

AUTO LAWS NOT ENFORCED THRU PARTS OF STATE

If automobile owners in the remote counties of the state are not complying with the state law requiring the payment of a license and the use of a license tag as reported by R. A. Booth, state highway commissioner, it is due to the failure of the police officers, sheriffs and constables of the communities in enforcing the law, according to a letter written to Booth by Sam A. Koser, deputy secretary of state.

"It has been observed by me and others—especially in remote counties of the state like Coos and Curry and Klamath—that quite a good many of the automobiles are without license tags, indicating they are not registered," Booth writes in his letter to the secretary of state's office. "Is there any way in which this matter could be more carefully guarded, without creating an unwarranted expense?"

In his reply Koser declares that "the duty of enforcing the provisions of the motor vehicle law is vested solely in the police officers of the cities and towns, sheriffs, deputy sheriffs and constables of the counties."

"This includes all violations, both as to licensing and the operation of motor vehicles on the highways of the state," the letter continues. "The duties of the secretary of state are merely to register motor vehicles and chauffeurs as appropriate applications are received from time to time, and assign appropriate license number plates and chauffeur badges under such applications. It has no police power whatever."

Every form letter and blank issued from the secretary of state's office calls attention to these facts regarding the enforcement of the motor vehicle law, the letter states, and complaints registered with the office regarding the violation of the law are promptly forwarded to the police officer of the community in which the violation occurs.

Anti-cigarette Petition Ready For Signatures

The ballot title to the proposed anti-cigarette law initiated by D. E. Frost of Oregon City, has been prepared by Attorney General Brown and is now ready for the signatures of registered voters, approximately 10,000 names being necessary to give the measure a place on the ballot at the next general election.

The purpose of the bill is stated in the ballot title as follows: "Abolishing cigarettes by prohibiting the sale, use or possession thereof; also prohibiting soliciting receiving orders for, or making contracts for the sale of cigarettes; prohibiting the advertisement of cigarettes; providing that the words 'cigarette' or 'cigarettes' as used in the act shall be held to include cigarette, cigarettes, cigarette paper, cigarette wrapper, or any substitute therefor, or any paper or form prepared to be filled with tobacco for cigarette use; defining the duties of officers in enforcing this act, and providing a penalty for its violation."

AUTO REGISTRATION IS MORE THAN 80,000

With a total of 2056 automobiles registered with the secretary of state's office during September the number of registrations for the year has now passed the 80,000 mark, figures on file in the automobile registration showing a total registration of 80,354 up to closing time September 30. With three months yet to go the total registrations for the year are expected to aggregate approximately 82,500, as against 63,325 registrations for the twelve months of 1918.

Collection of fees in the department have increased proportionately with a total of \$587,596 for the nine months ending September 30 as against a total of \$461,422 for the entire year 1918. Motorcycle registrations up to date total 3497, chauffeurs 2948 and dealers 566. The total transfers of motor vehicles during the period were 11,563 automobiles and 490 motorcycles, indicating a large traffic in used motor vehicles.

SCORES OF BELGIANS SEEK AMERICAN HOME

Thousands of Belgians of the most desirable class are only awaiting an opportunity to leave their native land to come to the United States to make their home, according to Val Martin of Oak Grove, who has just returned from four years of service with the Canadian army in Belgium. Martin was a caller at the office of Sam A. Koser, deputy secretary of state, Thursday, seeking some additional information regarding the resources and opportunities offered prospective settlers in Oregon to send back to Belgium. Oregon, he declared, is comparatively unknown in Belgium whereas California is heralded on every hand. Oregon, he contends must needs shake off some of her false modesty and tell the world about herself if she hopes to reap the reward that should be hers in the shape of these thrifty Belgian bankers, merchants and professional men who, discouraged with conditions in Europe are looking to the new world for a better future. Martin states that he did all in his power to advertise Oregon while in Belgium but that the job is too big for any one man to handle alone and declares that some organization should get on the job at once.
