

Society

By Gertrude Robison

An unusual amount of interest is entering upon the three big golf events scheduled to take place next Sunday, October 12, on the links of the Illihee Country club. The games which are attracting so much attention are the semi-final for the president's trophy, the qualifying round for the Gardner and Keene trophy, and the semi-final for the David Egge trophy. It is expected that nearly every member of the club will be in attendance as the games promise to be as exciting as anyone could desire.

Coming as an unexpected bit of social news, the announcement of the coming marriage of Harry Q. Mills is creating quite a ripple of excitement among the members of the social set. Mr. Mills will be married to Miss Ann Lamb, in Denver Colorado, on October 16th. He will be accompanied to Denver by his mother, Mrs. John A. Mills, a prominent club woman of Portland.

Mr. Mills is a former student of Willamette university and noted locally as a musician of exceptional talent. He has recently returned from two years overseas service and since his return has made his home in Portland. He is a nephew of Mr. and Mrs. E. T. Barnes, social leaders of this city. Miss Lamb visited here three years ago. She is an extremely attractive young woman and attracted a great deal of attention while a guest in the city, because of her remarkable beauty. After the ceremony the young couple will return to Portland to reside.

The beautiful country home of Mr. and Mrs. J. B. Janz was the scene of a delightful gathering yesterday, when they entertained a coterie of friends and relatives at dinner. The prettily appointed table was artistically centered with a bowl of late roses and covers were laid for Mr. and Mrs. A. F. Janz of Salem, Ralph Johnson of Oregon City, Mrs. Bud Chambers and small daughters Mildred and Dorothy, Bridget of Oregon City, Mr. and Mrs. E. J. Adams of Silverton, Carl Johnson of Oregon City, Miss Laurel Janz, Miss Oreta Janz and Saul Janz, of Salem.

With the course in excellent condition and the weather conditions ideal, a large number of club members attended the golf events.

METHODISTS DECLARE FOR TREATY APPROVAL

(Continued from page one)

Bishop Hughes, "and the mother of so worthy a man as our resident Bishop," was adopted.

Bishop Hughes was retained, by unanimous will of the conference, in his post. He acknowledged this with a brief address of thanks and appreciation of the co-operation and assistance of the ministerial delegation.

A strong plea for the Christian Advocate, church publication, was made by Rev. Robert H. Hughes, its editor. He said that he would like to see one copy of the Advocate to every five members of the church, anyway.

BRITISH STRIKE ENDED

(Continued from page one)

Until September 30, 1920, when they will be reviewed in the light of the existing circumstances. The government will pay the arrears in wages which were withheld owing to the strikers' breach of contract. The government also made the concession of reopening negotiations with the strikers after the premier had refused to engage in further discussion until the men returned to work. The strikers conceded the readjustment of the wage level in September, 1920, and granted minor concessions relating to minimum wages.

INDUSTRIAL ROUND TABLE CONFERENCE OPENED BY WILSON

Washington, Oct. 6.—In the absence of the president, who was to have opened the conference, Secretary Wilson this afternoon formally opened the industrial round table conference.

"I regret very much that the illness of the president has made it impossible to greet you," said Secretary Wilson in opening the session. "I had hoped that he might be here in person to bid you welcome and by the clarity of his vision, the soundness of his judgment and the felicity of his speech have assisted you towards accomplishment of the great purpose he had in mind when this conference was called."

"The whole world is face to face with the most difficult peace time problem it has ever had to deal with. The wastage of war has been tremendous."

"The power of replacement of things destroyed has been seriously impeded by the conditions that constitute the aftermath of war. Industry has been disarranged by the processes of readjustment to the needs of peace and commerce has been handicapped by insufficient shipping facilities, foreign and domestic uncertainties."

"Many countries are without stable government, and financial inflation in all of the commercial values in all the world has played havoc with the relative values of money, wages and commodities."

"The effect of these things has been reflected in the high cost of living and the consequent demand for higher wage rates to meet the increasing burden of the family."

Washington, Oct. 6.—(United Press.)

The four railroad brotherhoods have decided to accept representation at the round table industrial conference, which opens this afternoon, according to Legislative Agent Roberts of the American Federation of Labor.

Roberts said the brotherhood delegates would be President W. G. Lee of the trainmen; President Timothy Shea of the firemen; President T. E. Shepard of the conductors and Herman Wills, legislative agent of the locomotive engineers.

President Bert M. Jewell of the railway department of the American Federation of Labor also has decided to accept the invitation to be delegate, Roberts said.

Mrs. Carrie Chapman Catt, president of the National Woman Suffrage association, today declined to join the conference because of previous engagements. Miss Lillian Wald, New York, social worker and writer, was named in Mrs. Catt's place.

Fourteen railroad unions considered withdrawing from the conference because no effort was made to meet their proposal that the conference be enlarged to include one representative from each national and international union.

Only the United Mine Workers of America are now without representation.

tion, their acting president, John L. Lewis having declined his invitation to serve as a delegate.

EVERYTHING READY FOR POLK COUNTY'S EIGHT ANNUAL FAIR

All will be ready for the opening of Polk county's eighth annual fair next Thursday, October 9. The weather man has promised fine weather for the week, sending the rain this week instead. The exhibits are already being assembled and from the number coming in, that part of the fair will not be neglected.

A new feature of the fair this year will be an automobile show, promoted by a number of local dealers, who promise to make it an annual event hereafter. Under a big tent on the grounds four of the leading garages and automobile dealers will have a combined exhibit of latest model cars, trucks, tractors and accessories. No extra admission will be charged for this show. The dealers who are promoting this enterprise are Dallas branch of the Salem Automobile company, the Shreve garage, the Coast Motor company and the city garage.

The amusement features of the fair will be better and more numerous this year than ever before. Big Chief Williams, of Grand Ronde, with a number of "braves" will give a free Indian show, including war and bear dances, every day. The Brown Amusement company will have the sideshow, merry-go-round, back racks, etc.

Two big airplanes will be on the ground just west of the fair grounds. One will be the big government Haviland, which did fire patrol duty out of Salem, and the other will be the No. 1 of the Eugene Aero company, which will carry passengers. The latter machine will be piloted by Lieutenant Earl Woolsey, a former army instructor with more than 200 trips with passengers since leaving the army and has never had an accident.

The Arab Patrol band of Portland will furnish the heavy music and there will be a daily program of vocal and instrumental solos.

Season tickets for the fair are now on sale at each of the local drug stores.

Wonderful Results At 70 From Internal Baths

Mrs. L. M. Wadlia, 2043 National Ave., San Diego, Cal., writes Tyrrell's Hygienic Institute of New York as follows:

"Within the last month have had wonderful results and all inflammation has nearly subsided. I could hardly expect a woman over 70 to receive benefit from a trouble of long standing so quickly as a younger person. Money could not buy my 'J. B. L. Cascade' if I could not get another."

It is difficult to believe how many internal troubles internal bathing will relieve until you realize that physicians agree that 95 percent of human ailments are caused by accumulated waste in the lower intestine.

The "J. B. L. Cascade," the scientific method of internal bathing, removes, in a perfectly natural way all poisonous waste, and has been so successful in promoting health that over half a million intelligent Americans are now using it regularly.

It is the invention of Chas. A. Tyrrell, M. D., of New York, who for 25 years was a specialist on internal bathing, and it is now being shown and explained by Daniel J. Fry of Salem, Oregon.

They will give you on request a very interesting booklet on internal bathing by Dr. Tyrrell, "Why Man of Today is Only 50 percent Efficient." Ask for it today and know more about yourself and your functions than you ever have before. (Adv)

Barnes Cash Store
E. T. BARNES, PROPRIETOR

Shirts, Coats, Socks

For Men, For Boys

Standard, Warmth Giving Wearables at Secondary Prices
