will restore a normal healthy condition, as it did to Mrs. Worthine.

RIGHT OF WAY FOR MT. HOOD LOOP IS CONVEYED TO STATE

The right of way to the Mt. Hood and Hazlet road, a part of the proposed Mt. Hood loop road, is conveyed to the state of Oregon in a deed presented to the state highway commission today by Geo. W. Joseph of the firm of Joseph, Haeny & Littlefield of Portland. The right of way was conveyed to

Joseph in the liquidation of the road and Joseph in turn donates the right of way to the state for highway purposes. The road covered in the conveyance extends from Sandy in Clackamas county, easterly to Government Camp thence to the town of Wapinita in Wasco county. The deed gives the right of way to the highway commission "to have and to hold unto the state of Oregon, with all its mountains and hills, its forests and vines, its flowers and shrubs, its valleys and dells, its crags and rocks, its gorges and canyons, its glaciers and snow fields, its rivers and streams, its lakes and springs, its animals and birds, its tempests and storms, its lights and shadows, its trails and paths, and the beauties and grandeur

of Mount Hood, for the use, benefit and pleasure of all forever." The deed was recorded in Clackamas county before being presented to the state highway commission which has as yet taken no action toward the acceptance of the right of way conveyed in the document.

The newly organized Stewart Tire company will establish a factory on Main street in Oregon City that will employ about 100 workers.

Aberdeen shipyards have raised the scale of wages to the level demanded by the unions, and it is not likely the strike will spread to that city.

The E. R. Parker System in Dentistry

THE twenty-four dental offices using the E. R. Parker System are open to visitors every week day between 8:30 a.m. and 6:30 p.m. They are well worth coming to see, for they show how, under this System, the practice of dentistry today has outgrown the one-man small office of yesterday. They show how this System has raised dentistry itself to the level where it rightly belongs, and how its many benefits can now be enjoyed by the masses rather than by the few.

Dentistry by the Parker System on a large scale is beneficial to all both as regards service and price. Service is distinctly bettered and prices materially cut down. Under the E. R. Parker System, examinations and consultations are free. Visitors are waited upon promptly. The price for all work is given in advance, so there may be no misunderstandings. The System saves much time for the patient, and work is done with

fewer visits. The specialist idea is carried out. Whatever work your teeth require is done by dentists skilled in that particular branch of dentistry. The System has no place for incompetency. Residents of this city and visitors from out of town are invited to call and get a better idea of what the E. R. Parker System stands for in dentistry. The choice of a dentist is something that means a great deal to you.
